GENERAL DEPARTMENT.

NOTIFICATIONS.

No. 4582.—The 16th December 1915.—In the year 1903 His Majesty's Secretary of State for India sanctioned as a provisional measure the institution of a certain number of scholarships, tenable by natives of India, in Europe or America. The purpose of these scholarships was to provide for natives of India that higher technical education which might qualify them to assist in promoting existing native industries and developing new industries wherever this might be possible. Technical education for this purpose was defined as (*a*) the study of the scientific methods and principles underlying the practice of any handicraft, industry or profession, and (*b*) the application of these methods and principles to the handicraft, industry or profession in question. Law, medicine, civil engineering, forestry and veterinary science, being already provided for, were not included among the subjects to be studied by the holders of the technical scholarships and agriculture was excluded from the scope of the scheme.

2. The Government of India have decided to award, during the year 1916, one scholarship to each province, provided that the Local Government or Administration concerned has a suitable candidate to nominate, and that its recommendation is submitted in accordance with the principles which are stated in paragraph 5 below, and that the industry to be studied is either already developed or in the process of development.

3. It may, however, happen that, owing to the dearth of eligible candidates in certain provinces, two or more scholarships may on occasion be available for allotment to other provinces. If, therefore, a Local Government is in a position to recommend confidently more than one candidate, such recommendation may be submitted to the Government of India. In such cases the candidates need not necessarily be selected for the same industry.

4. As regards the year 1916, it has been decided, after consultation with representatives of the mercantile and industrial communities, that one candidate will, if possible, be recommended for a scholarship in connection with the Motor Engineering industry. If a second scholarship is allotted to Bengal, a second candidate may be recommended in this subject. The selection will depend largely on the character of the applications received.

5. The principles in accordance with which recommendations for scholarships will be submitted to the Government of India are as follow:—

(*a*) In making selections Government will bear in mind the fact that it will be necessary for the students to have a competent knowledge of English, or of the language of any other country to which they may be sent.

(*b*) Government will also be guided by considerations of the capacity and intelligence of applicants, and of the practical interest shown by them in the industry selected, as also the assurance which they may afford that they will continue to devote themselves to the industries selected on their return in India. These being matters which cannot be decided by competition, it is to be understood that the scholarships are not to be regarded as prizes, for which every one has a right to claim an equal opportunity of competing.

(*c*) As a general rule a scholar, before being nominated, should have received the best technical education available in the province in the particular industry which he proposes to study. The standard of this education differs in different industries, and each may be considered on its own merits. Even if the standard of technical education in a particular industry is low, the scholar may be nominated, if he has availed himself of the best facilities obtainable, and shown an interest in the industry selected.

(*d*) No age-limit is fixed for scholars, but an age-limit may, at the discretion of Government, be fixed for any particular scholarship for which they invite applications.

(*e*) No scholar shall be selected without passing a searching examination as to physical fitness to undertake the manual work which will be an essential part of his career.

(*f*) Before a scholar leaves India to take up his scholarship his parent or guardian should be required to show that he had sent to the Secretary for Indian students in London a sum of £15 for initial expenses.

6. The following are the conditions and terms on which the scholarships are tenable:—

(*a*) The value of the scholarships has been fixed at £150 a year, exclusive of fees payable to the institutions where the scholars will study, and travelling expenses; but in special cases Government will consider proposals for increasing the amount of the scholarships.

(*b*) In ordinary circumstances the period for which a scholarship is tenable will be two years, but in special cases it may be increased to a third year, or, on the other hand, it may be reduced below even two years.

(*c*) The scholarships are tenable in foreign countries as well as in Great Britain, and are payable from the date on which a scholar reports his arrival in the country which he may have selected for the purpose of study.

(*d*) The scholarships are tenable by persons who are natives of India within the meaning of section 6, Statutes 33 and 34 Vic., Cap. 3.

(*e*) The scholars, while in England or elsewhere, will be under the supervision and control of the Educational Adviser of Indian students in London. The conditions under which they will hold the scholarships are given in the "Rules for Indian Government Technical Scholars in England," a copy of which is attached to this notification.

7. It is essential, not only in the interests of the scholars themselves, but also in order to avoid unnecessary extensions of scholarships, that the beginning of the period of the scholars' residence in England should coincide with the opening of the academical session of the institution which they propose to enter. It has accordingly been arranged, in consultation with the Secretary of State, that scholars shall report themselves in England not later than the middle of September. It has also been ascertained that it is

of no advantage to them to reach England earlier than this, and that consequently they should not ordinarily leave India before the middle of August.

8. The special attention of candidates is invited to the fact that scholars must depend upon their own exertions when they return to India, and that the Government cannot, and does not, undertake to provide them with employment.

9. All applications for scholarships to be awarded during the year 1916 must reach the Director of Public Instruction on or before the 15th February 1916.

10. Applicants for scholarships must state their birthplace, age and father's name and occupation and file certificates as to (1) moral character and antecedents, (2) educational qualifications, (3) knowledge of the language of the country in which the scholarship is to be held, and (4) physical fitness. Candidates must name the country to which they propose to proceed and the course of studies which they propose to take up while in receipt of scholarships. They should also state whether they have had any actual experience of the industry for which the scholarship is offered.

RULES FOR INDIAN GOVERNMENT TECHNICAL SCHOLARS IN ENGLAND.

1. The Secretary of State considers it desirable that all Government scholars should avail themselves of the information and advice which the Educational Adviser to Indian students is in a position to give them, and these rules are framed with that end in view. Government scholars, equally with private students, may consult the Educational Adviser upon any question, and will receive from him all possible assistance, and the Secretary of State hopes that they will communicate with the Educational Adviser, not only on the occasions when they are directed so to do in these rules, but also in any circumstances of difficulty and whenever they desire advice or information. Scholars will be regarded as being under the supervision and charge of the Educational Adviser, to whom they should in all cases address any communication they may have to make, and to whom also all report or other communications having reference to scholars should be sent. The Educational Adviser will bring to the notice of the Secretary of State on behalf of any scholar any question requiring his decision, and will communicate to the scholar the orders passed by the Secretary of State.

2. Every scholar should, on reaching England, at once call on the Educational Adviser* and report his arrival in writing. He should leave his address with the Educational Adviser and intimate to him from time to time all changes therein.

3. Every scholar should, without unnecessary delay, inform the Educational Adviser to which University, College, or other institution he is about to proceed, and should at once take steps to enter himself at the institution finally selected with his approval.

4. Every scholar must, within four weeks of reaching England, submit to the Educational Adviser, for the approval of the Secretary of State, a statement showing the general course of study he proposes to follow to carry out the objects of the scholarship granted to him: and he should, during his first college term, submit a further statement showing as accurately as possible the details of the total cost of such course of study. This latter statement should in every case be prepared in consultation with the Principal of the college or institution at which the student is entered.

The course approved must not be changed without the sanction of the Secretary of State.

5. Every scholar must give a written undertaking that he will devote himself exclusively, during the tenure of his scholarship, to the study of the subject for which his scholarship was granted, and that he will return to India on its termination, and there continue to devote himself to the industry which he has studied. Any scholar who neglects his studies, or tries to work for any other profession concurrently, will render himself liable to forfeiture of his scholarship.

6. Every scholar will be required to keep a concise daily diary, to be certified by the authority under whom he is working, and to be submitted

* The Educational Adviser's Office is at 21, Cromwell Road, South Kensington, S.-W.

at the end of each term through that authority to the Educational Adviser and to the Secretary of State for transmission to India. He must also submit, in the same way, from time to time, full notes of the work on which he is employed.

7. Scholars will be expected to continue their studies during the summer vacations of the institutions where they are working, with the exception of three weeks in each year. Vacation study should, when possible, take the form of practical work.

8. Applications giving a detailed programme of the vacation work the scholar proposes to do, accompanied with a complete estimate of any extra expenses for fees and travelling, must be sent in through the Principal of the institution or the Professor under whom the scholar is working before the end of the month of April. Scholars are not entitled to any subsistence allowance in addition to the scholarship allowance during time spent on vacation work, but a scholar who receives permission to visit the Continent may, if the Secretary of State for India in Council considers that the circumstances render it desirable, be granted a subsistence allowance calculated at such rate as the Secretary of State may decide.

9. Every scholar must, at the end of each term of residence at a University or College, submit to the Educational Adviser a certificate from the proper University or College authority, showing that his residence, conduct, and progress in study have been satisfactory during the term.

10. Every scholar must at all times obey such instructions as he may receive from the Secretary of State, either directly or through the Educational Adviser.

11. Subject to a due compliance with the above conditions, the allowance, at the rate of £150 a year for two years, or three years if so determined, will be paid quarterly in advance by the India Office, commencing from the date of the scholar's reporting his arrival in England. The first payment will be £37 10*s*. Three months after the date of reporting arrival the amount of the ensuing official quarter day will be paid. Subsequent payments will be made in advance, on or after each official quarter day. The allowance will be reduced by the amount of any other sum which may become payable to him out of the revenues of India in respect of residence at a University, College or institution during the same period or any part of it, but not in respect of University or College fees, the cost of which will be separately defrayed by the Secretary of State. Fees for private tuition are not defrayed by the Secretary of State unless previously sanctioned by him.

The necessary travelling expenses of scholars, by second class, or by third class if no second class be available, will also be separately defrayed by the Secretary of State; these should be claimed on forms obtainable from the Edcational Adviser.

Deposits and other charges which are part of the regular fees exacted by the authorities of the educational establishment in which a scholar is working will be paid by the Secretary of State; but charges for books, instruments, hotel bills, and medical attendance must be paid by the scholar himself (any refund of a deposit must be repaid to the Secretary of State).

12. No claim can be admitted for the payment or refund of any expenditure unless the scholar has obtained the *previous* sanction of the Secretary of State for India to such expenditure. (This does not apply to necessary travelling expenses referred to above.)

13. Every scholar will forfeit his scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to complete the required term of residence in England according to the terms and conditions approved by the Secretary of State under rule 4, or who is guilty of misconduct or disregard of the instructions of the Secretary of State. If a scholarship be forfeited, or if it be resigned before completion of its term, or if a scholar on completion of the term of his scholarship declines to return to India in accordance with the undertaking mentioned in rule 5, the scholar will lose his claim to a free return passage to India, and will further become liable to refund the cost of his free passage to England.

14. At the expiration of his scholarship a scholar is provided by the India Office with a free second-class passage to India. The scholar is not entitled to make his own passage arrangements and to claim an allowance in lieu from the India Office without the special sanction of the Secretary

of State. All communications on this subject are to be made to the Educational Adviser.

15. Should the Secretary of State be advised that the state of a scholar's health is such as to render his return to India desirable, the scholarship may be terminated forthwith and a free return passage granted to the scholar.

NOTIFICATIONS.

No. 1S.R.—The 3rd January 1916.—In exercise of the power conferred by section 85 (*d*) of the Bengal Excise Act, 1909 (Bengal Act V of 1909), as amended by the Bengal Excise (Amendment) Act, 1914 (Bengal Act VII of 1914), read with section 22 of the Bengal General Clauses Act, 1899 (Bengal Act I of 1899), the Governor in Council is pleased to direct that the following amendments be made in the rules published under Notification No. 595S.R., dated the 30th March 1915, at pages 549 to 562 of Part I of the *Calcutta Gazette* of the 31st *idem*, namely :—

(*1*) Before rule 57 *insert* the following :—

"*Transmission by post.*"

56*A*. The transmission of cocaine, or any preparation or admixture thereof, by post into, within or out of the Presidency of Bengal, is prohibited :

Provided that this prohibition shall not extend to the transmission by inland post of such preparations containing cocaine as are for the time being exempted from any of the provisions of the Act by a subsisting Notification issued by the Local Government under section 90."

(*2*) *For* rule 57, *substitute* the following :—

"*Export and transport of Cocaine.*

57. The export and transport of cocaine or any preparation or admixture thereof (other than such preparations containing cocaine as are for the time being exempted from any of the provisions of the Act by a subsisting Notification issued by the Local Government under section 90) in quantities in excess of the quantity obtained at one time and possessed by a person under a *bonâ fide* prescription of a qualified medical practitioner or qualified dentist may be made only as follows :—

(*i*) by a licensed chemist or druggist, and

(*ii*) by means other than the post (except when the export or transport is on account of Government), and

(*iii*) on the production—

(*a*) in the case of export to a district in British India, of permission from the Collector of that district.

or, in the case of a hospital or a charitable dispensary, of orders countersigned by a Civil Surgeon, an officer of the

I.M.S., or an officer of the R.A.M.C., or, in the case of a veterinary dispensary, of orders countersigned by a Superintendent of a Civil Veterinary Department,

(*b*) in the case of export to a Native State or foreign territory in India, of permission from the proper authority therein,

(*c*) in the case of transport within a district, of a permit granted by the Collector,
or, in the case of a hospital or a charitable dispensary, of orders countersigned by a Civil Surgeon, an officer of the I.M.S., or an officer of the R.A.M.C.,

(*d*) in the case of transport from one district to another, of a permit granted by the Collector of the latter district,
or, in the case of a hospital or a charitable dispensary, of orders countersigned by a Civil Surgeon, an officer of the I.M.S., or an officer of the R.A.M.C.
or, in the case of a veterinary dispensary, of orders countersigned by the Superintendent of the Civil Veterinary Department."

No. 28.R.—The 3rd January 1916.—In exercise of the powers conferred by section 5 of the Opium Act, 1878 (I of 1878), and with the previous sanction of the Governor General in Council, the Governor in Council is pleased to direct that the following amendments shall be made in the rules published under Notification No. 1225S.R., dated the 21st February 1898, as subsequently amended, namely :—

(1) In rule 9, sub-rule (2) and the proviso to sub-rule (2*a*) shall be cancelled; sub-rule "(2*a*)" shall be renumbered "(2)" and sub-rule "(2*b*)" shall be renumbered "(2*a*)"; and in sub-rule (3) the words and figures "clauses (1), (2) and (2*a*)" shall be substituted for the words and figures "clauses (1), (2) (2*a*) and (2*b*)."

IRRIGATION DEPARTMENT.

The 4th January 1916.

No. 1 Notification.—The following draft of (*1*) revised rules and (*2*) revised schedule of rates of tolls, which the Governor in Council intends to make and fix, in exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), and in supersession of Notification No. 2, dated the 31st March 1914, for the navigable channels of the Magra Hât Drainage scheme, as defined in Notification No. 4, dated the 22nd April 1913 (published at page 634, Part I, of the *Calcutta Gazette* of the 23rd *idem*), is published as required by section 12 of that Act for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 16th February 1916, and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

DRAFT RULES.

1. Every vessel entering or making use of the Magra Hât channels shall be liable to measurement for the purpose of ascertaining the tolls payable. In case of any reasonable doubt, the persons appointed by the Governor in Council as Collectors of Tolls or Navigation Canal Officers shall have authority to again measure a vessel notwithstanding that it was measured before.

2. Vessels for the purpose of determination of maundage shall be divided into three classes as follows :—

Class I—To include all vessels of the usual native types of build known as saltees, but not *bonâ fide* Tal (or palm tree) dongas *provided they are not used for carrying cargo.*

Class II—To include all other vessels of usual native types of build or cutters *including bholios and jolly boats.*

Class III—To include all steamers,* flats, barges, and other square-built boats.

The net maundage of every vessel, whether laden or empty, shall, for the purposes of the Canals Act, 1864, and of these rules, be determined by the following measurements :—

CLASS I.

A.—The product of one-quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel multiplied by three-quarters of the depth, measured from the top of the vessel amidships to the interior bottom of the vessel is to be taken as equal to the number of maunds upon which toll shall be levied.

* *The word "steamer" includes all types of mechanically propelled craft such as motor boats.*

B.—The measurement of the length to be made in feet, rejecting inches, and of the breadth and depth in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—Any vessel falling under this class, the maundage of which exceeds 50 maunds according to the above method of measurement will be given the option of compounding tollage according to the rules and rates contained in Appendices A and B or paying toll per trip as laid down for vessels of Class II in Appendix B (b): the maundage of such vessels will be determined according to the measurements laid down for Class I vessels.

CLASS II.

A.—The product of one-quarter of the length of the vessel from stem to stern measured outside and along the water-line multiplied by the greatest interior breadth of the vessel multiplied by the greatest interior depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which the tolls shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches, the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, rejecting any remainder of less than 12½ maunds. In the case of boats exceeding 500 maunds by measurement the maundage shall be reckoned to the nearest integral multiple of 50 maunds rejecting any remainder of less than 50 maunds.

D.—In the case of boats carrying passengers only, one foot shall be deducted from the full interior depth of the vessel, the other measurements and the calculations for maundage being made in the methods prescribed for vessels under Class II.

CLASS III.

A.—For vessels of class III, the number of maunds obtained by the system of measurement prescribed for vessels of class II shall be increased by one-half. For vessels of this class exceeding 1,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 100 maunds rejecting any remainder of less than 100 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

B.—In the case of steamers that have been surveyed under the Inland Steam-vessels Act, 1884, the registered tonnage entered in the certificate may be accepted as the tonnage of the steamer in lieu of measurement.

3. All vessels under class I, known and defined as saltees, will be charged under a system of compounded tollage in accordance with rules contained in Appendices A *and B (except where exempted under Rule 2, Class I (C).*

Saltees if brought into the canals from outside for sale may be allowed to pass on payment of single tolls leviable for class II boats, provided that the owner applies to the Toll Collector for such single tickets.

Boats of class II not exceeding 100 maunds measured by canal maundage will be allowed the privilege of compounded tollage at the rates specified in Appendix A at the option of the Supervisor.

4. Every vessel included in classes II and III entering or passing along the canal shall be furnished with a ticket on paying the prescribed toll. The ticket shall specify the station at which it has been issued, the name of the person in charge of the vessel, the date on which the voyage commenced, the point to which the vessel may proceed on the line of navigation, the maundage of the vessel, the amount of toll charged, the number of days allowed for the voyage, and the date of such last day. The number of days so allowed without additional payment shall be calculated as follows :—

Boats.—One day for every eight miles or portion of eight miles, to be traversed together with one day for every 100 maunds of measurement or part of 100 maunds.

Floats (timber).—One day for every five miles for any number of timbers not exceeding 50, and one day for every additional 50 or part of 50.

Rafts (bamboos).—One day for every five miles for any number not exceeding 500 and one day for every additional 500 or part of 500.

5. Every vessel which does not complete its voyage within the number of days allowed by rule 4 shall, for each day or part of a day in excess, be liable to an extra charge equal to one-half of the toll payable on the maundage of the vessel as per Schedule of Rates in Appendix B, provided that in no case shall the demurrage charged exceed Rs. 5 per diem. The Superintending Engineer may, at his discretion, exempt any boats on any line of navigation, or any portion of line of navigation, from the payment required by this rule.

Exemption from payment of demurrage may, at the discretion of the Collector of Tolls, be granted for vessels detained in the channels (steamers broken down and boats damaged) by stress of weather, should immediate notice of detention, for the information of the Collector of Tolls, Magra Hat channels, be given to the nearest toll-station.

6. All tolls are payable on demand and shall be paid at the toll-station before a vessel is permitted to proceed: Provided that *the Supervisor* may, at his discretion, permit vessels belonging to individuals or firms of recognized standing to proceed without prepayment on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

7. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorized to do so *and delivered on exit at the last toll-station, or at the branding station in the case of licensed saltees, when the ticket expires.* If, on demand, the ticket is not produced, such person shall assess the tollage as provided in rule 2, and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel will be liable to seizure and detention in accordance with the provisions of section 9 of the Canals Act, 1864.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls on payment of a sum of Re. 1: Provided that for tickets on which the total tollage is less than Rs. 4, the fee to be charged for a duplicate shall be one-quarter of the total tollage with a minimum of As. 4.

9. A vessel, which has been detained under these rules or under section 9 of the said Act, may not be removed from the place of detention without the order of the Collector of Tolls until the toll due has been paid. During such detention the manjhi, owner or agent must make arrangements for the safety of the vessel and cargo.

10. All vessels, whether the property of Government or of private owners, are liable for toll, except those exempted by the provisions of Bengal Government Circular No. 1*I*, dated the 11th July 1906.

11. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the Supervisor or Navigation Canal Officer. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank.

12. At places where mooring posts have been provided by the Supervisor or Navigation Canal Officer, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the Supervisor or Navigation Canal Officer may direct, and shall not be moored in any other manner.

13. The Supervisor or Navigation Canal Officer may, by written notice to be posted at the toll offices, prohibit the dropping of anchors or the putting up of bamboos or *buggees* in any specified part of the canals or on the banks.

14. Vessels shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the Supervisor or Navigation Canal Officer from time to time, and no boat shall be made fast to or be placed outside of boats so secured. No boat or raft shall be placed in such a position as to endanger the safety or obstruct the passage of other boats. Every vessel, when stationary, shall be securely fastened, and shall at all times have some person in attendance on board. Every vessel in motion shall have a sufficient crew.

15. Vessels passing through the canals shall keep in separate lines, empty boats keeping close to the bank, and those that are laden in the centre.

16. In portions of the canals where only one towing-path, exists, vessels shall moor on the side opposite to the towing-path, and the towing-path side shall always be kept clear.

17. Iron-built cargo-boats, with outside angle iron projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the edges of the angle iron so as to prevent them from causing damage to the locks.

18. No fire, or open, unprotected light of any description shall be used on boats containing petroleum, jute, hay or straw in any place prohibited by the Navigation Canal Officer or Supervisor, and no fire, or open, or unprotected light (except in the case of steamers, the galley and engine room fires and the electric light) shall be used on any vessel while in a lock basin.

19. No person shall wilfully or negligently allow a vessel to sink in the canals.

20. In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor or Navigation Canal Officer and his subordinates shall offer every assistance in removing the same.

If in three days after the occurrence of a wreck it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor or Navigation Canal Officer and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that, in cases where navigation is seriously obstructed, arrangements may be made at once to remove the wreck.

21. When a sunken vessel has been recovered, the Supervisor or Navigation Canal Officer shall cause notices to be posted at the locks, toll offices or other prominent places calling on those concerned to pay to the Collector of Tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the vessel and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section 9 of the Canals Act, 1864.

22. The purchaser of a vessel sold under the provisions of section 9 of the said Act shall have the right to take it out of the canal on the day of purchase, or within such time as may be allowed by the Collector of Tolls, without payment of tolls.

23. When any laden vessel which has sunk has been recovered, or when any ladden vessel has been seized under the provisions of the said Act or of these rules, the Supervisor or Navigation Canal Officer shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

24. If the Supervisor or Navigation Canal Officer be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 21 shall be effected by a notice exhibited in his office and by advertisement in at least one English and one vernacular Calcutta newspaper *as well as a local newspaper*.

25. No steam-vessel, whose length exceeds thirty feet, shall ply in the Magra Hât channels except in the following:—Diamond Harbour Creek, Usti Nainan outfall, Nazra khal, Sangrampur khal up to Sangrampur bridge, and the Surjipur outer khal up to the Surjipur bridge.

26. *Lights and signals.*—Every vessel, whether travelling or moored in the Magra Hât channels, must, between sunset and sunrise, carry a white light in a lantern on her forepart where it can be distinctly seen from all sides. All steam-vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam-vessel, whether in motion or moored, shall carry the light prescribed above.

27. *Speed of vessels.*—Every vessel plying in the Magra Hât channels must, between sunset and sunrise, limit her speed to three miles per hour. No steam-vessels shall ply between sunset and sunrise in channels detailed in rule 25.

28. No vessel shall remain in the outer entrance channels of the locks at Diamond Harbour and Uttarbhag nor in the inner lock channel and diversion channel of the Diamond Harbour lock and sluice, nor in the approach channels to any sluice. A board will be put up limiting the portion of the channels in which boats are not permitted to moor.

29. The places at which boats cannot be loaded or unloaded will be fixed by the Superintending Engineer, South-Western Circle, and will be demarcated with suitable posts and notice boards.

30. For any contravention of rules 10, 14, 15, 16, 17, 19, 20, 26, 27 and 28 *and rule 9, Appendix A*, the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 for any one infringement, or Rs. 5 a day for any continuing infringement.

31. The channels may be closed, whenever necessary, for effecting the necessary repairs to them on one month's notice of the intention so to close them being given; but, in the event of any sudden emergency, the channels may be closed at any time without prior notice, and no claim in such cases by owners of vessels or others for compensation on account of detention or otherwise shall be entertained.

32. The term "Navigation Canal Officer", as used in these rules, shall include all persons appointed to collect tolls under section 8 of the Canals Act, 1864, and all Public Works officers or subordinates in charge of the channel, not below the grade of Sub-Overseer.

33. No vessel whose beam exceeds 19 feet will be permitted to enter the channels through the Diamond Harbour lock. The same prohibition will apply in the case of the Uttarbhag lock to all vessels exceeding 14 feet beam.

34. Any vessel which enters the channels through the Diamond Harbour lock for the purpose of taking refuge during stormy weather will be charged a nominal toll of annas 8 per boat, provided that the vessel leaves the channel again as soon as the weather conditions permit, and does not load or unload cargo inside the channels. All vessels seeking refuge under this rule must anchor in the creek *between the Railway Station* and the Toll Collector's office and will not be permitted to proceed up the creek without paying the usual tolls.

35. Any vessel entering the channels through the Diamond Harbour lock and proceeding to load or unload at the Diamond Harbour Railway station only will be charged tollage at the rate of annas 2 per 100 maunds to include the return journey. *Five days' time will be allowed to such boats for the complete trip in and out of the lock.* Should such boats proceed up the creek, they will be charged the ordinary tolls.

The Toll Collector, Diamond Harbour, will issue a ticket when the boat enters the creek from the lock and will collect the same when the boat leaves the creek for the lock: if the quantity of cargo carried on exit exceeds that on entry he will charge tollage at the above rate on the excess amount only.

26. *The Superintending Engineer, South-Western Circle, may fix places where boats may remain for loading and unloading cargo without payment of demurrage.*

27. *Tolls will generally be levied at fixed toll-stations, but the Supervisor of the Canals may grant licenses anywhere within the canals, provided he is personally present.*

APPENDIX A.

Rules for licensing and registration of saltees or vessels under class I.

1. As provided for under rule 3, no vessel coming under class I, rule 2 shall ply, whether regularly or only occasionally in, or partly within and partly without the limits of, the Magra Hât channels unless licensed and registered by the Collector of Tolls of the Magra Hât channels *or exempted from such registration.*

2. Every owner of a vessel or his agent or manjhi shall *present his boat* to the Collector of Tolls, Magra Hât channels, for licensing and registration giving the owner's name and residence or those of his agent duly authorized to act for him.

3. Every license granted under these rules shall continue in force for either *three*, six or twelve months from the date of issue.

4. The license is not transferable, and if the owner or manjhi or both of the vessel be changed, notice of the transfer must be given to the Collector of Tolls, the Magra Hât channels, who will endorse the change of ownership on the certificate and register free of charge.

5. The license certificate granted for a vessel shall contain the registered number of the vessel, owner's name and residence, name of *manjhi*, the maundage measurements, amount of compounded tollage and the dates of issue and expiry and shall be kept on board. It shall be produced, when required by a Navigation Canal Officer, and shall be delivered up on the expiration of the license.

6. The charge for the issue of a duplicate license to vessels in lieu of those defaced or lost shall be Re. 1.

7. The registered number of every licensed vessel shall be engraved, or branded, as well as painted in figures easily discernible on both sides of the vessel for which a charge of Re. 1 will be made. These figures shall be legibly maintained during the period of the license.

8. On the expiration of the license, the *manjhi* shall deliver up his ticket to the Toll Collector at the station from which it was issued.

9. No person in charge of any licensed vessel plying within the limits of the Magra Hât channels shall use or have any ticket resembling those granted under the authority of these rules.

10. Every renewal of a license shall, unless the Navigation Canal Officer considers it unnecessary, involve the issue of a fresh license certificate without alteration in the registered number of the vessel.

11. Every vessel under class I, found plying in the channels without being licensed and registered, shall be charged a demurrage rate of Rs. 3 for every such offence, provided that such vessel is not proceeding to the nearest toll-station for the purpose of obtaining a license and being registered. *The fine of Rs. 3 shall be in addition to the usual charge for licensing.*

APPENDIX B.

KING'S POLICE MEDAL.

NOTIFICATION.

(POLICE.)

Delhi, the 1st January 1916.

No. 1-C.—His Majesty the KING-EMPEROR OF INDIA, has been pleased to confer the King's Police Medal on the following officers and men of the Indian Police establishments :—

* * * * *

BENGAL.

Name of officer and rank.	Statement of services for which in particular the decoration has been conferred.
20. William Thomas Moore, Deputy Inspector-General of Police.	This officer, who joined the Bengal Police in 1886 and has held charge of several important and heavy districts, was promoted to the rank of Deputy Inspector-General in Eastern Bengal and Assam in April 1911 and placed in charge of the Eastern Range consisting of the districts of Assam and of the Chittagong Division. On the constitution of the province of Bengal he was appointed to the heaviest police range comprising the 11 districts of the Presidency and Burdwan Divisions. As a Superintendent of Police he was commended for careful and hard work, and as Deputy Inspector-General of Police in Eastern Bengal and Assam he did much to improve the discipline and working of the force. His work in the Presidency Range has been equally satisfactory. Although in charge of a very heavy range he has devoted himself to his work with zeal and the efficient management of the range is due largely to his supervision and control. He is entirely responsible for the initiation and organization in Western Bengal of the village defence scheme which promises to be popular and which has, in several instances, been instrumental in preventing crime. He is a most zealous and conscientious worker, and an officer of sound judgment who has rendered long and meritorious service.

BENGAL—*concld.*

Name of officer and rank	Statement of services for which in particular the decoration has been conferred
21. Trevor Claude Simpson, Superintendent of Police.	This officer was commended several times for his successful administration of the police in the heavy criminal districts of Bakarganj and Monghyr. He is an enthusiastic and hardworking officer and a strong disciplinarian. He has done excellent work as Assistant to the Deputy Inspector-General of Police, Crime and Railways, and as Personal Assistant to the Inspector-General of Police, in which capacity his work during the past two years has been of a very high order. The recent progress in the reform and reorganization of the Police Department is attributed in a great measure to his indefatigable industry and hard work combined with his experience and devotion to duty.
22. Lionel Hewitt Colson, Superintendent of Police.	This officer was specially selected for executive work in the Intelligence Branch of the Criminal Intelligence Department, Bengal, on the reconstitution of the province in April 1912. He has fully justified his selection and has done remarkably good work. He is very careful and sound in his judgment and can be trusted to conduct the most intricate cases.
23. Keramat Husain, head constable.	This officer displayed conspicuous gallantry and presence of mind on the occasion of a Sonthal disturbance in Dinajpur in March last. After Mr. Burton, the Superintendent of Police, had been wounded, Keramat Husain assumed charge and with great presence of mind and by an intelligent use of his men succeeded in keeping the refractory Sonthals within their houses and in arresting them on the arrival of reinforcements from headquarters. The head constable by his gallant example prevented any further breach of the peace.

WILLIAM GRAHAM,
Secretary, Committee of Legal Education.

HIGH COURT, CALCUTTA. *the 22nd December, 1915.*

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

State Scholarship of £ 200 per annum tenable in the United Kingdom by Indian Girls or Women.

THE scholarship will be granted for medical or occasionally for other educational courses and will be tenable in the United Kingdom for a period of three years in the first instance, with possibility of extension in special circumstances, and in particular in the case of medical students, to four or five years. The scholarship will carry with it no conditions as to any subsequent career or service under Government, and no expectation of such employment is held out.

2. The scholar will be selected by the Government of India from among candidates nominated by the Local Governments. Intending candidates are requested to make application to the Assistant Director of Public Instruction, Writers' Buildings, Calcutta (from whom further particulars may be obtained), not later than 1st February 1916. The application should be accompanied by (1) evidence of having obtained the B.A. or B.Sc. degree or, in the case of a medical candidate, a degree in medicine of an Indian University; (2) a medical certificate of fitness to undergo abroad the course of study proposed; (3) a certificate of age; (4) a certificate from some person of recognised position well acquainted with the candidate, to the effect that she is a native of India and of purely Indian parentage; (5) the names, addresses and other particulars of friends or relatives in the United Kingdom to whom the applicant's parents or guardians are willing to commit her guardianship during vacation.

3. The selected candidate will be provided with a second class passage to England, and with a second class return passage if she completes the full period of residence or is compelled by sickness to return within that period.

4. It is also to be noted that before a State scholar leaves India to take up her scholarship, her parent or guardian will be required to show that she has sent to the Secretary for Indian students in London a sum of £25 for initial expenses.

5. The scholar will, on arrival in England, be required to bind herself by a written engagement to submit to the following rules and to such other regulations as may from time to time be framed by His Majesty's Secretary of State for India for the guidance of scholars in England:—

(*a*) Every scholar shall, on reaching England, at once call upon the Secretary for Indian students and report her arrival in writing. She shall leave her address with the Secretary for Indian students, and intimate to him from time to time all changes therein.

(*b*) Every scholar shall, without unnecessary delay, inform the Secretary for Indian students to which University she intends to proceed, and shall at once take steps to enter herself at the college she has finally selected with his approval.

(*c*) Every scholar shall, within four weeks of reaching England, submit to the Secretary for Indian students, for the approval of the Secretary of State, a statement showing the general course of study she proposes to follow, with a view to carrying out the objects of the scholarship granted to her; and the course approved must not be changed without the sanction of the Secretary of State.

(*d*) Every scholar shall, at the end of each term of residence at a University, submit to the Secretary for Indian students a certificate from the proper College or University authority showing that her residence, conduct and progress in study have been satisfactory during the term.

(*e*) Every scholar shall at all times obey such instructions as she may receive from the Secretary of State, either directly or through the Secretary for Indian students.

(*f*) Subject to a due compliance with the above conditions, the allowance, at the rate of £200 a year for three, four or five years, will be paid quarterly, in advance, by the India Office, commencing from the date of the scholar's reporting her arrival in England. The first payment will be £50. Three months after the date of reporting arrival the amount to the ensuing official quarter day will be paid. Subsequent payments will be made, in advance, on or after each official quarter day. The allowance will be reduced by the amount of any other sum which may become payable to her out of the revenues of India in respect of residence at a University during the same period or any part of it, and also by the amount of any University or College bills, of which payment is made by the India Office.

(*g*) Travelling expenses, hotel bills and charges for medical attendance are not defrayed by the Secretary of State.

(*h*) Every scholar will forfeit her scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to complete a residence in England for the prescribed number of years of the scholarship according to the terms and conditions approved by the Secretary of State under (*c*) above, or who is guilty of misconduct or disregard of the instructions of the Secretary of State. If a scholarship be forfeited, or if it be resigned before completion of its term, or if a scholar on completion of the term of her scholarship declines to return to India when instructed to do so, the scholar will lose her claim to a free return passage to India, and will further become liable, at the discretion of the Secretary of State, to refund the cost of her free passage to England.

(*i*) At the expiration of her scholarship, a scholar is provided by the India Office with a free second class passage to India. The scholar is not entitled to make her own passage arrangements and to claim an allowance in lieu thereof from the India Office without the special sanction of the Secretary of State. All communications on this subject shall be made to the Secretary for Indian students.

(*j*) Should the Secretary of State be advised that the state of a scholar's health is such as to render her return to India desirable, the scholarship may be terminated forthwith and a free return passage granted to the scholar.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES viz.

CALCUTTA, MADRAS BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

Lungkow harbour—Establishment of Chimatao light, bar leading marks and spar buoys.

No. 344 (first publication).—The Coast Inspector, Shanghai, has given Notice (No. 603 of 1915) of the establishment of a light on Chimatao Promontory, which was exhibited for the first time at sunset on the 3rd November 1915.

The illuminating apparatus is Dioptric, of the Sixth Order, showing a group-occulting *white* light every 30 seconds, thus :—

Light	...	...	...	16	seconds.
Eclipse	...	..	...	2	„
Light	...	...	...	2	„
Eclipse	...	...	...	2	„
Light	...	...	...	2	„

Eclipse	...	...	...	2	„

The light-tower is situated near the western extremity of Chimatao Promontory, and the light, which is elevated 198 feet above the level of the sea, should be visible in clear weather at a distance of 10 miles. The tower is hexagonal, of brick painted white, with a total height from base to lantern vane of 37 feet.

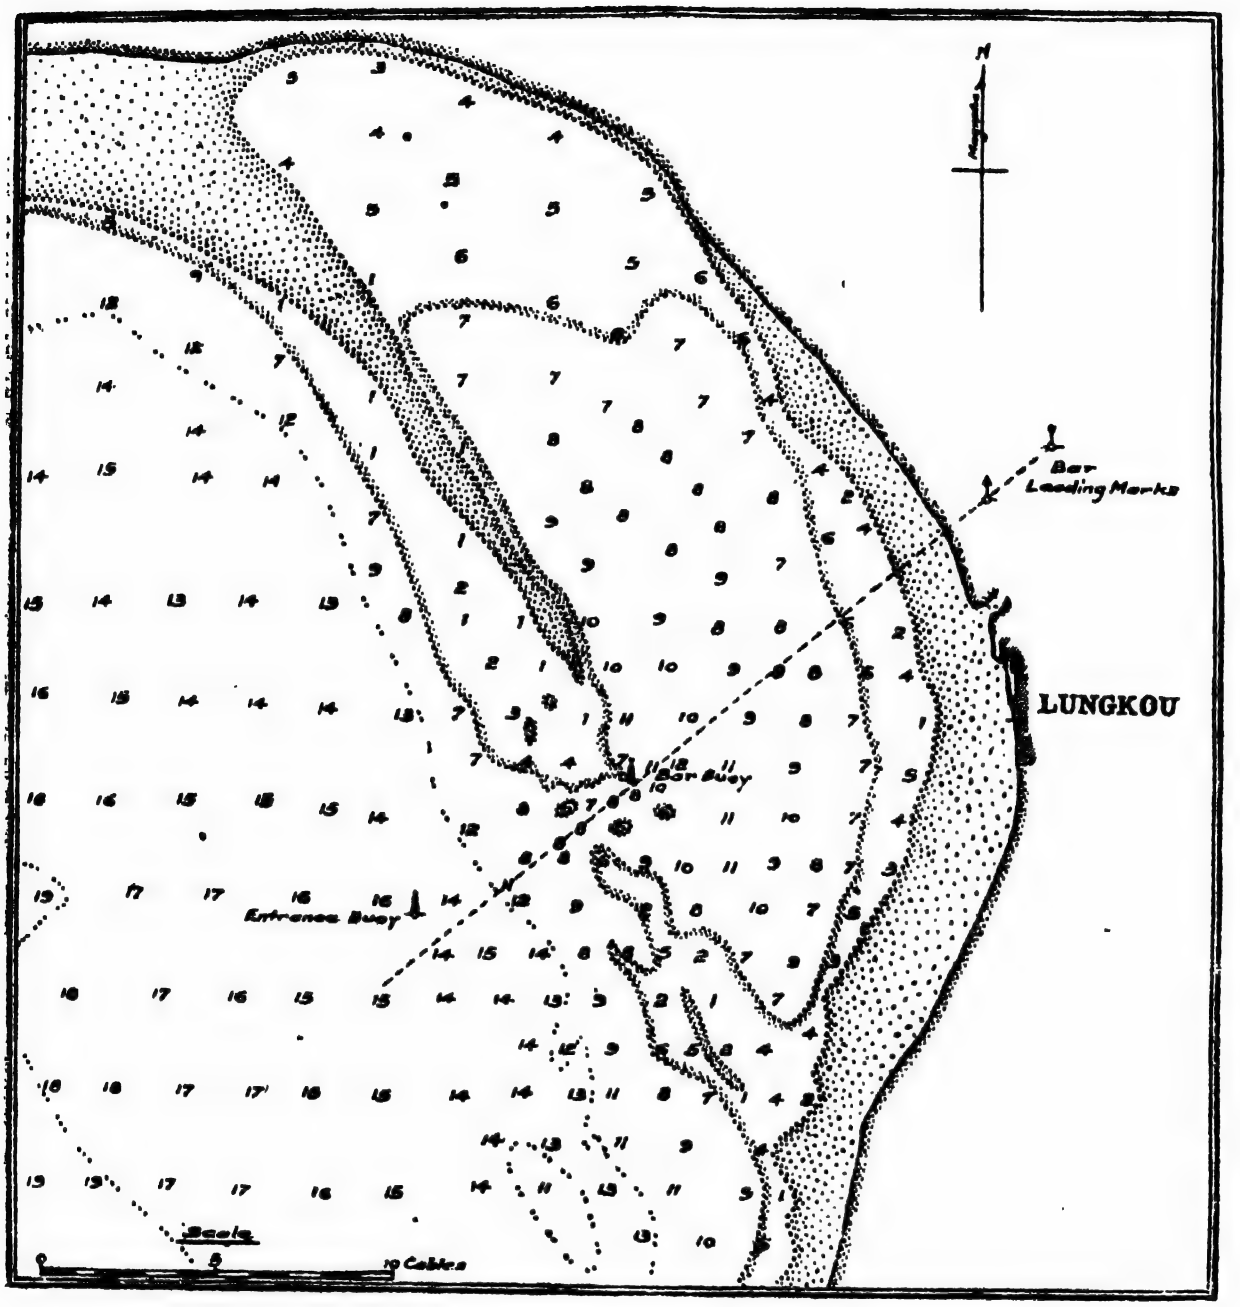
This newly established light replaces the previously existing unofficial light.

Notice is also given of the establishment of Leading Marks and Spar Buoys to mark the channel across the Bar as follows :—

Leading Marks, to be known as the Lungkow Bar Leading Marks, have been erected about ½ mile to the northward of the town of Lungkow. The front, or low mark, is a pole surmounted by a triangular shape. The rear, or high mark, which is 1,415 feet inshore from the front mark, is a pole surmounted by an inverted triangular shape. These Marks in line lead through the channel across the Bar, which has a least depth of 8 feet at low water of spring tides.

A *black* Spar Buoy, surmounted by a spherical day-mark, to be known as the Entrance Buoy, has been moored in 14 feet of water at low water of spring tides in the outer approach to the Bar. From the Buoy, Chimatao Lighthouse bears N. 42½° W., magnetic, distant 4·07 miles.

A *black* Spar Buoy, surmounted by a spherical day-mark, to be known as the Bar Buoy, has been moored in 8 feet of water at low water of spring tides on the northern side of the channel across the Bar. From the Buoy, Chimatao Lighthouse bears N. 52° W., magnetic, distant 4·28 miles.



CHINA SEA—TIENTSIN DISTRICT, GULF OF PECHILI.

Taku bar—Winter arrangements for aids to navigation.

No. 345 (first publication).—The Coast Inspector, Shanghai, has given Notice (No. 605 of 1915) that on or about the 1st December 1915 the following winter arrangements will be made for Aids to Navigation marking the Taku Bar and its approaches.

The advertised floating Aids to Navigation will, as usual, be removed, their positions being marked by *black* Spar Buoys.

The lighting of the River Mouth Leading Marks will be effected.

The power of the Taku Bar Outer Leading Lights will be increased.

The hulk *Tienching* marking the wreck *Guthrie* will be removed, its position being marked by a *black* Spar Buoy. A Pole Beacon surmounted by a spherical day-mark, and painted *black*, has been erected on the wreck. This Beacon will be unlighted.

NOTE.

Information concerning ice-breaking will be given in a future Notice.

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF DISTRICT BOARDS IN BENGAL DURING 1914-15.

MUNICIPAL DEPARTMENT.

LOCAL SELF-GOVERNMENT.

CALCUTTA, THE 29TH DECEMBER 1915.

RESOLUTION—No. 2993L.S.-G.

READ—

The Reports from the Commissioners of Divisions on the Working of District Boards in Bengal during the year 1914-15.

THE extension of self-government to the villages through the agency of Union Committees is an aspect of the local self-government policy which has for some time past been engaging the careful attention of Government. The far-reaching suggestions of the District Administration Committee, on

which the criticism of the public has been invited, for the creation of a network of Union Committees in amalgamation with the panchayati system, and the provision of a village judiciary, have been followed by the publication, in April 1915, of a Resolution embodying the local self-government policy of the Government of India and defining the general principles on which advance in village organization is most likely to be successful. The Local Self-Government Act offers full scope for the creation of village Union Committees co-extensive with panchayati unions, and cautious but steady progress is already being made by Government in this direction. The constitution of village Courts involving new legislation is now under the consideration of Government. The sustained development of Union Committees is among the most noticeable features of the year under review. Not only has their number increased, but these bodies are gradually awakening to their own vitality based on the power of self-taxation—a privilege which neither District nor Local Boards enjoy. It is not the intention of Government to constitute Union Committees, where there is no manifest willingness on the part of the villagers to avail themselves of the privileges of this organization. Areas in which President Panchayats have already been appointed may naturally be expected to offer scope for greater expansion in this respect. With these qualifications the Governor in Council desires to encourage district officers in consultation with District Boards to consider what steps should be taken for an early extension of this organization. While recognizing the inexpediency of introducing an elective system in unions not ripe for so advanced a measure, Government are prepared to accord liberal and sympathetic encouragement to villages exhibiting a genuine capacity and inclination for this development.

2. *District Boards.*—Increased activity was again shown in the number of meetings, which were 400 this year against 378 of the preceding year. Among these 8 proved abortive for want of a quorum. All District Boards met at least once a month. The number of members increased by 2 elected and 2 nominated through the enlargement of the Nadia Board. The District Boards of Bankura, Midnapore and Hooghly were reconstituted.

3. *Local Boards.*—There was no change in the number of Local Boards. The improvement shown last year as regards meetings and attendance is barely maintained. Of 943 meetings called 54 failed for want of a quorum, the total number of meetings held being slightly less than that of last year. Seventeen Boards out of 72 failed to meet once a month.

4. *Elections.*—General elections were held in Burdwan, Bankura, Midnapore, Hooghly, 24-Parganas and Nadia, and bye-elections in Nadia, Faridpur and Rajshahi. Lively interest is reported to have been taken in the general elections in the Presidency Division and in Burdwan, while even Bankura, where five thanas out of nine failed to return their representatives, shows an improvement on the previous elections. The irregularity of a presiding officer in one thana and a mistake in another made two elections void in the Presidency Division. Several of the bye-elections failed and the vacancies were filled by nomination. The election of District Board members by the Sadar Local Board at Khulna was declared void by the District Magistrate, and the litigation which followed prevented the reconstitution of that Board. The revision of the rules under which the electorate for Local Boards is constituted has been deferred pending consideration of the report of the District Administration Committee, which has recommended replacing the present Local Boards by Circle Boards elected from village Union Committees.

5. *Powers of District and Local Boards.*—There has been no change in the powers of District and Local Boards under the Act or rules framed under it. The Local Boards continued to administer the funds placed at their disposal for the maintenance of roads and improvement of village sanitation, and were in charge of the management of pounds, except those situated within the boundaries of a Union Committee, and ferries. There is, however, some variation of practice as to the control of primary education.

6. *Union Committees.*—The number of Union Committees increased from 55 to 65 in the Western Bengal districts and remained 11 in Eastern

Bengal. Seven new committees were established in the 24-Parganas, two in Khulna, one in Midnapore, and two more were sanctioned in Midnapore too late in the year for their establishment before the 31st of March 1915. Several new Union Committees in Eastern Bengal have been sanctioned subsequent to the year under review and further proposals are still pending, notably those of the Collector of Dacca. Importance is attached in the constitution of new unions to their coincidence, as far as possible, with Chaukidari Unions and the inclusion of the panchayats among the members of the committee. The average area of the unions was reduced during the year from 9½ to 9 square miles, and the average population from about 9,500 to below 9,000. The older Union Committees remain unaltered with a maximum population of 28,243 and a maximum area of 19 square miles. The number of meetings averaged about 7 during the year, and the number of members about 8.

The total income of the Union Committees, exclusive of the opening balance, increased by Rs. 30,768, and the total expenditure by Rs. 28,799 as against last year's increase of Rs. 27,453 and Rs. 26,686 respectively. The total closing balance was Rs. 28,056. Receipts from self-taxation under section 118C of the Local Self-Government Act, which last year were quadrupled, rose this year from Rs. 14,606 to Rs. 18,125. The three Union Committees in Birbhum continue to be conspicuous in the use of these powers, raising Rs. 7,528 out of the provincial total. Six Union Committees in Jessore raised Rs. 3,255. Two unions in Hooghly and two in Khulna record receipts from this source for the first time this year. Further extension in this direction is anticipated during the current year. The Memari Union Committee in Burdwan have resolved to impose local taxation, but a civil suit instituted against them has prevented them from carrying this into effect. District Board contributions at varying rates still form the bulk of the Union funds. Rupees 15,055 was distributed by the District Board of the 24-Parganas in contributions of over Rs. 1,000 each to Union Committees in that district which have not yet taxed themselves. In Birbhum the Bolpur Union received Rs. 415 from the Board against a local income of over Rs. 3,000, while the Dubrajpur Union raised a local income of over Rs. 2,000, but received no contribution from the District Board. Receipts under the Cattle Trespass Act have almost doubled in spite of the fact that none are yet credited to the seven new unions in the 24-Parganas. In Murshidabad the Aurangabad Union raised a subscription of Rs. 378 from the villages, and private contributions were received by the committees of Rajbari and Pangsa in Faridpur.

The proportion of closing balance to income including opening balance decreased from 24·7 per cent. to 23·6 per cent., but must still be regarded as excessive. The number of unions disposing of comparatively large sums increased, Rampur Hât in Birbhum spending Rs. 5,792, Contai and Feni Unions over Rs. 4,000 each, two others over Rs. 3,000, and four others over Rs. 2,000. The Union Committees in the 24-Parganas again made the fullest use of their available resources. Thirty-two unions in various parts of the Presidency ended the year with balances of less than Rs. 50. On the other hand, in eight cases the balance in hand at the close of the year exceeded Rs. 1,000. All the unions of the Burdwan district and four elsewhere retained closing balances in excess of expenditure. Two committees which held ten meetings each during the year under report spent in one case Rs. 373 only out of Rs. 1,734, and in the other Rs. 1,643 out of Rs. 3,908, while two others with small incomes show no expenditure at all. The Governor in Council would again urge on Union Committees the importance of prompt and energetic expenditure on works of utility up to the limit of annual resources.

Roads and village sanitation consumed respectively about one-half and a third of the total expenditure, while water-supply is the largest of the smaller items. In the Burdwan Division special mention is made of the interest taken by the Union Committees at Pandua and Dubrajpur in sanitation and water-supply. The latter union also paid special attention to the troublesome question of encroachments on village roads. A lively interest was taken in the roads in the Howrah district. In the Presidency Division special grants were made by the District Boards of the 24-Parganas, Nadia and

Khulna to unions for expenditure on sanitation. The Patkabari Union Committee in Murshidabad introduced tube-wells, and the Fultala and Daulatpur Unions repaired drains. But the most ambitious scheme reported is that of the Bagerhat Union in Khulna for the construction of a pucca drain in the Bagerhat Bazar at a cost of Rs. 3,255, of which Rs. 333 was spent during the year. The Feni and Akhaura Unions in the Chittagong Division continued their arrangements for conservancy.

7. *Financial results.*—The year opened with a balance of Rs. 51,19,881 to the credit of the District Boards, and the total receipts from all sources amounted to Rs. 1,00,47,964. The total expenditure during the year was Rs. 1,08,37,529. The closing balance was reduced to Rs. 43,30,316. The income and expenditure for the last two years under the main heads are shown below :—

(a) This includes the expenditure of Rs. 27 under "Land Revenue" and Rs. 1,979 under "Refunds and Drawbacks" and Rs. 3,400 under "Railways."

8. *Provincial rates* (*Rs. 58,88,305*).—The increase of Rs. 43,620 on last year was the net outcome of an increase of slightly over Rs. 2 lakhs in the Presidency and Burdwan Divisions set off against decrease in all three divisions of Eastern Bengal. Bad collections in this area, especially in the Dacca Division, were due to the failure of crops as well as the fall in the price of jute consequent on the outbreak of war.

9. *Police—Pounds* (*Rs. 3,69,408*).—The net receipt diminished by Rs. 8,364 shows the result in contrast with last year of a decrease of over Rs. 14,139 in the Eastern Bengal Divisions and an increase in the Burdwan and the Presidency Divisions. The Rajshahi Division shows the least satisfactory results with a decrease of over Rs. 6,000 in receipts, notwithstanding an increase of 23 pounds. The general explanation offered is the failure to realize arrears. Although some allowance must be made for unfavourable economic conditions, it is doubtful whether all the Boards are sufficiently careful in discouraging reckless bidding and insisting on the full realization of the sum for which the pound is settled. Facile remissions are an injustice alike to defeated bidders and the finances of the Board.

10. *Education* (*Rs. 12,58,929*).—The decrease of Rs. 3,23,472 was due mainly to decrease in the Government grant for the construction of primary school buildings, and affects all districts with the exception of Mymensingh and Tippera.

11. *Medical* (*Rs. 89,580*).—There was an increase of Rs. 10,368 due to swellings from Government and private contributions and endowments. Government contributions amounted to Rs. 31,782. Private contributions amounted to approximately half of the total receipts and represent an increase of Rs. 8,262 on last year. This increase is mainly due to a contribution by Babu Nagendra Nath Ghose of Rs. 20,000 for the establishment of a charitable dispensary at Nawapara in Barasat in the 24-Parganas. In

Khulna Babu Annada Prasad Ghosh contributed Rs. 15,000 for the maintenance of an indoor hospital and Babu Rajendra Kumar Ghose Rs. 5,800 for the construction of a dispensary building at Nawapara. These sums, which are not included in the above totals, have been credited under "Civil Works." The Governor in Council has learnt of these acts of generosity with great pleasure. It is disappointing, however, to admit that the net results of the year show less expansion than might be hoped for in smaller charitable contributions by the public.

12. *Railways* (*Rs. 69,651*).—The decrease of Rs. 36,018 on last year is attributed chiefly to the lack of jute traffic. A sum of Rs. 3,400 was received from Government by the Mymensingh Board for survey for light railway lines. The special attention of District Boards has been drawn to the paragraphs concerning railway construction by District Boards in the recent Resolution of the Government of India on local self-government policy. Local Governments are now empowered to legislate for the imposition of a railway cess and District Boards in suitable financial circumstances to augment their resources by raising a debenture loan with a view to railway construction. The Governor in Council will receive with interest any proposals of District Boards for making use of these facilities.

13. *Ferries* (*Rs. 4,29,062*).—There was a net decrease of Rs. 9,863, the result of an increase of over Rs. 15,000 in the Presidency and Burdwan Divisions and a decrease of over Rs. 25,000 in the Eastern Bengal Divisions. The District Board of the 24-Parganas realized Rs. 9,162 in excess of last year. A decrease of over Rs. 7,000 in the Dacca Division is largely nominal, being due to the fact that the Narayanganj-Munshiganj ferry in the Dacca district was leased out to the India General Navigation and Railway Company for Rs. 2,600 per year for five years, the Company bearing all expenses, including the upkeep of a steam-launch, whereas in previous years it was leased out to private persons at rents varying from Rs. 8,000 to Rs. 10,000, the Board having to maintain a ferry steamer at their own cost. A decrease of over Rs. 6,000 in the Chittagong Division and of over Rs. 13,000 in the Rajshahi Division is attributed to the depression in the jute trade with consequent falling off in traffic, and the failure of farmers to realize arrears on account of bad crops. The District Board of Rangpur offer no explanation for a decrease of Rs. 6,786.

14. *Grants from Provincial Revenues* (*Rs. 19,78,316*).—A decrease of approximately Rs. 2,56,000 was due to the fact that less money was available from the educational budget for expenditure through District Boards. There was an increase of Rs. 64,000 in the grants for Civil Works.

15. *Loans.*—No loans were raised by any District Board during the year under review.

16. *Expenditure.—Administration* (*Rs. 2,49,434*).—An increase of Rs. 17,976 was distributed through all the divisions. Periodical increment of pay, grain compensation allowance, travelling allowances of members, and office expenses in connection with the distribution of quinine were the main factors to which the rise is attributed. The office establishments of the Nadia and Murshidabad Boards were revised, and a head clerk and an accountant were substituted for the combined post in Mymensingh. Purchase of typewriters in three districts was again an element in raising contingent charges. The percentage of expenditure on administration charges ranged from 1·9 in Dinajpur to 5·1 in Nadia, as against a minimum of 1·6 and a maximum of 3·6 last year.

17. *Education* (*Rs. 24,95,478*).—By far the greater part of the increase of Rs. 3,36,000 was again due to increased expenditure under the sub-heads "Maintenance and Management of Primary Schools" and "Grants-in-aid," and was met out of the allotments received from the Imperial grants for primary education. These allotments were spent mainly on the construction and equipment of primary school buildings and in enhancing the pay of teachers. The number of lower primary schools maintained and aided by the Boards increased to 26,404, despite a falling off in the Burdwan Division due to bad health and damaged crops. Upper primary schools continued to decline slowly in popularity, falling from 2,957 to 2,905. The

proportion of expenditure on the maintenance and management of primary schools to the total cost of education was 33·3 per cent., and on grants-in-aid, the bulk of which was conferred on primary schools, 55·2 per cent. Expenditure on middle vernacular schools increased approximately from Rs. 78,500 to Rs. 80,000 and on scholarships from Rs. 38,803 to Rs. 39,174.

The progress in respect of Muhammadan education and the education of girls was maintained, while a particularly striking feature is the rapid increase in the number of Muhammadan girls at primary schools. In Dacca, for instance, the number of Muhammadan pupils in schools under the Board rose by 3,600, of whom no less than 1,600 were girls.

18. *Special schools and industrial development.*—Technical schools under the District Boards have not been altogether a success As anticipated last year, the Midnapore Technical School has been abolished, while it is doubtful if the Burdwan Technical School, now refused further affiliation for its sub-overseer classes, will survive much longer. Sub-overseer classes are to be closed in the Rajshahi Technical School. The Elliot Artizan School maintained by the District Board of Tippera shows poorer examination results in spite of a considerable increase in cost, and the Banamali Technical School at Pabna proves a heavy drain on the resources of the Board. The fitting of the newly constructed workshop for the Kashikishore Technical School at Mymensingh is almost finished, and it is hoped that more students will be attracted. The Weaving School at Malda has been provincialized, and the Mymensingh District Board have consented to vest the control of their Weaving School at Tangail in the Education Department. The Board have decided to construct a new school building, hostel and masters' quarters for this institution. Government have sanctioned the opening of a Weaving School at Pabna as an experiment for one year. The Chittagong District Board aided the Weaving School at Cox's Bazar, which is now popularizing the fly-shuttle loom among the local Magh weavers. The Rangpur District Board paid Rs. 4,100 to the Bayley Gobindalal Technical School. Considerable enterprise was again shown by District Boards in the grant of scholarships to industrial and special schools outside the district, such as the Serampore Weaving School, the Deaf and Dumb School, Calcutta, and other institutions. The silk industry of Midnapore continues to benefit from the teaching of the Sericultural Nursery at Sabong, while the example set by this institution in vegetable gardening is being followed by neighbouring cultivators.

19. *Medical* (*Rs. 6,92,357*).—The District Boards have shown themselves during the year under review, with few exceptions, fully alive to their responsibility for the provision of medical aid for the poorer classes. The total increase under this head amounted to Rs. 1,60,372, of which Rs. 1,31,527 was on account of medical charges, and Rs. 28,845 on account of sanitation and vaccination. All divisions shared in the increase. The number of dispensaries aided or maintained by the Boards was 160 and 243 respectively as against 165 and 205 last year. Sixteen dispensaries maintained by the District Board of Mymensingh were made over to managing committees receiving annual grants from the Board. Twelve additional dispensaries were made a charge on the District Boards of the Burdwan Division. Three new dispensaries were opened in the Nadia district. The dispensary at Nawapara in the 24-Parganas, for which a gift of Rs. 20,000 was made, could not be opened during the year. The Dacca District Board incurred increased expenditure of over Rs. 31,000 in connection with new dispensary buildings and in improvements to old. Two new dispensaries were opened in Bakarganj and a grant of Rs. 6,000 made by the Board to the Begum Hospital at Patuakhali. Increased charges of over Rs. 9,000 were incurred by the Chittagong District Board in establishing a new dispensary and enhancing grants-in-aid. Temporary dispensaries for the treatment of malarial fever and cholera epidemics were again maintained in Burdwan and Birbhum, private charity enabling one of those in Burdwan to be maintained throughout the year. A floating dispensary worked in Burdwan, while another is expected shortly to be established at Bakarganj. Special arrangements for medical attendance at markets were made in the

districts of Mymensingh and Bakarganj. Liberal use was made by District Boards of supernumerary and temporary doctors sent out to villages to cope with epidemics. Contributions were again made by certain District Boards to the Pasteur Institute at Kasauli, and scholarships were given to students from some of the districts at the Campbell Medical School in Calcutta and the Dacca Medical School.

The Governor in Council is much interested in the rapid extension of the distribution of quinine due to the increased energy and attention recently devoted to this problem by the District Boards. There is wide scope, not merely for free distribution, the financial limits of which must always fall far short of requisite consumption in malarial areas, but also for the promotion of sales by the enterprise of local agents and business-like facilities of supply. The value of quinine sold during the year through vendors of all classes increased from Rs. 19,153 to Rs. 45,931 in the Presidency Division and from Rs. 12,658 to Rs. 47,574 in the Burdwan Division. While the greater part of the sales was still through post offices, the services of other classes of agents in closer touch with the village and the market-place have also been enlisted. This experiment calls for liberal handling and careful supervision by District Boards in consultation with the Civil Surgeon. Considerable sums have been spent by various District Boards during the year on free distribution of quinine, notably Rs. 10,000 in Midnapore and Rs. 5,000 in Rangpur. In some cases this free distribution was made through dispensaries, in others by the Boards' doctors direct to villagers in malaria-stricken areas. But along with this expenditure on gratuitous distribution, the duty of facilitating sales, wherever possible, must not be forgotten. A hundred rupees successfully spent on the contingencies of sales will have pushed the benefits of quinine infinitely further than the fifty free boxes which it can provide.

20. *Sanitation* (*Rs. 1,19,884*).—All divisions shared in the increase of Rs. 30,501 except Chittagong. Comparison, however, on these figures is hardly possible, for whereas over Rs. 24,000 of the above total expenditure was incurred on account of water-works in Burdwan Rs. 1,82,000 spent on water-works and drainage in Chittagong has been accounted for under "Civil Works." Again in Midnapore an expenditure of over Rs. 20,000 represents payments for works of the preceding year rather than progress during the year under review.

The most useful work reported under this head is the maintenance of conservancy arrangements in small townships and at important rural fairs, often through the agency of Union Committees. Excavation of silted-up khals was undertaken by the Kishoreganj Local Board. For the rest expenditure seems to have been limited to petty schemes of jungle-clearing and ditch-filling in accordance with local needs. The benefit of such operations, where not systematically organized, is too often of a temporary and uncertain nature, and the Governor in Council is hardly satisfied that such works are conducted with the requisite co-ordination of the method and continuity of purpose to obtain the best return for the outlay. To secure this it is essential to establish a directing authority in the person of the Sanitary Inspector. Progress in this direction, however, remains disappointingly slow, except in the cases of the District Boards of Dinajpur and the 24-Parganas. The latter increased the number of Sanitary Inspectors from one to three, while the former created three appointments for Sanitary Inspectors, one for each subdivision, two of which were filled during the period under review. The Dinajpur Board continue to maintain a Health Officer at the Raiganj Bandar. The District Boards of Bankura, Mymensingh, Pabna and Malda appointed one Sanitary Inspector each during the year. No such appointment was created in the Chittagong Division, although Sanitary Committees have been formed in all these districts. The post sanctioned for a Sanitary Inspector in Jessore remained vacant at the end of the year.

21. *Veterinary charges.*—The increase of Rs. 14,579 was shared by all divisions with the exception of Chittagong, where, however, an increase of Rs. 1,000 in contributions to Government for the pay of veterinary assistants

results also in an increase of the full charges for veterinary service. Government have impressed on all District Boards the importance of establishing a veterinary assistant in each subdivision, and, while few District Boards have yet managed to attain this standard, it is chiefly to additional appointments that the increased charges are due. Two appointments made last year by the Bakarganj District Board were filled during the year under review. Two appointments were added this year by the Boards of Pabna and Murshidabad, and one each by those of the 24-Parganas, Nadia, Jessore, Burdwan and Bankura. The District Boards of Hooghly with five assistants and of Mymensingh with six, including in each case an assistant for the Sadar Veterinary Hospital, have the largest staff. The appointment of an attendant at the Mymensingh Veterinary Hospital led to a large increase in the number of in-patients. The District Board of Bakarganj acquired a site for a veterinary hospital in Barisal at a cost of over Rs. 11,000 (charged to "Civil Works") and decided to construct a small dispensary building with quarters for the veterinary assistant at each outlying subdivision. Scholarships tenable at the Belgachia Veterinary College were again awarded by some of the District Boards. Expenditure of over Rs. 2,000 was incurred by the Boards in the Dacca Division in the maintenance of bulls for breeding purposes.

22 *Civil Works* (*Rs. 60,38,991*).—A total increase for the province of Rs. 13,73.350 is attributable to fuller utilization by the Boards of the public works cess transferred in 1913. The expenditure on "Communications—Original Works" increased from Rs. 14,65,895 to Rs. 20,38,005, and on "Communications—Repairs" from Rs. 19,97,571 to Rs. 23,58,006. The mileage of metalled, unmetalled, and village roads at the close of the year was 1,880, 13,224 and 15,067 respectively, showing an increase of 36, 101 and 456 miles. Particular attention was paid to the prevention of encroachments on the roads by the District Boards of Birbhum and Hooghly. The purchase of a motor-launch by the District Board of Bakarganj at a cost of approximately Rs. 10,000 (charged to "Tools and Plant") is reported to have proved of great use in facilitating inspection by the Chairman and the District Engineer of minor waterways and remote works.

The percentage of lapses to allotments was reduced from 19·94 to 13·4 for the whole province, although several districts still lag behind in this respect. The District Board of Tippera alone returns a percentage of over 30 as against 7 Boards which did so in the abnormal circumstances of last year. Four other Boards let lapse over 20 per cent. of allotments, and only 9 Boards managed to keep the proportion of lapses below or about 5 per cent. The lowest divisional percentage was that of 6·9 for the Rajshahi Division. Particularly successful were the District Boards of Bakarganj with a lapse of only 0·9 per cent. on allotments of Rs. 4½ lakhs, and of Rangpur with a lapse of 0·6 per cent. on allotments of over Rs. 3 lakhs. In the former district the efficient working of a carefully prepared quinquennial programme, and in the latter the grouping of important original works in convenient centres for facility of supervision, appear to have contributed largely to this result. The Governor in Council would commend both principles to the attention of all District Boards in connection with their future programmes of construction and repairs.

23. *Water-supply* (*Rs. 5,96 580*).—Expenditure under this head, which last year rose by Rs. 1¾ lakhs, shows a further increase of Rs. 2,25,392, this being made up of Rs. 2,18.836 on account of original works, and Rs. 6,556 on account of repairs. To this increase the Chittagong Division contributed close on a lakh in all, the Presidency, Dacca and Rajshahi Divisions approximately half a lakh each, while in the Burdwan Division an actual decrease in charges under this head is barely counterbalanced by expenditure in Burdwan on water-supply under the head "Sanitation". Works undertaken were, as before, the excavation, renewal and clearance of tanks and the sinking of wells. A special overseer was appointed for the supervision of these works in the 24-Parganas, while the Bakarganj District Board have retained permanently the four sub-overseers employed on water survey at Government cost, with a view to placing an overseer in charge of

the water-supply of each subdivision. There remain a few districts in which the preparation of water-supply registers and maps is not yet complete. It is disappointing to find in some districts a lack of spontaneous participation by the villagers in the task of improving the water-supply. Schemes in Bankura and Midnapore were hampered by the unwillingness of villagers to contribute the one-third share of the cost, which in ordinary circumstances it is just and reasonable that they should provide. In the districts of Murshidabad and the 24-Parganas proposals for the improvement of private tanks on certain conditions and for the excavation of new tanks on land made over to the Boards for the purpose did not prove a success owing to the reluctance of proprietors to enter into agreements with the Board. In the Chittagong Division, however, an increased number of applications for grants-in-aid by owners of private tanks indicates a livelier appreciation by the public of the facilities now made available through the District Boards. The Governor in Council would earnestly appeal both to the commonsense of the peasantry for their co-operation in the movement for mitigating a want so keenly felt in parts of rural Bengal, and to the public spirit of the landowners for their assistance in finding land for this purpose. District Boards have been advised to make particular use of their resources during the current year from the public works cess on the excavation of tanks.

24. *Drainage* (*Rs. 49,982*).—The increase of Rs. 32,180 under this head was contributed mainly by the Presidency, Chittagong and Rajshahi Divisions. These figures hardly give a fair idea, however, of the drainage work actually done. Petty drainage works have in many cases been debited to sanitation, while over a lakh spent by the District Board of Bakarganj in excavating khals may be regarded as contributing to the drainage of the district. Out of the above total the Tippera Board spent about Rs. 25,000 and the Noakhali Board about Rs. 12,000 on the clearing of khals and drains, while the District Boards of Nadia and the 24-Parganas contributed Rs. 2,400 each for preliminary surveys in connection with the improvement of the rivers Bagerkhal and Jumna.

25. *Arboriculture* (*Rs. 28,728*).—Expenditure under this head decreased by Rs. 4,275. The District Boards of Dacca, Bakarganj and Malda spent nothing on the planting of trees. The Midnapore Board, though doing considerably less than last year, still incurred the highest expenditure (Rs. 4,000) and planted new trees along 27 miles of road. The District Board of Bankura began the working out of a ten-year plan submitted to the Director of Agriculture last year, and a sub-overseer was deputed by the District Board of Birbhum to Sibpur for training in arboriculture. Steady, if somewhat slow, progress in roadside tree-planting was made by several other districts.

26. *Railways*.—The construction of the Ahmadpur-Katwa Light Railway was begun by Messrs. McLeod & Co. during the year in Burdwan and Birbhum. In the Midnapore district the Bengal-Nagpur Railway have obtained permission to undertake a detailed survey for a broad-gauge line from Belda to Contai, and the question of the construction of lines from Panskura to Tamluk and Chandrakona to Ghatal is under the consideration of Government. The Barasat-Basirhat Light Railway in the 24-Parganas was extended a little over a mile by the removal of the terminus from Pattipukur to Belgachia, and the Railway Board have sanctioned the construction in this district by Messrs. McLeod & Co. of a railway on the 2'-6" gauge from Kalighat to Fulta, a distance of 26 miles. The Jessore-Jhenida Railway was opened during the year. The District Board have refused to recognize the transfer of the managing agency made by Messrs. Khetter Mohan Dey & Co. to Messrs. Law & Co. and disclaim liability for Rs. 14,000 claimed by the latter as guaranteed subsidy for the year. In Khulna the concession granted by the Railway Board to Mr. N. C. Dutt for constructing the Khulna-Bagerhat Railway was withdrawn, and the question of granting it to another firm is under the consideration of Government. In the district of Faridpur the proposal made by Messrs. Martin & Co. for the construction of a light railway between Pangsa and Boalmari was dropped as the Company declined to accept the guarantee of Rs. 32,000 offered by the Board. The District Board of Bakarganj have under consideration proposals made by the

same Company for the construction of a light railway in the Bhola subdivision connecting Elshaghat with Lalmohan.

27. *Closing balances* (*Rs. 43,30,316*).—The total closing balance of the District Boards (excluding deposits) decreased from Rs. 38,33,177 to Rs. 31,17,843. Of this closing balance Rs. 2 lakhs still consists of the Nawi and Sunti grants lying unspent with the District Board of the 24-Parganas. A further actual balance of over Rs. 3 lakhs was contributed by this Board, due partly to a large working balance retained in connection with a triennial programme, and excess of receipts over estimates on account of provincial rates. Mymensingh, Midnapore and Burdwan also return actual balances of over Rs. 3 lakhs, and five other districts of over one lakh each. Besides the actual balance, cheques to the value of over a lakh remained uncashed in Mymensingh. On the other hand, in Bakarganj expenditure by the District Board almost up to budget allotments, coupled with a decrease on estimates in cess receipts during the year, reduced the Board's closing balance to Rs. 7,018 as against a budgetted balance of Rs. 16,507. As, however, the balance of debt heads alone (contractors' deposits, etc.) amounted on 31st March 1915 to Rs. 20,700, the District Board had in effect encroached on these to the extent of Rs. 13,682, or, in other words, closed with a debit balance of that amount.

The Governor in Council views with extreme satisfaction the stability with which District Boards have stood the strain of the disturbed economic conditions which prevailed in some parts of Bengal on the outbreak of war. The year's record is not one of marking time, much less of reaction, but of prosperity and advance. The services of the following gentlemen are mentioned as of special value to the districts in which they have held office, and the Governor in Council desires to thank them and all others whose interest in local self-government contributed to these results :—

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 3rd January 1916.

Summary.—During the week under review light scattered showers fell in a few places in North Bengal. Reaping of winter rice is reaching completion: thrashing continues. The outturn is reported to be good. The harvesting of potatoes and of other *rabi* crops has commenced in some districts. The condition and prospects of the standing *rabi* crops are generally reported to be satisfactory. Cattle-disease is reported from two districts only. The daily average of persons engaged on test-works amounted, in Bankura, to 4,767 and in Tippera to 1,601. Gratuitous relief was given to 16,398 persons in these two districts as against 15,883 persons in the preceding week. The average price of common rice for the Province fell by about 1·9 per cent., as compared with that of the previous week.

Stamp As 8

MEMORANDUM OF AGREEMENT made this twenty-third day of December 1915, between Macneill & Co., Agents for the Rivers Steam Navigation Company, Limited, a Joint Stock Company with limited liability, having its registered office at Winchester House, Old Broad Street, London, and Kilburn & Co., Managing Agents for the India General Navigation and Railway Company, Limited, a Joint Stock Company with limited liability, having its registered office at Orient House, New Broad Street, London (hereinafter called the Companies) of the one part and the Secretary of State for India in Council (hereinafter called the Secretary of State) of the other part.

Whereas for the purpose of providing accommodation for passengers and for the construction of cooly lines and officers' quarters at Sirajganj, district Pabna, the Companies have applied to the Government of Bengal for the acquisition under the provisions of the Land Acquisition Act, 1894, of the piece or parcel of land containing 4 acres 2 roods 23·1 poles or thereabout situate in the village of Berarghona in the district of Pabna and more particularly described in the Schedule A hereto and delineated in the plan* hereunto annexed.

And whereas the said Government of Bengal, being satisfied by an enquiry held under section 40 of the said Act that the proposed acquisition is

* Not printed and published herewith but may be inspected in the office of the Subdivisional Officer, Sirajganj

needed for the aforesaid purpose and that the said work is likely to prove useful to the public, has consented to acquire on behalf of the Companies the piece or parcel of land hereinbefore described.

And whereas the said Government of Bengal has required the Companies under the provisions of section 41 of the abovementioned Act to enter into the agreement with the Secretary of State hereinafter contained. Now this Indenture witnesseth that it is hereby agreed and declared as follows :—

(1) On demand the Companies shall and will pay to the said Government of Bengal all and every compensation in respect of the said land tendered, paid or awarded or to be tendered, paid or awarded by the Collector under the Land Acquisition Act, 1894, or by the Court to which a reference under Part III of the said Act may be made or by the Court or Courts to which an appeal from the award of the said Court may be preferred and all costs, charges and expenses of the proceedings in the aforesaid Courts, or otherwise incidental to the proposed acquisition or payable in respect thereof under the provisions of the said Act.

(2) On demand made by the said Collector the obligations of the Companies under the last preceding clause not being thereby limited, the Companies shall and will deposit with the said Collector such sum or sums of money as in his discretion the said Collector may in anticipation estimate to be necessary for the purposes mentioned in the last preceding clause.

(3) On payment by the Companies of all demands under the foregoing first clause, or, in the discretion of the said Government of Bengal (on deposit by the Companies of all estimated amounts as provided in the second clause), but not before possession shall have been taken under the provisions of the above mentioned Act, the Secretary of State shall make over possession of the said land to the Companies and shall execute and do all such acts and deeds as may be necessary and proper for effectually vesting the same in the Companies.

(4) The said land shall be held by the Companies for the purposes of such a work as is hereinbefore mentioned and without the sanction in writing of the said Government of Bengal first had and obtained for no other purpose whatsoever.

(5) The Companies shall, for the convenience of passengers and to protect them from wind and weather, construct on a portion of the said land a waiting-room containing two rooms—one for first class and one for second class passengers. This work and the construction of the cooly lines and officers' quarters hereinbefore referred to shall be completed and fully equipped in all respects ready for use within two years from the date on which possession of the said land shall have been given to the Companies.

(6) Should the said work not be completed (and fully equipped in all respects ready for use) within the period stated in the last preceding clause or within such further period as in its discretion may be prescribed or allowed by the said Government of Bengal or should the said land at any time thereafter cease for a period of twenty-four consecutive months, to be held and used or cease to be required for the purpose or purposes provided for in the foregoing fourth clause or should the Companies lease out the land or any portion of it or erect or permit the erection of any shops or stall thereon contrary to clause 9 hereinafter contained then and in any such case the said Government may summarily re-enter upon and take possession of the said land, and thereupon the interest of the Companies in the said land shall absolutely cease and determine.

(7) On taking such possession the said Government may sell or otherwise deal with the said land as it may think proper. Should the said Government sell the said land, the said Government after deducting the expenses incurred in connection with the said taking of possession and with such sale shall pay the proceeds to the Companies. Should the said Government, on taking possession, decide not to sell the land, it shall repay to the Companies all sums received from the Companies in respect of all and every compensation as provided in the foregoing first clause (less the statutory allowance of 15 per cent.) but will not repay any sums paid and received on account of costs, charges and expenses.

(8) When the waiting-room mentioned in the foregoing fifth clause shall have been constructed passengers disembarking from, or persons intending to travel by, the Companies steamers shall be entitled to use the waiting-room free of any charge.

(9) The Companies shall not erect or permit the erection of any shops or stalls on the said land or on any portion thereof.

(10) Should any dispute or difference arise touching or concerning the subject matter of this agreement or any covenant clause or thing herein contained the same shall be referred to the said Government of Bengal and the opinion and decision of the said Government upon such dispute or difference shall be final and conclusive and binding on the parties hereto

PART II.

Description of Premises.

All that piece or parcel of land situated at Dehuapara, in thana Kotulpur in the subdivision of Vishnupur of the district of Bankura, containing an area 1 bigha 10 cottahs or thereabouts, and bounded on north, south and west by the khas land of the donor and on the east by the public road together with the kutcha building with corrugated iron roof lately erected thereon containing three rooms and a verandah and now or henceforth to be known as "The Nafar Chandra Kolay Charitable Dispensary."

SCHEDULE II.

Scheme of Management.

1. The endowment hereby created shall be called "The Nafar Chandra Kolay Charitable Dispensary Trust Fund" after the name of the donor, Babu Nafar Chandra Kolay.

2. The endowment is created for the purpose of establishing and maintaining a dispensary at Dehuapara to be called "The Nafar Chandra Kolay Charitable Dispensary" for the benefit of the public. The dispensary may be carried on on the land and premises mentioned in Part II of Schedule I or elsewhere as the Committee hereinafter mentioned shall direct.

3. The dispensary shall be managed and the income of the fund applied for its maintenance by a Committee of five, of which the Sub-Registrar, Kotulpur, and the Head Master, Kotulpur High English School shall be *ex-officio* members, the remaining members being the persons mentioned in clause 4 hereof. The Committee shall elect its President and Vice-President from among its members by a majority of votes. Any member may retire from the Committee at any time upon notice in writing to the others, who shall thereupon, or upon any member dying or becoming incapable of acting or refusing to act, proceed to elect a successor. The remaining or serving members may act pending the election of such successor for a period not exceeding three months, but the number of the Committee (inclusive of the President or Vice-President) shall not at any time be less than three.

4. The first non-official members of the Committee shall be Babus Sombhu Nath Ray, zamindar, Jibtia, and Rameswar Ghose and Kartick Chandra Mal, of Dehuapara.

5. The Committee may make and vary such rules as to meeting and the conduct of business as they shall from time to time think fit. In the event of difference of opinions on any question, the votes of a majority in number of the Committee shall prevail, the President having a casting vote. A minute book of Committee meetings shall be kept, and all proceedings at such meetings shall be entered therein.

6. The Committee may at any time sell or otherwise dispose of any immoveable property forming part of the endowment and in the event of any such sale or other disposition the Treasurer of Charitable Endowments shall execute and do all such deeds, acts and things as may be required to effect the same.

7. In the event of the whole or any part of the said fund being invested in immoveable property, the Committee shall have full powers of leasing the same in their own names upon such terms as they shall think fit, with power to accept surrenders of any lease or leases, and to collect or sue for the rent or profits receivable in respect of such property and generally to manage and control such property.

8. The Committee may vary and transpose any investments for the time being forming part of the endowment.

9. The Committee may accept any donations or contributions towards the expenses of the said dispensary and shall apply the same as if part of the income of the fund.

10. The income of the fund shall be applied by the Committee in payment of all rates, taxes, expenses, repairs and outgivings in respect of the said dispensary and towards the carrying on of the said dispensary, including the salaries of a physician and compounder and the cost of medicines and drugs and medical requisites, and of such staff, and servants as may be necessary or desirable, and generally in carrying on such dispensary so far as funds will permit. All salaries and wages shall be fixed by the Committee, who shall employ or dismiss *any such physician and compounder* and others as they may from time to time decide. The Committee shall nevertheless act upon and abide by all advice or requirements of the Inspecting officers of Government in the management of the dispensary. The Committee may open a banking account for the income of the fund in a Government Treasury with the sanction of Government or in the Post Office Savings Bank with the sanction of the Postmaster-General, but cheques or receipts shall be signed by the President or Vice-President and at least one of the members who shall from time to time be appointed by the Committee.

11. The dispensary shall be open to all persons for treatment and medicine without charge, and if the funds shall at any time permit, a ward may be opened for the reception of resident patients to such numbers as the Committee may decide In the event of there being more applicants than can be accommodated, the cases shall be referred to the Committee or to such persons as the Committee may appoint for decision as to who shall be received.

12. The Committee may make and vary rules for the guidance of the Medical Officer and compounder and for the conduct of the dispensary subject to the approval of the District Magistrate, but the Medical Officer shall be appointed by the District Magistrate.

13. Proper accounts shall be kept of all expenditure in connection with the dispensary or the fund, and such accounts shall be examined and passed by the Committee every three months or oftener if they shall think fit, and shall at all times be open to the inspection of any member of the Committee or the Treasurer of Charitable Endowments or any officer of Government appointed for that purpose.

NOTIFICATION.

No. 3411P.—The 11th January 1916.—The following is published for general information.

J. H. KERR,
Offg. Chief Secy. to the Govt. of Bengal.

Extract (paragraphs 1 and 2) from a Resolution by the Government of India in the Home Department, Nos. 2951-64, dated the 18th December 1914, as amended by that Department Resolution Nos. 1286-1299, dated the 15th April 1915.

IN supersession of the orders contained in the Resolution of the Government of India in the Home Department, No. 2831-2842, dated the 8th December 1899, the Governor-General in Council is pleased to issue the following instructions with regard to certificates of identity.

2. Every Native of India who contemplates proceeding out of India to foreign countries is strongly urged before leaving to furnish himself with an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency town and in the town of Rangoon, the Commissioner of Police) in the case of residents of British India, and by the Political Officer in that of residents of Native States. In the case of a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer (in a Presidency town and in the town of Rangoon, the Commissioner of Police) or Political Officer, as the case may be.

Appeals for assistance by destitute Indians who desire repatriation and by students who, owing to embarrassed circumstances, are unable to complete their course of education, cannot be dealt with satisfactorily unless the parties are in a position to produce evidence of identity. The possession of a certificate of identity will be specially useful to young men of good family, as it may enable the Secretary of State to obtain for them social and other attentions.

Those who are desirous, however, of travelling in countries where a passport will be necessary are advised to furnish themselves with such a document also before leaving India, in lieu of, or in addition to, a certificate of identity. It should be remembered that no person is entitled to a passport, as of right, on the ground that he is a British subject, and the production before authorities outside India of a certificate of identity, unless supplemented by documentary evidence of respectability, is not sufficient to ensure that a passport will be granted.

* * * * * * *

Form of Certificate of Identity.

1. Name of applicant_____
2. Father's name and caste_____
3. Residence_____
4. Age of applicant_____
5. *Nationality of applicant_____
6. Social or pecuniary status of father (or guardian)
7. Date of probable departure of applicant from India_____
8. Object of applicant's visit to England (Europe)_____

Signature of District Officer (in a Presidency town, the Commissioner of Police) or Political Officer, or head of school or college.†

Dated

* i.e., whether a British subject by birth, or by naturalization (or a subject of a Native State).

† Countersignature of the District or Political Officer should be obtained on certificates signed by heads of schools or colleges

NOTE.—Holders of certificates of identity intending to apply subsequently in England or elsewhere for a passport to visit a foreign country are warned that no person is entitled to a passport as of right on the sole ground that he is a British subject. The production of a certificate of identity, therefore, will not ordinarily be sufficient to secure the grant of a passport, unless it is supplemented by documentary evidence of respectability, endorsed by a local Government or other authority competent to issue passports in India, certifying that the holder is a fit and proper person to receive a passport.

No 411P.—The 10th January 1916.—In exercise of the power conferred by section 11 of the Indian Motor Vehicles Act, 1914 (VIII of 1914), read with section 21 of the General Clauses Act, 1897 (X of 1897), the Governor in Council is pleased to make the following amendments in the rules regulating the use of motor-vehicles in Calcutta (including suburbs) and the Municipality of Howrah (published under Political Department Notification No. 4095P., dated the 1st April 1915, on pages 1—25 of the *Calcutta Gazette Extraordinary* of the same date):—

Amendments.

(*1*) *To* sub-rule (*4*) of rule 13 in Part II of the said rules [All Motor-vehicles] *add* the following:—

"Provided that no head lights of any description shall be used in Calcutta on and within the limits of Strand Road (North), Galiff Street, Upper Circular Road, Lower Circular Road, Canal Road,

Napier Road from its junction with Canal Road to its junction with New Strand Road, New Strand Road and Strand Road (South)."

(2) *For* sub-rule (5) of the same rule *substitute* the following:—

"(5) So long as a motor-car or motor-cycle is in use during the period between three-quarters of an hour after sunset and one hour before sunrise, all lamps shall be kept lit and free from obstructions."

(3) *To* rule 20 in Part IV of the said rules [Motor-cabs ("Taxis")] *add* the following:—

"Provided that the Commissioner of Police may, in his discretion, grant a certificate of registration as a motor-cab in respect of a motor-car intended for use as a motor-cab even if such car has a clearance below ten inches."

(4) *To* rule 7 in Part VI of the said rules [Motor-lorries] *add* the following:—

"Provided that the Commissioner of Police may, in his discretion, grant a certificate of registration as a motor-lorry in respect of a motor-vehicle intended for use as a motor-lorry even if such vehicle has a clearance below ten inches."

IRRIGATION DEPARTMENT.

The 4th January 1916.

No. 1 Notification.—The following draft of (*1*) revised rules and (*2*) revised schedule of rates of tolls, which the Governor in Council intends to make and fix, in exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), and in supersession of Notification No. 2, dated the 31st March 1914, for the navigable channels of the Magra Hât Drainage scheme, as defined in Notification No. 4, dated the 22nd April 1913 (published at page 634, Part I, of the *Calcutta Gazette* of the 23rd *idem*), is published as required by section 12 of that Act for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 16th February 1916, and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

DRAFT RULES.

1. Every vessel entering or making use of the Magra Hât channels shall be liable to measurement for the purpose of ascertaining the tolls payable. In case of any reasonable doubt, the persons appointed by the Governor in Council as Collectors of Tolls or Navigation Canal Officers shall have authority to again measure a vessel notwithstanding that it was measured before.

2. Vessels for the purpose of determination of maundage shall be divided into three classes as follows :—

Class I—To include all vessels of the usual native types of build known as saltees, but not *bonâ fide* Tal (or palm tree) dongas *provided they are not used for carrying cargo.*

Class II—To include all other vessels of usual native types of build or cutters *including bholios and jolly boats.*

Class III—To include all steamers,* flats, barges, and other square-built boats.

The net maundage of every vessel, whether laden or empty, shall, for the purposes of the Canals Act, 1864, and of these rules, be determined by the following measurements :—

CLASS I.

A.—The product of one-quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel multiplied by three-quarters of the depth, measured from the top of the vessel amidships to the interior bottom of the vessel is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length to be made in feet, rejecting inches, and of the breadth and depth in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—Any vessel falling under this class, the maundage of which exceeds 50 maunds according to the above method of measurement will be given the option of compounding tollage according to the rules and rates contained in Appendices A and B or paying toll per trip as laid down for vessels of Class II in Appendix B (b) : the maundage of such vessels will be determined according to the measurements laid down for Class I vessels.

CLASS II

A.—The product of one-quarter of the length of the vessel from stem to stern measured outside and along the water-line multiplied by the greatest interior breadth of the vessel multiplied by the greatest interior depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which the tolls shall be levied.

* *The word "steamer" includes all types of mechanically propelled craft such as motor boats.*

B.—The measurement of the length is to be made in feet, rejecting inches, the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, rejecting any remainder of less than 12½ maunds. In the case of boats exceeding 500 maunds by measurement the maundage shall be reckoned to the nearest integral multiple of 50 maunds rejecting any remainder of less than 50 maunds.

D.—In the case of boats carrying passengers only, one foot shall be deducted from the full interior depth of the vessel, the other measurements and the calculations for maundage being made in the methods prescribed for vessels under Class II.

CLASS III.

4.—For vessels of class III, the number of maunds obtained by the system of measurement prescribed for vessels of class II shall be increased by one-half. For vessels of this class exceeding 1,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 100 maunds rejecting any remainder of less than 100 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

B.—In the case of steamers that have been surveyed under the Inland Steam-vessels Act, 1884, the registered tonnage entered in the certificate may be accepted as the tonnage of the steamer in lieu of measurement.

3. All vessels under class I, known and defined as saltees, will be charged under a system of compounded tollage in accordance with rules contained in Appendices A *and B (except where exempted under Rule 2, Class I (C).*

Saltees if brought into the canals from outside for sale may be allowed to pass on payment of single tolls leviable for class II boats, provided that the owner applies to the Toll Collector for such single tickets.

Boats of class II not exceeding 100 maunds measured by canal maundage will be allowed the privilege of compounded tollage at the rates specified in Appendix A at the option of the Supervisor.

4. Every vessel included in classes II and III entering or passing along the canal shall be furnished with a ticket on paying the prescribed toll. The ticket shall specify the station at which it has been issued, the name of the person in charge of the vessel, the date on which the voyage commenced, the point to which the vessel may proceed on the line of navigation, the maundage of the vessel, the amount of toll charged, the number of days allowed for the voyage, and the date of such last day. The number of days so allowed without additional payment shall be calculated as follows:—

Boats.—One day for every eight miles or portion of eight miles, to be traversed together with one day for every 100 maunds of measurement or part of 100 maunds.

Floats (timber).—One day for every five miles for any number of timbers not exceeding 50, and one day for every additional 50 or part of 50.

Rafts (bamboos).—One day for every five miles for any number not exceeding 500 and one day for every additional 500 or part of 500.

5. Every vessel which does not complete its voyage within the number of days allowed by rule 4 shall, for each day or part of a day in excess, be liable to an extra charge equal to one-half of the toll payable on the maundage of the vessel as per Schedule of Rates in Appendix B, provided that in no case shall the demurrage charged exceed Rs. 5 per diem. The Superintending Engineer may, at his discretion, exempt any boats on any line of navigation, or any portion of line of navigation, from the payment required by this rule.

Exemption from payment of demurrage may, at the discretion of the Collector of Tolls, be granted for vessels detained in the channels (steamers broken down and boats damaged) by stress of weather, should immediate notice of detention, for the information of the Collector of Tolls, Magra Hat channels, be given to the nearest toll-station.

6. All tolls are payable on demand and shall be paid at the toll-station before a vessel is permitted to proceed: Provided that *the Supervisor* may, at his discretion, permit vessels belonging to individuals or firms of

recognized standing to proceed without prepayment on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

7. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorized to do so *and delivered on exit at the last toll-station, or at the branding station in the case of licensed sattees, when the ticket expires.* If, on demand, the ticket is not produced, such person shall assess the tollage as provided in rule 2, and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel will be liable to seizure and detention in accordance with the provisions of section 9 of the Canals Act, 1864.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls on payment of a sum of Re. 1: Provided that for tickets on which the total tollage is less than Rs. 4, the fee to be charged for a duplicate shall be one-quarter of the total tollage with a minimum of As. 4.

9. A vessel, which has been detained under these rules or under section 9 of the said Act, may not be removed from the place of detention without the order of the Collector of Tolls until the toll due has been paid. During such detention the manjhi, owner or agent must make arrangements for the safety of the vessel and cargo.

10. All vessels, whether the property of Government or of private owners, are liable for toll, except those exempted by the provisions of Bengal Government Circular No. 1*I*, dated the 11th July 1906.

11. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the Supervisor or Navigation Canal Officer. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank.

12. At places where mooring posts have been provided by the Supervisor or Navigation Canal Officer, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the Supervisor or Navigation Canal Officer may direct, and shall not be moored in any other manner.

13. The Supervisor or Navigation Canal Officer may, by written notice to be posted at the toll offices, prohibit the dropping of anchors or the putting up of bamboos or *luggees* in any specified part of the canals or on the banks.

14. Vessels shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the Supervisor or Navigation Canal Officer from time to time, and no boat shall be made fast to or be placed outside of boats so secured. No boat or raft shall be placed in such a position as to endanger the safety or obstruct the passage of other boats. Every vessel, when stationary, shall be securely fastened, and shall at all times have some person in attendance on board. Every vessel in motion shall have a sufficient crew.

15. Vessels passing through the canals shall keep in separate lines, empty boats keeping close to the bank, and those that are laden in the centre.

16. In portions of the canals where only one towing-path, exists, vessels shall moor on the side opposite to the towing-path, and the towing-path side shall always be kept clear.

17. Iron-built cargo-boats, with outside angle iron projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the edges of the angle iron so as to prevent them from causing damage to the locks.

18. No fire, or open, unprotected light of any description shall be used on boats containing petroleum, jute, hay or straw in any place prohibited by the Navigation Canal Officer or Supervisor, and no fire, or open, or unprotected light (except in the case of steamers, the galley and engine room fires and the electric light) shall be used on any vessel while in a lock basin.

19. No person shall wilfully or negligently allow a vessel to sink in the canals.

20. In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor or Navigation Canal Officer and his subordinates shall offer every assistance in removing the same.

If in three days after the occurrence of a wreck it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor or Navigation Canal Officer and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that, in cases where navigation is seriously obstructed, arrangements may be made at once to remove the wreck.

21. When a sunken vessel has been recovered, the Supervisor or Navigation Canal Officer shall cause notices to be posted at the locks, toll offices or other prominent places calling on those concerned to pay to the Collector of Tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the vessel and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section 9 of the Canals Act, 1864.

22. The purchaser of a vessel sold under the provisions of section 9 of the said Act shall have the right to take it out of the canal on the day of purchase, or within such time as may be allowed by the Collector of Tolls, without payment of tolls.

23. When any laden vessel which has sunk has been recovered, or when any ladden vessel has been seized under the provisions of the said Act or of these rules, the Supervisor or Navigation Canal Officer shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

24. If the Supervisor or Navigation Canal Officer be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 21 shall be effected by a notice exhibited in his office and by advertisement in at least one English and one vernacular Calcutta newspaper *as well as a local newspaper*.

25. No steam-vessel, whose length exceeds thirty feet, shall ply in the Magra Hât channels except in the following:—Diamond Harbour Creek, Usti Nainan outfall, Nazra khal, Sangrampur khal up to Sangrampur bridge, and the Surjipur outer khal up to the Surjipur bridge.

26. *Lights and signals.*—Every vessel, whether travelling or moored in the Magra Hât channels, must, between sunset and sunrise, carry a white light in a lantern on her forepart where it can be distinctly seen from all sides. All steam-vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam-vessel, whether in motion or moored, shall carry the light prescribed above.

27. *Speed of vessels.*—Every vessel plying in the Magra Hât channels must, between sunset and sunrise, limit her speed to three miles per hour. No steam-vessels shall ply between sunset and sunrise in channels detailed in rule 25.

28. No vessel shall remain in the outer entrance channels of the locks at Diamond Harbour and Uttarbhag nor in the inner lock channel and diversion channel of the Diamond Harbour lock and sluice, nor in the approach channels to any sluice. A board will be put up limiting the portion of the channels in which boats are not permitted to moor.

29. The places at which boats cannot be loaded or unloaded will be fixed by the Superintending Engineer, South-Western Circle, and will be demarcated with suitable posts and notice boards.

30. For any contravention of rules 10, 14, 15, 16, 17, 19, 20, 26, 27 and 28 *and rule 9, Appendix A*, the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 for any one infringement, or Rs. 5 a day for any continuing infringement.

31. The channels may be closed, whenever necessary, for effecting the necessary repairs to them on one month's notice of the intention so to close them being given; but, in the event of any sudden emergency, the channels may be closed at any time without prior notice, and no claim in such cases by owners of vessels or others for compensation on account of detention or otherwise shall be entertained.

32. The term "Navigation Canal Officer", as used in these rules, shall include all persons appointed to collect tolls under section 8 of the Canals

Act, 1864, and all Public Works officers or subordinates in charge of the channel, not below the grade of Sub-Overseer.

33. No vessel whose beam exceeds 19 feet will be permitted to enter the channels through the Diamond Harbour lock. The same prohibition will apply in the case of the Uttarbhag lock to all vessels exceeding 14 feet beam.

34. Any vessel which enters the channels through the Diamond Harbour lock for the purpose of taking refuge during stormy weather will be charged a nominal toll of annas 8 per boat, provided that the vessel leaves the channel again as soon as the weather conditions permit, and does not load or unload cargo inside the channels. All vessels seeking refuge under this rule must anchor in the creek *between the Railway Station* and the Toll Collector's office and will not be permitted to proceed up the creek without paying the usual tolls.

35 Any vessel entering the channels through the Diamond Harbour lock and proceeding to load or unload at the Diamond Harbour Railway station only will be charged tollage at the rate of annas 2 per 100 maunds to include the return journey. *Five days' time will be allowed to such boats for the complete trip in and out of the lock.* Should such boats proceed up the creek, they will be charged the ordinary tolls.

The Toll Collector, Diamond Harbour, will issue a ticket when the boat enters the creek from the lock and will collect the same when the boat leaves the creek for the lock: if the quantity of cargo carried on exit exceeds that on entry he will charge tollage at the above rate on the excess amount only.

26. *The Superintending Engineer, South-Western Circle, may fix places where boats may remain for loading and unloading cargo without payment of demurrage.*

27. *Tolls will generally be levied at fixed toll-stations, but the Supervisor of the Canals may grant licenses anywhere within the canals, provided he is personally present.*

APPENDIX A.

Rules for licensing and registration of saltees or vessels under class I.

1. As provided for under rule 3, no vessel coming under class 1, rule 2, shall ply, whether regularly or only occasionally in, or partly within and partly without the limits of, the Magra Hât channels unless licensed and registered by the Collector of Tolls of the Magra Hât channels *or exempted from such registration.*

2. Every owner of a vessel or his agent or manjhi shall *present his boat* to the Collector of Tolls, Magra Hât channels, for licensing and registration giving the owner's name and residence or those of his agent duly authorized to act for him.

3. Every license granted under these rules shall continue in force for either *three*, six or twelve months from the date of issue.

4. The license is not transferable, and if the owner or manjhi or both of the vessel be changed, notice of the transfer must be given to the Collector of Tolls, the Magra Hât channels, who will endorse the change of ownership on the certificate and register free of charge.

5. The license certificate granted for a vessel shall contain the registered number of the vessel, owner's name and residence, name of *manjhi*, the maundage measurements, amount of compounded tollage and the dates of issue and expiry and shall be kept on board. It shall be produced, when required by a Navigation Canal Officer, and shall be delivered up on the expiration of the license.

6. The charge for the issue of a duplicate license to vessels in lieu of those defaced or lost shall be Re. 1.

7. The registered number of every licensed vessel shall be engraved, or branded, as well as painted in figures easily discernible on both sides of the vessel for which a charge of Re. 1 will be made. These figures shall be legibly maintained during the period of the license.

8. On the expiration of the license, the *manjhi* shall deliver up his ticket to the Toll Collector at the station from which it was issued.

9. No person in charge of any licensed vessel plying within the limits of the Magra Hât channels shall use or have any ticket resembling those granted under the authority of these rules.

10. Every renewal of a license shall, unless the Navigation Canal Officer considers it unnecessary, involve the issue of a fresh license certificate without alteration in the registered number of the vessel.

11. Every vessel under class I, found plying in the channels without being licensed and registered, shall be charged a demurrage rate of Rs. 3 for every such offence, provided that such vessel is not proceeding to the nearest toll-station for the purpose of obtaining a license and being registered. *The fine of Rs. 3 shall be in addition to the usual charge for licensing.*

1. A measuring tape.
2. A magnetic compass.
3. Squared paper and tracing paper.
4. Clay, dry sand, paper pulp for modelling.
5. A globe, not less than 14 inches in diameter, with writing surface, and with line of latitude and longitude, and outlines, only of the landmasses, marked upon it.
6. A map of the school locality on a scale of 4" or 6"=1 mile.
7. A map of the district in which the school is situated on the scale 1"=1 mile.
8. A coloured map of the Province.
9. A coloured political map of India.
10. A physical map of India.
11. A relief map of India.
12. A map of the world on Mollweide's equal area projection and a map of Asia.

It is essential that the students should be provided with atlases, or with the necessary hand-maps. Maps for school work should not contain too much detail, or be crowded with names.

II.—The following additional equipment is recommended when it can be provided, but that lack of it is not to be considered as a bar to the recognition of the school in Geography :—

1. A thermometer.
2. A mercury barometer.
3. A rain-gauge.
4. A small collection of typical rocks, in particular those of the Province and of India.
5. A small museum of typical products.
6. A good standard atlas.
7. Geographical pictures.

The attention of teachers is requested to the raised maps of Bengal and Eastern Bengal and Assam made of paper pulp, prepared by Babu Kailas Chandra Datta, Head Pandit, Habiganj Government Girls' School, Sylhet, and sold for Rs. 7 and Rs. 5, respectively.

(2) Globes of all kinds are made by George Philip and Son, London, W. and A. K. Johnston, London, and Messrs. Ruddiman Johnston, London.

Small hand globes of German make can be obtained through the Calcutta School Book Society for about a rupee each.

(3) The "Comparative" series of large wall maps of the continents published by George Philip and Son is good and up to date; so also are the Orographical wall maps published by Edward Stanford. Messrs. Ruddiman Johnston publish a series of smaller wall maps which includes maps of India illustrating various distributions.

Messrs. Nelson's wall atlases are good. Mr. S. B. Chatterjee publishes District Maps; also ordinary and relief maps of the Province.

Babu L. M. Basu, the drawing master of the Dacca Collegiate School, has published good relief maps of Eastern Bengal and Assam and of India.

The Vidal-Lablache French wall maps on strong cardboard, named on one side, and the same map without names on the reverse, published by Armand Colin, Paris, are good and cheap. They measure 46 inches by 39 inches and can be delivered in Calcutta for Rs. 4-14 each.

(4) The hand maps, coloured to indicate relief, published by the Diagram Company, West Barnes Lane, New Malden, Surrey, at one penny each are the best of their kind.

The uncoloured half-penny maps, showing river systems and a few towns, published by the same Company, are excellent for class use.

The Autograph hand maps, with hill shading in brown, published by Edward Stanford, London, at one penny each, are very good, and are larger than the Diagram Company's hand maps. The 15 inches map of the world on Mollweide's equal area projection is specially to be commended.

(5) Wall pictures of considerable artistic merit are published by Messrs. Edward Arnold of Leeds, Messrs. Hachette of Paris, and Messrs. Hölzel of Vienna, and Messrs. Longmans, Green & Co. They cost, delivered in India, from two to three rupees each.

Map lantern slides and view slides especially prepared for geography teaching are sold by the Diagram Company for two or three shillings each. Mr. Bartington Smith of Darjeeling also sell good picture slides of the Himalayas at Rs. 15 per dozen.

ELEMENTARY MECHANICS.

The following book is recommended :—

Sir Philip Magnus ... ... Elementary Mechanics (Longmans, 1903).

The following list of apparatus is prescribed as indicating the approximate requirements of a recognised High School seeking to teach Elementary Mechanics for the Matriculation Examination :—

Plumb-line and Level.
Simple Lever (including brass slotted weights).
Roman Steelyard.
Lecture apparatus for experiments on moments.
George's New Atwood's Machine.
Stop-watch.
Glazebrooke's apparatus (to demonstrate movement of a body).
Hick's Ballistic Balance.

Compound Wheel and Axle.
4 Single Brass Pulleys.
2 „ „ „
2 Triple „ „
Weston Differential Pulley Blocks (½ ton).
16 feet of chain at 6*d.* per foot.
Inclined Plane.
Parallelogram of Forces apparatus.
Wall Crane.
Becker's New Physical Balance.
Set of Gramme Weights (200 grams to 1 mgr.).
2 Composition-ivory Balls.

NOTE.—The above list is not exhaustive, and much of it might be replaced by simpler forms that could probably be made far more cheaply by any clever mistry under proper supervision. In most cases, however, it will probably be found advantageous to buy such a set as indicated in the list specially for demonstration purposes, and subsequently to develop simplified duplicates, illustrating the same principles, which the boys should be given opportunity actually to experiment with on their own individual accounts or working in pairs.

M. A. AND M. SC. EXAMINATIONS, 1918.

MATHEMATICS.

NOTE.—It is to be understood that, in the following list of text-books, wherever a book is recommended for a subject, students are expected to read those parts of the book only which deal with that particular subject:—

Pure Mathematics.

1. Higher Algebra—
   - Chrystal ... ... Algebra, Part II, Chapters 23—28, 32—34.
   - C. Smith ... .. A Treatise on Algebra.
2. Higher Plane Trigonometry—
   - Hobson ... ... Plane Trigonometry.
3. Spherical Trigonometry—
   - Casey ... ... Spherical Trigonometry.
   - Todhunter ... ... Spherical Trigonometry (Ed. Leathem).
4. Theory of Equations and Algebra of Quantics—
   - Burnside and Panton ... Theory of Equations.
   - Grace and Young ... Algebra of Invariants.
   - Elliott ... ... Introduction to the Algebra of Quantics.
5. Plane Analytical Geometry, including Higher Plane Curves—
   - Salmon ... ... Conic-Sections.
   - Salmon ... ... Higher Plane Curves.
   - Basset ... ... Treatise on Cubics and Quartics.
6. Geometry of Surfaces—
   - Salmon ... ... Geometry of three Dimensions, 5th Ed., 2 Vols.
   - Bell ... ... Analytical Geometry of Three Dimensions.
   - Forsyth ... ... Differential Geometry, Chapters I—V.
7. Differential Calculus—
   - Edwards ... ... Differential Calculus.
   - Williamson ... ... Differential Calculus.
   - Goursat ... ... Mathematical Analysis, Vol. I [Trans. Hedricks (Ginn & Co.)].
8. Integral Calculus—
   - Williamson ... ... Integral Calculus.
   - Todhunter ... ... Integral Calculus.
   - Goursat ... ... Mathematical Analysis, Vol. I [Trans. Hedricks (Ginn & Co.)].
9. Differential Equations—
   - Forsyth ... ... Differential Equations.
10. Calculus of Variations—
    - Hancock ... ... Calculus of Variations.
11. (*a*) Theory of Functions—
    - Young ... ... Fundamental Theorems of the Differential Calculus (Cambridge University Press).
    - Burkhardt ... ... Theory of Functions of a Complex Variable [Trans. Rasor (Heath & Co.)].
    - Hobson ... .. Theory of Functions of a Real Variable, Arts. 1—109, 164—309, 421—426.

(*b*) Theory of Groups—

Hilton	...	Finite Groups.
Campbell	...	Theory of Continuous Groups.
Burnside	...	Theory of Groups.

(*c*) Finite Differences and Calculus or Functions—

Boole	...	Finite Differences.
Carmichael	...	Calculus of Operations.
Herschel	...	Examples of Calculus of Finite Differences.
Babbage	...	Examples of Functional Equations.

(*d*) Vector Analysis and Quaternions—

Joly	...	Quaternions.
Tait	...	Quaternions.
Gibbs and Wilson	...	Vector Analysis.
Gibbs	...	Scientific Papers. Vol. II. pp. 17—90.

(*e*) Projective Geometry—

Hatton	...	Principles of Projector Geometry (Cambridge University Press).
Cremona	...	Projective Geometry.
Mathews	...	Projective Geometry (Longmans & Co).
Young	...	Monographs on Modern Mathematics, Chaps. I—III (Longmans & Co.).
Whitehead	...	Axioms of Projective Geometry (Cambridge Tracts No. 4).
Whitehead	...	Axioms of Descriptive Geometry (Cambridge Tracts No. 5).
Hilbert	...	Foundations of Geometry [Trans. Townsend (Opencourt Publ shing Co.)].
Bonola	...	Non-Euclidian Geometry.

(*f*) Theory of Numbers—

Reid	...	Theory of Algebraic Numbers.
Mathews	...	Theory of Numbers.
Young	...	Fundamental Concepts of Algebra and Geometry.
Smith	...	Reports on the Theory of Numbers (Collected papers. Vol. I. pp. 38—. 364.)
Dedekind	...	Essays on the Theory of Numbers [Trans. Beman (Opencourt Publishing Co.)].

Mixed Mathematics.

1. Advanced Statics, including Theory of Potential—

Minchin	...	Statics.
Routh	...	Statics.

2. Dynamics of a Particle—

Routh	...	Dynamics of a particle.

3. Rigid Dynamics—

Routh	...	Elementary Rigid Dynamics.

4. Hydrostatics, including Capillarity—

Besant and Ramsey	...	Hydrodynamics. Part I (Hydrostatics).

5. Hydrodynamics—

Houstoun	...	Mathematical Physics, Chapter II.
Besant and Ramsey	...	Hydrodynamics. Part II.
Lamb	...	Hydrodynamics.

6. Spherical Astronomy—

Ball	...	Spherical Astronomy.

7. (*a*) Theory of Elasticity—

Love	... ...	Theory of Elasticity, 2nd edition.

Candidates are also recommended to refer to—

Todhunter and Pearson	...	History of Theory of Elasticity.

(*b*) Advanced Dynamics—

Whittaker	... ...	Analytical Dynamics.
A. C. Webster	..	Dynamics.
Routh	... ...	Advanced Rigid Dynamics.
Hertz	... ...	Principles of Mechanics.

(*c*) Higher Parts of Spherical Astronomy—

Chauvenet	... ...	Spherical Astronomy.
Newcomb	... ...	Spherical Astronomy.

(*d*) Lunar and Planetary Theories—

Adams	... ...	Lectures on Lunar Theory.
Airy	... ...	Mathematical Tracts.
Brown	... ...	Lunar Theory.
Cheyne	... ...	Planetary Theory.
Moulton	... ...	Celestial Mechanics.

(*e*) Figure of the Planets—

Todhunter	... ...	History of the Theory of Attraction and the figure of the Earth.
Thomson and Tait	...	Natural Philosophy.
Airy	... ...	Mathematical Tracts.
Airy	... ...	Figure of the Earth. (Enc. Metr.)
Clark and Radau	...	Figure of the Earth. (Enc. Britt.)
Pratt	... ..	Figure of the Earth.

(*f*) Theory of Tides—

Basset	... ...	Hydrodynamics.
Darwin	... ...	Tides and Kindred Phenomena. (Murray.)
Darwin	... ...	Tides. (Enc. Britt.)
Darwin	... ...	Scientific Papers.
Airy	... ...	Tides and Waves. (Enc. Metr.)
Love	... ...	Geodynamics.

PHYSICS.

No text-books are prescribed or recommended. The students are required to consult their Professors as to a suitable course of reading which should include the study of original papers.

CHEMISTRY.

(In addition to the books recommended for the B.A. and B.Sc. Pass and Honours Courses.)

(a) *Physical Chemistry.*

Ostwald Walker	... ...	Physico-Chemical Measurements.
Nernst (trans. by Lehfeldt)	...	Theoretical Chemistry, 4th edition.
Mellor	... ...	Chemical Dynamics and Reactions.
Findlay	... ...	The Phase Rule.
Lehfeldt	... ...	Electro-Chemistry.
Vant' Hoff	... ...	Lectures on Theoretical and Physical Chemistry.
Jeans	... ...	Dynamical Theory of Gases.
Travers	... ...	Study of Gases.
Rutherford	... ...	Radio-Activity.
Thomson	... ...	Thermo-Chemistry.
Ostwald	... ...	Principles of Chemistry.
E. C. Baly	... ...	Spectroscopy.
S. Young	... ...	Stoichiometry.

(b) *Inorganic Chemistry.*

Biltz	...	Inorganic Preparations.
Myer	...	History of Chemistry.
Fresenius	...	Qualitative Analysis and Quantitative Analysis.
Sutton	...	Volumetric Analysis.
Hempel	...	Gas Analysis.
Treadwell and Hall	...	Analytical Chemistry. Vols. I and II.
Roscoe and Schorlemmer	...	Treatise on Chemistry. Vols. I and II.
F. M. Perkin	...	Practical Methods in Inorganic Chemistry.
Werner	...	New Ideas in Inorganic Chemistry.

(c) *Organic Chemistry.*

Emil Fischer	...	Organic Preparations.
Richter	...	Organische Chemie (9th edition).
Gattermann	...	Practical Organic Chemistry.
J. B. Cohen	...	Advanced Organic Chemistry.
Sudborough	...	Practical Organic Chemistry.

Candidates for the M.A. or M.Sc. Examination are required to consult original papers in the Chemical Society's Journals and other scientific periodicals, and also to consult the Annual Reports issued by the Chemical Society on the "Progress of Chemistry" in connection with the especial subject taken up by them.

GEOLOGY.

No text-books are prescribed or recommended The subject is to be studied in accordance with the Syllabus prescribed in the Regulations.

PHYSIOLOGY.

(*To be notified hereafter.*)

BOTANY.

No text-books are prescribed. The subject is to be read in accordance with the prescribed Syllabus.

ZOOLOGY AND COMPARATIVE ANATOMY.

(*To be notified hereafter.*)

EXPERIMENTAL PSYCHOLOGY.

No text-books are prescribed. The subject is to be studied in accordance with the Syllabus prescribed in the Regulations.

State Sanskrit and Arabic Scholarships, 1916.

NOTIFICATION.

IN accordance with the directions contained in paragraph 3 of the Government of India, Home Department, Resolution Nos. 731—743, dated the 1st September 1908, which is republished below, two scholarships—one for the scientific study of Sanskrit, and another for the scientific study of Arabic in Europe—will be awarded in the year 1916. The application of any candidates from Bengal should be submitted with the required particulars to the undersigned not later than the 26th January 1916. No candidate will be considered who is not possessed of high qualifications and who is not a *bonâ fide* native of Bengal.

Application forms and rules for the guidance of selected candidates may be had from the Personal Assistant to the Director of Public Instruction, Bengal.

W. W. HORNELL,

Director of Public Instruction, Bengal.

CALCUTTA, *the 6th January 1916.*

Nos. 731—743, dated Simla, the 1st September 1908.

RESOLUTION—By the Government of India, Home Department.

THE Government of India have for some time past had under their consideration the question of encouraging the scientific study of Sanskrit and Arabic by natives of India. They believe that great advantage will result from aiding students to acquire the critical and scientific methods of western scholarship, by studying the classics under European Professors and by acquiring a knowledge of French and German which is indispensable for making full use of the researches of European Orientalists.

2. They have accordingly decided, with the sanction of the Secretary of State, to allot for the present four scholarships tenable in Europe—three for the study of Sanskrit and one for the study of Arabic. Not more than two will be awarded annually. The scholarships will be open to well-qualified students with a genuine taste for oriental studies and to gentlemen employed as Professors of Sanskrit and Arabic in India. The value of each scholarship will be £150 a year, and it will be tenable for two years. The Secretary of State will decide the courses of study of each scholarship-holder and the special conditions to be observed, if necessary, by students who elect to study in continental Europe rather than in England. A scholarship-holder will be provided with a free second-class passage to Europe, and also with a return passage if he completes the full period of residence or is compelled by sickness to return within that period. He will be required for disciplinary purposes to conform to such rules as the Secretary of State may make in this behalf.

3. In the first year one scholarship will be awarded for Sanskrit and one for Arabic. In the following year two scholarships for Sanskrit only will be awarded. Each Local Government or Administration is invited to submit, during the current financial year, the name of one candidate for a Sanskrit and one for an Arabic scholarship, and in the following year the names of two candidates for a Sanskrit scholarship, this procedure being followed in alternative years. It is requested that the names of the candidates may be accompanied by a full description of their qualifications, and with the views and recommendations of the Local Government thereon. The power of selection will rest with the Government of India, who will award the scholarships to those whom they may consider best fitted to hold them. Local Governments and Administrations are requested to submit their recommendations so as to reach the Government of India by the 1st March of each year at latest. Those for the current year should be sent in as soon as possible.

ORDER.—Ordered that a copy of this Resolution be communicated to the Government of Bengal for information and guidance.

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

State Scholarship of £200 per annum tenable in the United Kingdom by Indian Girls or Women.

THE scholarship will be granted for medical or occasionally for other educational courses and will be tenable in the United Kingdom for a period of three years in the first instance, with possibility of extension in special circumstances, and in particular in the case of medical students, to four or five years. The scholarship will carry with it no conditions as to any subsequent career or service under Government, and no expectation of such employment is held out.

2. The scholar will be selected by the Government of India from among candidates nominated by the Local Governments. Intending candidates are requested to make application to the Assistant Director of Public Instruction Writers' Buildings, Calcutta (from whom further particulars may be obtained), not later than 1st February 1916. The application should be accompanied by (1) evidence of having obtained the B.A. or B.Sc. degree or, in the case of a medical candidate, a degree in medicine of an Indian University; (2) a medical certificate of fitness to undergo abroad the course of study proposed; (3) a certificate of age; (4) a certificate from some person of recognised position well acquainted with the candidate, to the effect that she is a native of India and of purely Indian parentage; (5) the names, addresses and other particulars of friends or relatives in the United Kingdom to whom the applicant's parents or guardians are willing to commit her guardianship during vacation.

3. The selected candidate will be provided with a second class passage to England, and with a second class return passage if she completes the full period of residence or is compelled by sickness to return within that period.

4. It is also to be noted that before a State scholar leaves India to take up her scholarship, her parent or guardian will be required to show that she has sent to the Secretary for Indian students in London a sum of £25 for initial expenses.

5. The scholar will, on arrival in England, be required to bind herself by a written engagement to submit to the following rules and to such other regulations as may from time to time be framed by His Majesty's Secretary of State for India for the guidance of scholars in England :—

(*a*) Every scholar shall, on reaching England, at once call upon the Secretary for Indian students and report her arrival in writing. She shall leave her address with the Secretary for Indian students, and intimate to him from time to time all changes therein.

(*b*) Every scholar shall, without unnecessary delay, inform the Secretary for Indian students to which University she intends to proceed, and shall at once take steps to enter herself at the college she has finally selected with his approval.

(*c*) Every scholar shall, within four weeks of reaching England, submit to the Secretary for Indian students, for the approval of the Secretary of State, a statement showing the general course of study she proposes to follow, with a view to carrying out the objects of the scholarship granted to her; and the course approved must not be changed without the sanction of the Secretary of State.

(*d*) Every scholar shall, at the end of each term of residence at a University, submit to the Secretary for Indian students a certificate from the proper College or University authority showing that her residence, conduct and progress in study have been satisfactory during the term.

(*e*) Every scholar shall at all times obey such instructions as she may receive from the Secretary of State, either directly or through the Secretary for Indian students.

(*f*) Subject to a due compliance with the above conditions, the allowance, at the rate of £200 a year for three, four or five years, will be paid quarterly, in advance, by the India Office, commencing from the date of the scholar's reporting her arrival in England. The first payment will be £50. Three months after the date of

reporting arrival the amount to the ensuing official quarter day will be paid. Subsequent payments will be made, in advance, on or after each official quarter day. The allowance will be reduced by the amount of any other sum which may become payable to her out of the revenues of India in respect of residence at a University during the same period or any part of it, and also by the amount of any University or College bills, of which payment is made by the India Office.

(*g*) Travelling expenses, hotel bills and charges for medical attendance are not defrayed by the Secretary of State.

(*h*) Every scholar will forfeit her scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to complete a residence in England for the prescribed number of years of the scholarship according to the terms and conditions approved by the Secretary of State under (*c*) above, or who is guilty of misconduct or disregard of the instructions of the Secretary of State. If a scholarship be forfeited, or if it be resigned before completion of its term, or if a scholar on completion of the term of her scholarship declines to return to India when instructed to do so, the scholar will lose her claim to a free return passage to India, and will further become liable, at the discretion of the Secretary of State, to refund the cost of her free passage to England.

(*i*) At the expiration of her scholarship, a scholar is provided by the India Office with a free second class passage to India. The scholar is not entitled to make her own passage arrangements and to claim an allowance in lieu thereof from the India Office without the special sanction of the Secretary of State. All communications on this subject shall be made to the Secretary for Indian students.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES viz.

CALCUTTA, MADRAS BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

The light-tower is situated near the western extremity of Chimatao Promontory, and the light, which is elevated 198 feet above the level of the sea, should be visible in clear weather at a distance of 10 miles. The tower is hexagonal, of brick, painted white, with a total height from base to lantern vane of 37 feet.

This newly established light replaces the previously existing unofficial light.

Notice is also given of the establishment of Leading Marks and Spar Buoys to mark the channel across the Bar as follows :—

Leading Marks, to be known as the Lungkow Bar Leading Marks, have been erected about ¼ mile to the northward of the town of Lungkow. The front, or low mark, is a pole surmounted by a triangular shape. The rear, or high mark, which is 1,415 feet inshore from the front mark, is a pole surmounted by an inverted triangular shape. These Marks in line lead through the channel across the Bar, which has a least depth of 8 feet at low water of spring tides.

A *black* Spar Buoy, surmounted by a spherical day-mark, to be known as the Entrance Buoy, has been moored in 14 feet of water at low water of spring tides in the outer approach to the Bar. From the Buoy, Chimatao Lighthouse bears N. 42½° W., magnetic, distant 4·07 miles.

A *black* Spar Buoy, surmounted by a spherical day-mark, to be known as the Bar Buoy, has been moored in 8 feet of water at low water of spring tides on the northern side of the channel across the Bar. From the Buoy, Chimatao Lighthouse bears N. 52° W., magnetic, distant 4·28 miles.

APPOINTMENT.

CALCUTTA, THE 10TH JANUARY 1916.

RESOLUTION—No. 176A.

READ—

Resolutions of this Government in the General Department, Nos. 398T.—G. and 749, dated, respectively, the 17th October 1891 and 18th February 1896.
Report of the Royal Commission on Decentralization, paragraphs 669—72.
Letter from the Government of India, Home Department, No. 136, dated the 10th February 1910.
Letter to the Government of India, Home Department, No. 3688A., dated the 3rd August 1911.
Letter from the Government of India, Home Department, No. 1447-57, dated the 28th July 1913.
Report of the District Administration Committee, paragraph 93.

THE Governor in Council has recently had occasion to examine the rules and orders which at present govern tours of inspection by the Member of

the Board of Revenue, Commissioners of Divisions and District and Subdivisional Officers, and is pleased to lay down the following revised orders in supersession of all previous orders on the subject.

Member, Board of Revenue.—After making due allowance for the time occupied in performing duties which require his presence at Calcutta, the Member of the Board should arrange to visit Commissioners' and Collectors' offices as frequently as he possibly can. He should, if time permits, make inspections of Commissioners' offices and Collectorates, but his inspections need not be of a detailed or minute nature. He should satisfy himself that Commissioners and District Officers have been doing their own inspection duties properly, and that District Officers are following the instructions of Government regarding tours as far as the circumstances of their districts permit. He should make a point of visiting districts where important questions connected with departments under the control of the Board are pending and discuss them on the spot.

Commissioners of Divisions.—The Commissioner should spend a week or ten days at each district head-quarters annually and should try to visit each subdivision every year. He should satisfy himself that District and Subdivisional Officers and the officers in direct charge of departments have made full inspections at the prescribed intervals, and he should closely scrutinize the work of any officer or of any department when he has reason to believe that the standard of efficiency has deteriorated, or that the work requires special attention, and he should examine in detail the actual working of any procedure which appears to be defective or of any new system which has been introduced tentatively. The Commissioner should examine the work of each gazetted officer sufficiently to form a clear estimate of his capacity and business aptitude. The Commissioner's tour programme should be widely published beforehand, and he should afford persons of local influence full opportunity of acquainting him with their views on matters of local or general interest and pending questions with which they are concerned. As regards his own office, the Commissioner should see that the Personal Assistant makes a detailed examination of each department at least once a year and that the ministerial staff works efficiently.

District Officers.—Apart from such visits to subdivisional head-quarters as may be necessary throughout the year for special objects, a District Officer should endeavour to make a stay of about a week at the head-quarters of each subdivision in his district once a year; during this visit, in addition to inspecting the subdivisional office and other institutions, he should provide opportunities for the principal residents of the subdivisional head-quarters to meet him and discuss questions of local and general interest: Government attach much importance to this aspect of touring and consider that the knowledge which can be obtained by such discussions can be obtained by no other means.

With regard to tours in the interior of the district, a District Officer can only make the best use of his opportunities by carefully planning his tours in advance: such preparation not only enables him to arrange his case work at head-quarters for such dates as will not clash with his tours, but also affords time to give ample notice to the residents of the places to be visited. Occasions which cannot be foreseen will necessitate brief visits to places for particular objects, but the greater part of the time spent by a District Officer in the interior of his district should be devoted to tours extending over periods of not less than a fortnight and consisting of either carefully planned journeys with halts of which the places and times should be fixed beforehand and of which notice should be given, or halts for several days at convenient centres from which outlying places may be visited. Hurried movements produce the maximum of inconvenience to all concerned, and afford no time to the raiyats to realize that they have in their midst an official to whom representations can be made on subjects of importance to them.

Subdivisional Officers.—Subdivisional Officers in arranging their tour programmes should be guided, as far as possible, by the instructions of

Government on the subject of tours of District Officers. Their facilities for touring are, however, somewhat restricted by the fact that they have a larger amount of case work to dispose of, and this fact renders the careful planning of tours all the more necessary. Every effort should be made by the publication of tour programmes to enable the public to ascertain without difficulty where the Subdivisional Officer may be found on any particular date. Criminal complaints should be taken by the Subdivisional Officer when he is on tour. When an officer with first class powers is left in charge at head-quarters, that officer should also receive criminal complaints. Where local circumstances permit, the Subdivisional Officer may make an arrangement whereby police charge sheets will be divided between himself and that officer according to the thanas from which they come.

As regards the trial of cases by Subdivisional Officers when on tour, every endeavour must be made to prevent unnecessary inconvenience to parties. Cases should be fixed for hearing at places which are reasonably accessible, and where supplies are procurable and lodging is available. So far as possible, the trial of cases at long distances from the homes of the parties should be avoided. In fixing places for trials, the difficulty of securing legal assistance, especially in important cases, should not be overlooked. Subject to these limitations, Government approve of the practice of trying cases on tour, and, in subdivisions where there is no second officer with first class powers, it is generally impossible for a Subdivisional Officer to make the prolonged tours which Government require him to make unless judicial work is combined with touring.

ORDER.—Ordered that this Resolution be published in the *Calcutta Gazette* for general information.

Ordered also that a copy be forwarded to the officers concerned for information and guidance; also, that a copy be forwarded to the Board of Revenue and to the other departments of this Government for information.

By order of the Governor in Council,

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 10th January 1916.

Summary.—The week was practically rainless. The harvesting of winter rice is already finished in a few districts and is fast approaching completion in the rest. Cutting of sugarcane has commenced. The harvesting of potatoes and other *rabi* crops continues. Land is being prepared in some of the eastern districts for the next *bhadoi* crops. Distress still prevails in Bankura and in the Brahmanbaria subdivision of the Tippera district. Cattle-disease is reported from four districts only. Fodder is reported to be insufficient in parts of Noakhali. The average price of common rice for the province fell by about 0·4 per cent., as compared with that of the previous week.

IRRIGATION DEPARTMENT.

The 4th January 1916.

No. 1 Notification.—The following draft of (*1*) revised rules and (*2*) revised schedule of rates of tolls, which the Governor in Council intends to make and fix, in exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), and in supersession of Notification No. 2, dated the 31st March 1914, for the navigable channels of the Magra Hât Drainage scheme, as defined in Notification No. 4, dated the 22nd April 1913 (published at page 634, Part I, of the *Calcutta Gazette* of the 23rd *idem*), is published as required by section 12 of that Act for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 16th February 1916, and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

DRAFT RULES.

1. Every vessel entering or making use of the Magra Hât channels shall be liable to measurement for the purpose of ascertaining the tolls payable. In case of any reasonable doubt, the persons appointed by the Governor in Council as Collectors of Tolls or Navigation Canal Officers shall have authority to again measure a vessel notwithstanding that it was measured before.

2. Vessels for the purpose of determination of maundage shall be divided into three classes as follows :—

Class I—To include all vessels of the usual native types of build known as saltees, but not *bonâ fide* Tal (or palm tree) dongas *provided they are not used for carrying cargo.*

Class II—To include all other vessels of usual native types of build or cutters *including bholios and jolly boats.*

Class III—To include all steamers,* flats, barges, and other square-built boats.

The net maundage of every vessel, whether laden or empty, shall, for the purposes of the Canals Act, 1864, and of these rules, be determined by the following measurements :—

CLASS I.

A.—The product of one-quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel multiplied by three-quarters of the depth, measured from the top of the vessel amidships to the interior bottom of the vessel is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length to be made in feet, rejecting inches, and of the breadth and depth in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—Any vessel falling under this class, the maundage of which exceeds 50 maunds according to the above method of measurement will be given the option of compounding tollage according to the rules and rates contained in Appendices A and B or paying toll per trip as laid down for vessels of Class II in Appendix B (b) : the maundage of such vessels will be determined according to the measurements laid down for Class I vessels.

CLASS II.

A.—The product of one-quarter of the length of the vessel from stem to stern measured outside and along the water-line multiplied by the greatest interior breadth of the vessel multiplied by the greatest interior depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which the tolls shall be levied.

* *The word "steamer" includes all types of mechanically propelled craft such as motor boats.*

B.—The measurement of the length is to be made in feet, rejecting inches, the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, rejecting any remainder of less than 12½ maunds. In the case of boats exceeding 500 maunds by measurement the maundage shall be reckoned to the nearest integral multiple of 50 maunds rejecting any remainder of less than 50 maunds.

D.—In the case of boats carrying passengers only, one foot shall be deducted from the full interior depth of the vessel, the other measurements and the calculations for maundage being made in the methods prescribed for vessels under Class II.

CLASS III.

A.—For vessels of class III, the number of maunds obtained by the system of measurement prescribed for vessels of class II shall be increased by one-half. For vessels of this class exceeding 1,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 100 maunds rejecting any remainder of less than 100 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

B.—In the case of steamers that have been surveyed under the Inland Steam-vessels Act, 1884, the registered tonnage entered in the certificate may be accepted as the tonnage of the steamer in lieu of measurement.

3. All vessels under class I, known and defined as saltees, will be charged under a system of compounded tollage in accordance with rules contained in Appendices A *and B (except where exempted under Rule 2, Class I (C).*

Saltees if brought into the canals from outside for sale may be allowed to pass on payment of single tolls leviable for class II boats, provided that the owner applies to the Toll Collector for such single tickets.

Boats of class II not exceeding 100 maunds measured by canal maundage will be allowed the privilege of compounded tollage at the rates specified in Appendix A at the option of the Supervisor.

4. Every vessel included in classes II and III entering or passing along the canal shall be furnished with a ticket on paying the prescribed toll. The ticket shall specify the station at which it has been issued, the name of the person in charge of the vessel, the date on which the voyage commenced, the point to which the vessel may proceed on the line of navigation, the maundage of the vessel, the amount of toll charged, the number of days allowed for the voyage, and the date of such last day. The number of days so allowed without additional payment shall be calculated as follows :—

Boats.—One day for every eight miles or portion of eight miles, to be traversed together with one day for every 100 maunds of measurement or part of 100 maunds.

Floats (timber).—One day for every five miles for any number of timbers not exceeding 50, and one day for every additional 50 or part of 50.

Rafts (bamboos).—One day for every five miles for any number not exceeding 500 and one day for every additional 500 or part of 500.

5. Every vessel which does not complete its voyage within the number of days allowed by rule 4 shall, for each day or part of a day in excess, be liable to an extra charge equal to one-half of the toll payable on the maundage of the vessel as per Schedule of Rates in Appendix B, provided that in no case shall the demurrage charged exceed Rs. 5 per diem. The Superintending Engineer may, at his discretion, exempt any boats on any line of navigation, or any portion of line of navigation, from the payment required by this rule.

Exemption from payment of demurrage may, at the discretion of the Collector of Tolls, be granted for vessels detained in the channels (steamers broken down and boats damaged) by stress of weather, should immediate notice of detention, for the information of the Collector of Tolls, Magra Hat channels, be given to the nearest toll-station.

6. All tolls are payable on demand and shall be paid at the toll-station before a vessel is permitted to proceed : Provided that *the Supervisor* may, at his discretion, permit vessels belonging to individuals or firms of

recognized standing to proceed without prepayment on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

7. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorized to do so *and delivered on exit at the last toll-station, or at the branding station in the case of licensed saltees, when the ticket expires.* If, on demand, the ticket is not produced, such person shall assess the tollage as provided in rule 2, and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel will be liable to seizure and detention in accordance with the provisions of section 9 of the Canals Act, 1864.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls on payment of a sum of Re. 1: Provided that for tickets on which the total tollage is less than Rs. 4, the fee to be charged for a duplicate shall be one-quarter of the total tollage with a minimum of As. 4.

9. A vessel, which has been detained under these rules or under section 9 of the said Act, may not be removed from the place of detention without the order of the Collector of Tolls until the toll due has been paid. During such detention the manjhi, owner or agent must make arrangements for the safety of the vessel and cargo.

10. All vessels, whether the property of Government or of private owners, are liable for toll, except those exempted by the provisions of Bengal Government Circular No. 1*I*, dated the 11th July 1906.

11. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the Supervisor or Navigation Canal Officer. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank.

12. At places where mooring posts have been provided by the Supervisor or Navigation Canal Officer, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the Supervisor or Navigation Canal Officer may direct, and shall not be moored in any other manner.

13. The Supervisor or Navigation Canal Officer may, by written notice to be posted at the toll offices, prohibit the dropping of anchors or the putting up of bamboos or *luggees* in any specified part of the canals or on the banks.

14. Vessels shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the Supervisor or Navigation Canal Officer from time to time, and no boat shall be made fast to or be placed outside of boats so secured. No boat or raft shall be placed in such a position as to endanger the safety or obstruct the passage of other boats. Every vessel, when stationary, shall be securely fastened, and shall at all times have some person in attendance on board. Every vessel in motion shall have a sufficient crew.

15. Vessels passing through the canals shall keep in separate lines, empty boats keeping close to the bank, and those that are laden in the centre.

16. In portions of the canals where only one towing-path, exists, vessels shall moor on the side opposite to the towing-path, and the towing-path side shall always be kept clear.

17. Iron-built cargo-boats, with outside angle iron projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the edges of the angle iron so as to prevent them from causing damage to the locks.

18. No fire, or open, unprotected light of any description shall be used on boats containing petroleum, jute, hay or straw in any place prohibited by the Navigation Canal Officer or Supervisor, and no fire, or open, or unprotected light (except in the case of steamers, the galley and engine room fires and the electric light) shall be used on any vessel while in a lock basin.

19. No person shall wilfully or negligently allow a vessel to sink in the canals.

20. In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor or Navigation Canal Officer and his subordinates shall offer every assistance in removing the same.

If in three days after the occurrence of a wreck it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor or Navigation Canal Officer and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that, in cases where navigation is seriously obstructed, arrangements may be made at once to remove the wreck.

21. When a sunken vessel has been recovered, the Supervisor or Navigation Canal Officer shall cause notices to be posted at the locks, toll offices or other prominent places calling on those concerned to pay to the Collector of Tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the vessel and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section 9 of the Canals Act, 1864.

22. The purchaser of a vessel sold under the provisions of section 9 of the said Act shall have the right to take it out of the canal on the day of purchase, or within such time as may be allowed by the Collector of Tolls, without payment of tolls.

23. When any laden vessel which has sunk has been recovered, or when any laden vessel has been seized under the provisions of the said Act or of these rules, the Supervisor or Navigation Canal Officer shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

24. If the Supervisor or Navigation Canal Officer be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 21 shall be effected by a notice exhibited in his office and by advertisement in at least one English and one vernacular Calcutta newspaper *as well as a local newspaper*.

25. No steam-vessel, whose length exceeds thirty feet, shall ply in the Magra Hât channels except in the following:—Diamond Harbour Creek, Usti Nainan outfall, Nazra khal, Sangrampur khal up to Sangrampur bridge, and the Surjipur outer khal up to the Surjipur bridge.

26. *Lights and signals.*—Every vessel, whether travelling or moored in the Magra Hât channels, must, between sunset and sunrise, carry a white light in a lantern on her forepart where it can be distinctly seen from all sides. All steam-vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam-vessel, whether in motion or moored, shall carry the light prescribed above.

27. *Speed of vessels.*—Every vessel plying in the Magra Hât channels must, between sunset and sunrise, limit her speed to three miles per hour. No steam-vessels shall ply between sunset and sunrise in channels detailed in rule 25.

28. No vessel shall remain in the outer entrance channels of the locks at Diamond Harbour and Uttarbhag nor in the inner lock channel and diversion channel of the Diamond Harbour lock and sluice, nor in the approach channels to any sluice. A board will be put up limiting the portion of the channels in which boats are not permitted to moor.

29. The places at which boats cannot be loaded or unloaded will be fixed by the Superintending Engineer, South-Western Circle, and will be demarcated with suitable posts and notice boards.

30. For any contravention of rules 10, 14, 15, 16, 17, 19, 20, 26, 27 and 28 *and rule 9, Appendix A*, the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 for any one infringement, or Rs. 5 a day for any continuing infringement.

31. The channels may be closed, whenever necessary, for effecting the necessary repairs to them on one month's notice of the intention so to close them being given; but, in the event of any sudden emergency, the channels may be closed at any time without prior notice, and no claim in such cases by owners of vessels or others for compensation on account of detention or otherwise shall be entertained.

32. The term "Navigation Canal Officer," as used in these rules, shall include all persons appointed to collect tolls under section 8 of the Canals

Act, 1864, and all Public Works officers or subordinates in charge of the channel, not below the grade of Sub-Overseer.

33. No vessel whose beam exceeds 19 feet will be permitted to enter the channels through the Diamond Harbour lock. The same prohibition will apply in the case of the Uttarbhag lock to all vessels exceeding 14 feet beam.

34. Any vessel which enters the channels through the Diamond Harbour lock for the purpose of taking refuge during stormy weather will be charged a nominal toll of annas 8 per boat, provided that the vessel leaves the channel again as soon as the weather conditions permit, and does not load or unload cargo inside the channels. All vessels seeking refuge under this rule must anchor in the creek *between the Railway Station* and the Toll Collector's office and will not be permitted to proceed up the creek without paying the usual tolls.

35. Any vessel entering the channels through the Diamond Harbour lock and proceeding to load or unload at the Diamond Harbour Railway station only will be charged tollage at the rate of annas 2 per 100 maunds to include the return journey. *Five days' time will be allowed to such boats for the complete trip in and out of the lock.* Should such boats proceed up the creek, they will be charged the ordinary tolls.

The Toll Collector, Diamond Harbour, will issue a ticket when the boat enters the creek from the lock and will collect the same when the boat leaves the creek for the lock: if the quantity of cargo carried on exit exceeds that on entry he will charge tollage at the above rate on the excess amount only.

26. *The Superintending Engineer, South-Western Circle, may fix places where boats may remain for loading and unloading cargo without payment of demurrage.*

27. *Tolls will generally be levied at fixed toll-stations, but the Supervisor of the Canals may grant licenses anywhere within the canals, provided he is personally present.*

APPENDIX A.

Rules for licensing and registration of saltees or vessels under class I.

1. As provided for under rule 3, no vessel coming under class I, rule 2, shall ply, whether regularly or only occasionally in, or partly within and partly without the limits of, the Magra Hât channels unless licensed and registered by the Collector of Tolls of the Magra Hât channels *or exempted from such registration.*

2. Every owner of a vessel or his agent or manjhi shall *present his boat* to the Collector of Tolls, Magra Hât channels, for licensing and registration giving the owner's name and residence or those of his agent duly authorized to act for him.

3. Every license granted under these rules shall continue in force for either *three*, six or twelve months from the date of issue.

4. The license is not transferable, and if the owner or manjhi or both of the vessel be changed, notice of the transfer must be given to the Collector of Tolls, the Magra Hât channels, who will endorse the change of ownership on the certificate and register free of charge.

5. The license certificate granted for a vessel shall contain the registered number of the vessel, owner's name and residence, name of *manjhi*, the maundage measurements, amount of compounded tollage and the dates of issue and expiry and shall be kept on board. It shall be produced, when required by a Navigation Canal Officer, and shall be delivered up on the expiration of the license.

6. The charge for the issue of a duplicate license to vessels in lieu of those defaced or lost shall be Re. 1.

7. The registered number of every licensed vessel shall be engraved, or branded, as well as painted in figures easily discernible on both sides of the vessel for which a charge of Re. 1 will be made. These figures shall be legibly maintained during the period of the license.

8. On the expiration of the license, the *manjhi* shall deliver up his ticket to the Toll Collector at the station from which it was issued.

9. No person in charge of any licensed vessel plying within the limits of the Magra Hât channels shall use or have any ticket resembling those granted under the authority of these rules.

10. Every renewal of a license shall, unless the Navigation Canal Officer considers it unnecessary, involve the issue of a fresh license certificate without alteration in the registered number of the vessel.

11. Every vessel under class I, found plying in the channels without being licensed and registered, shall be charged a demurrage rate of Rs. 3 for every such offence, provided that such vessel is not proceeding to the nearest toll-station for the purpose of obtaining a license and being registered. *The fine of Rs. 3 shall be in addition to the usual charge for licensing.*

APPENDIX B.

NOTICE.

DEPARTMENT OF MINES IN INDIA, DHANBAD POST OFFICE, MANBHUM.

Indian Mines Act, 1901.

AN examination for First and Second Class Coal Mine Managers' Certificates of Competency under the rules applicable to coal mines will be held at the Railway Institute, Dhanbad, on the 23rd, 24th and 25th February 1916.

Rules 32 and 33 of the Indian Mines Act, 1901, require that a candidate for a first class certificate must be at least 23 years of age, and have had at least five years' practical experience in a coal mine, and for a second class certificate be at least 21 years of age, and have at least three years' practical experience in a coal mine. The periods of practical experience may be reduced to three years and one year, respectively, in the case of a candidate who has received a diploma in scientific and mining subjects, after a course of study of at least two years at an educational institution approved in this behalf by the Governor-General in Council, or who has taken a degree in scientific and mining subjects at a University approved in this behalf by the Governor-General in Council.

The fees are Rs. 15 in the case of first class certificates and Rs. 8 in the case of second class certificates. By rule 34 of Government of India (Department of Commerce and Industry) Notification No. 2968—82, dated the 21st April 1906, "these fees shall be paid not less than one month prior to the date of the examination to the Chief Inspector of Mines at his office." The fees may be remitted by money-order or paid in any other manner.

Applications and fees should be addressed to the Chief Inspector of Mines in India, Dhanbad, East Indian Railway, and not to any officer by name. No candidate will be permitted to sit at the examination unless his application is received on or before the 3rd February 1916.

G. F. ADAMS,

State Sanskrit and Arabic Scholarships, 1916.

NOTIFICATION.

IN accordance with the directions contained in paragraph 3 of the Government of India, Home Department, Resolution Nos. 731—743, dated the 1st September 1908, which is republished below, two scholarships—one for the scientific study of Sanskrit, and another for the scientific study of Arabic in Europe—will be awarded in the year 1916. The application of any candidates from Bengal should be submitted with the required particulars to the undersigned not later than the 26th January 1916. No candidate will be considered who is not possessed of high qualifications and who is not a *bonâ fide* native of Bengal.

Application forms and rules for the guidance of selected candidates may be had from the Personal Assistant to the Director of Public Instruction, Bengal.

W. W. HORNELL,

Director of Public Instruction, Bengal.

CALCUTTA, *the 6th January 1916.*

Nos. 731—743, dated Simla, the 1st September 1908.

RESOLUTION—By the Government of India, Home Department.

THE Government of India have for some time past had under their consideration the question of encouraging the scientific study of Sanskrit and Arabic by natives of India. They believe that great advantage will result from aiding students to acquire the critical and scientific methods of western scholarship, by studying the classics under European Professors and by acquiring a knowledge of French and German which is indispensable for making full use of the researches of European Orientalists.

2. They have accordingly decided, with the sanction of the Secretary of State, to allot for the present four scholarships tenable in Europe—three for the study of Sanskrit and one for the study of Arabic. Not more than two will be awarded annually. The scholarships will be open to well-qualified students with a genuine taste for oriental studies and to gentlemen employed as Professors of Sanskrit and Arabic in India. The value of each scholarship will be £150 a year, and it will be tenable for two years. The Secretary of State will decide the courses of study of each scholarship-holder and the special conditions to be observed, if necessary, by students who elect to study in continental Europe rather than in England. A scholarship-holder will be provided with a free second-class passage to Europe, and also with a return passage if he completes the full period of residence or is compelled by sickness to return within that period. He will be required for disciplinary purposes to conform to such rules as the Secretary of State may make in this behalf.

3. In the first year one scholarship will be awarded for Sanskrit and one for Arabic. In the following year two scholarships for Sanskrit only will be awarded. Each Local Government or Administration is invited to submit, during the current financial year, the name of one candidate for a Sanskrit and one for an Arabic scholarship, and in the following year the names of two candidates for a Sanskrit scholarship, this procedure being followed in alternative years. It is requested that the names of the candidates may be accompanied by a full description of their qualifications, and with the views and recommendations of the Local Government thereon. The power of selection will rest with the Government of India, who will award the scholarships to those whom they may consider best fitted to hold them. Local Governments and Administrations are requested to submit their recommendations so as to reach the Government of India by the 1st March of each year at latest. Those for the current year should be sent in as soon as possible.

ORDER.—Ordered that a copy of this Resolution be communicated to the Government of Bengal for information and guidance.

W. W. HORNELL,
Director of Public Instruction, Bengal

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

State Scholarship of £200 per annum tenable in the United Kingdom by Indian Girls or Women.

THE scholarship will be granted for medical or occasionally for other educational courses and will be tenable in the United Kingdom for a period of three years in the first instance, with possibility of extension in special circumstances, and in particular in the case of medical students, to four or five years. The scholarship will carry with it no conditions as to any subsequent career or service under Government, and no expectation of such employment is held out.

2. The scholar will be selected by the Government of India from among candidates nominated by the Local Governments. Intending candidates are requested to make application to the Assistant Director of Public Instruction Writers' Buildings, Calcutta (from whom further particulars may be obtained), not later than 1st February 1916. The application should be accompanied by (1) evidence of having obtained the B.A. or B.Sc. degree or, in the case of a medical candidate, a degree in medicine of an Indian University; (2) a medical certificate of fitness to undergo abroad the course of study proposed; (3) a certificate of age; (4) a certificate from some person of recognised position well acquainted with the candidate, to the effect that she is a native of India and of purely Indian parentage; (5) the names, addresses and other particulars of friends or relatives in the United Kingdom to whom the applicant's parents or guardians are willing to commit her guardianship during vacation.

3. The selected candidate will be provided with a second class passage to England, and with a second class return passage if she completes the full period of residence or is compelled by sickness to return within that period.

4. It is also to be noted that before a State scholar leaves India to take up her scholarship, her parent or guardian will be required to show that she has sent to the Secretary for Indian students in London a sum of £25 for initial expenses.

5. The scholar will, on arrival in England, be required to bind herself by a written engagement to submit to the following rules and to such other regulations as may from time to time be framed by His Majesty's Secretary of State for India for the guidance of scholars in England :—

(*a*) Every scholar shall, on reaching England, at once call upon the Secretary for Indian students and report her arrival in writing. She shall leave her address with the Secretary for Indian students, and intimate to him from time to time all changes therein.

(*b*) Every scholar shall, without unnecessary delay, inform the Secretary for Indian students to which University she intends to proceed, and shall at once take steps to enter herself at the college she has finally selected with his approval.

(*c*) Every scholar shall, within four weeks of reaching England, submit to the Secretary for Indian students, for the approval of the Secretary of State, a statement showing the general course of study she proposes to follow, with a view to carrying out the objects of the scholarship granted to her; and the course approved must not be changed without the sanction of the Secretary of State.

(*d*) Every scholar shall, at the end of each term of residence at a University, submit to the Secretary for Indian students a certificate from the proper College or University authority showing that her residence, conduct and progress in study have been satisfactory during the term.

(*e*) Every scholar shall at all times obey such instructions as she may receive from the Secretary of State, either directly or through the Secretary for Indian students.

(*f*) Subject to a due compliance with the above conditions, the allowance, at the rate of £200 a year for three, four or five years, will be paid quarterly, in advance, by the India Office, commencing from the date of the scholar's reporting her arrival in England. The first payment will be £50. Three months after the date of reporting arrival the amount to the ensuing official quarter day will be paid. Subsequent payments will be made, in advance, on or after each official quarter day. The allowance will be reduced by the amount of any other sum which may become payable to her out of the revenues of India in respect of residence at a University during the same period or any part of it, and also by the amount of any University or College bills, of which payment is made by the India Office.

(*g*) Travelling expenses, hotel bills and charges for medical attendance are not defrayed by the Secretary of State.

(*h*) Every scholar will forfeit her scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to complete a residence in England for the prescribed number of years of the scholarship according to the terms and conditions approved by the Secretary of State under (*c*) above, or who is guilty of misconduct or disregard of the instructions of the Secretary of State. If a scholarship be forfeited, or if it be resigned before completion of its term, or if a scholar on completion of the term of her scholarship declines to return to India when instructed to do so, the scholar will lose her claim to a free return passage to India, and will further become liable, at the discretion of the Secretary of State, to refund the cost of her free passage to England.

(*i*) At the expiration of her scholarship, a scholar is provided by the India Office with a free second class passage to India. The scholar is not entitled to make her own passage arrangements and to claim an allowance in lieu thereof from the India Office without the special sanction of the Secretary of State. All communications on this subject shall be made to the Secretary for Indian students.

(*j*) Should the Secretary of State be advised that the state of a scholar's health is such as to render her return to India desirable, the scholarship may be terminated forthwith and a free return passage granted to the scholar.

LAND SALE NOTICES.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Bengal-Nagpur Railway, in the district of Midnapore, will be put up to sale at one o'clock on Thursday, the 16th March 1916, corresponding with the 3rd Chaitra 1323 Amli at Dhenga, pargana Kedarkundu.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary, or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders subject to an upset price.

5th.—The sale will become final on receipt by the Collector of the orders of the Commissioner confirming it and a regular deed of conveyance will then be granted to the purchaser.

PROCLAMATION OF SALE.

(Order 21, Rule 66, Code of Civil Procedure.)

In the Court of Sadar 2nd Munsif at Dinajpur.

MONEY EXECUTION CASE No. 54 OF 1915.

(1) Sarat Chandra Gupta, (2) Satish Chandra Gupta, (3) Ramesh Chandra Gupta, sons of late Purna Chandra Gupta minors, by their next friend Babu Matangi Charan Chakravarty, manager, appointed by the Court of Wards, of Ganeshtala, town Dinajpur, decree-holders, *versus* Maulvi Mohammed Memnatulla Khan, son of late Maulvi Mohammed Hamidulla Khan, of Katchari Kachubari, police-station Thakurgaon, district Dinajpur, judgment-debtor.

NOTICE is hereby given that, under Rule 64 of Order XXI of the Code of Civil Procedure, 1908, an order has been passed by this Court for the sale of the attached property mentioned in the annexed Schedule, in satisfaction of the claim of the decree-holder in the suit mentioned in the margin amounting with costs and interest up to date of sale to the sum of Rs. 1,490-10-6.

Suit No. 503 of 1913, money decided by the 2nd Munsif of Dinajpur, in which Sarat Chandra Gupta and others were plaintiffs and Maulvi Mohammed Memnatulla Khan was defendant.

The sale will be by public auction, and the property will be put up for sale in the lots specified in the Schedule. The sale will be of the property of the judgment-debtor above named, as mentioned in the Schedule below; and the liabilities and claims attaching to the said property, so far as they have been ascertained, are those specified in the Schedule against each lot.

In the absence of any order of postponement, the sale will be held by Nazir, Judge's Court, Dinajpur, at the monthly sale commencing at 12 o'clock on the 6th March 1916. In the event, however, of the debt above specified and of the costs of the sale being tendered or paid before the knocking down of any lot, the sale will be stopped.

At the sale the public generally are invited to bid, either personally or by duly authorized agent. No bid by or on behalf of the judgment-creditors abovementioned, however, will be accepted, nor will any sale to them be valid without the express permission of the Court previously given. The following are the further—

Conditions of sale.

1. The particulars specified in the Schedule below have been stated to the best of the information of the Court, but the Court will not be answerable for any error, mis statement or omission in this Proclamation.

2. The amount by which the biddings are to be increased shall be determined by the officer conducting the sale. In the event of any dispute arising as to the amount bid, or as to the bidder, the lot shall at once be again put up to auction.

3. The highest bidder shall be declared to be the purchaser of any lot, provided always that he is legally qualified to bid, and provided that it shall be in the discretion of the Court or officer holding the sale to decline acceptance of the highest bid when the price offered appears so clearly inadequate as to make it advisable to do so.

4. For reasons recorded it shall be in the discretion of the officer conducting the sale to adjourn it, subject always to the provisions of Rule 69 of Order XXI.

5. In the case of moveable property, the price of each lot shall be paid at the time of sale or as soon after as the officer holding the sale directs, and in default of payment the property shall forthwith be again put up and resold.

6. In the case of immoveable property, the person declared to be the purchaser shall pay immediately after such declaration a deposit of 25 per cent. on the amount of his purchase-money to the officer conducting the sale, and in default of such deposit the property shall forthwith be again put up and resold.

7. The full amount of the purchase money shall be paid by the purchaser before the Court closes on the fifteenth day after the sale of the property, exclusive of such day, or if the fifteenth day be a Sunday or other holiday, then on the first office day after the fifteenth day.

8. In default of payment of the balance of purchase-money within the period allowed, the property shall be resold after the issue of a fresh notification of sale. The deposit, after defraying the expenses of the sale, may, if the Court thinks fit, be forfeited to Government, and the defaulting purchaser shall forfeit all claim to the property, or to any part of the sum for which it may be subsequently sold.

Given under my hand and the seal of the Court, this 10th day of January 1916.

NAGENDRA NATH GHOSE, Munsif, 2nd Court.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES viz.

CALCUTTA, MADRAS BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

STARRED QUESTIONS

By the Hon'ble KHAN BAHADUR MAULVI MUSHARRAF HUSSAIN :—

Payment of school-fees in Eastern Bengal

* 1. (*a*) Is it a fact that the rules regarding the payment of school-fees in Eastern Bengal differ from those in force in Western Bengal ?

(*b*) Is it a fact that Government servants, such as postmasters, police-officers and other officers, in Eastern Bengal districts, find it inconvenient to pay their children's school-fees within the date prescribed by the rules for the payment of school-fees, namely, the 1th day of the month, as they generally receive their salaries after that date ?

(*c*) If so, are the Government considering the advisability of altering the rules in this connection ?

Questions and Answers.

[*Mr. De: Maharaja Ranajit Sinha of Nashipur: Mr. Birley.*]

The Hon'ble MR. DE replied :—

(*a*) "The answer is in the affirmative.

(*b*) No complaints of this nature have been received by Government or the Director of Public Instruction.

(*c*) The co-ordination of the rules regarding the payment of school fees in Eastern Bengal and Western Bengal is under consideration."

By the Hon'ble MAHARAJA RANAJIT SINHA OF NASHIPUR :—

Service of summonses.

* 2. (*a*) Is it not a fact that the personal service of summonses in all rent-suits is invariably insisted upon by the Courts ?

(*b*) Are the Government aware that this mode of service causes much delay in the disposal of cases and entails trouble and expense to the parties concerned ?

(*c*) Are the Government considering the desirability of making recommendations to the High Court to have the service effected (especially in the case of tenure-holders) by registered post under the power given to them by clause (*d*) of section 148 of the Bengal Tenancy Act, 1885 (Act VIII of 1885) ?

The Hon'ble MR. BIRLEY replied :—

"(*a*) The personal service of summonses in all rent-suits is invariably insisted upon under the rules framed by the High Court.

(*b*) & (*c*) The question of the service of summonses through the Post Office under section 148 (*d*) of the Bengal Tenancy Act has been considered by Government in the past, but the High Court and the Postal authorities were opposed to the proposal. There is no such proposal now before Government, and it is not intended to reopen this question at present."

By the Hon'ble MAHARAJA RANAJIT SINHA OF NASHIPUR—

Malaria in the Murshidabad district.

* 3. (*a*) Are the Government aware that the number of attacks and deaths from malaria in the Murshidabad district during 1915 was higher than that of the previous year ?

(*b*) Is it a fact that the quinine supplied by the Government for distribution was not sufficient to meet the requirements of the district ?

(*c*) Is it a fact that there have been frequent outbreaks of cholera and also an increase in the number of malaria cases in the Murshidabad Municipality during the last two years ?

(*d*) Is it also a fact that the average death-rate exceeds the birth-rate in the said municipality ?

(*e*) Will the Government be pleased to state what steps, if any, they are taking to improve the health of the people in the Murshidabad district ?

The Hon'ble MR. DE replied :—

"(*a*) The answer is in the negative. The number of deaths from fever for the 11 months ending the 30th November, 1915, was 45,013 as against 45,819 for the corresponding period in 1914. Statistics available do not show what proportion of these was due to malarial fever.

(*b*) The answer is in the negative. The number of grains of quinine distributed gratuitously and supplied to vendors during 1915 was respectively 9,50,200 and 6,828,000 as against 7,60,000 and 5,663,200 for the year 1914.

(*c*) As regards cholera, the answer is in the negative. The number of deaths from cholera up to the 30th November 1915, was 30 as against 115 for the year 1914. As regards malaria, the Hon'ble Member is referred to paragraph (*a*).

Questions and Answers.

[*Maharaja Ranajit Sinha of Nashipur : Mr. Green : Maulvi Mazharul Anwar Chaudhuri.*]

The Hon'ble Mr. DE replied—*concld.*

(*d*) In common with the great majority of Bengal municipalities the recorded death-rate in Murshidabad exceeds the recorded birth-rate; but it is not possible to say whether the death-rate really does or does not exceed the birth-rate. The disinclination of parents to register births is often very great. Investigation has sometimes shown a deficiency of 50 *per cent.* in recorded births, and it is therefore extremely difficult to draw accurate conclusions from the figures which are supplied.

(*e*) A grant of Rs. 40,000 was made to the Berhampore Municipality for water-supply during the year 1914-15 and a grant of Rs. 500 for quinine during the current year. Eighteen vaccinators were deputed on special duty in connection with small-pox during the rains of 1915. The District Board of Berhampore spent Rs. 16,421 on medical charges in 1914-15."

By the Hon'ble MAHARAJA RANAJIT SINHA OF NASHIPUR :—

The condition of the Bhagirathi river.

*4. Will the Government be pleased to state whether the condition of the river Bhagirathi has improved since the mouth of the river was last dredged and, if not, what further steps they are taking in the matter?

The Hon'ble MR. GREEN replied :—

"The condition of the river Bhagirathi has not improved since the mouth of the river was dredged in the cold season of 1914-15.

Dredging operations at the mouth of the river are now in progress. It is feared that this will not cause any permanent improvement in the condition of the river Bhagirathi. The dredging of the mouth of the river will, however, be further considered in connection with the report on the Nadia Rivers recently received from Major Hirst, I.A., Director of Surveys."

By the Hon'ble MAULVI MAZHARUL ANWAR CHAUDHURI :—

Sites for the reservoirs near the Damodar river.

*5. Will the Government be pleased to state—

(*i*) whether the sites of the reservoirs, recommended in Mr. Addams-William's scheme for mitigating the severity of the floods of the river Damodar, have been selected ;

(*ii*) whether the preliminary surveys and other works recommended in the said scheme have been completed ;

(*iii*) if the sites of the reservoirs have not yet been finally selected and the preliminary surveys, etc., have not yet been completed, what progress has been made in these matters up to the present time ; and what steps have been taken or are being taken to complete the preliminary works during the present cold season?

The Hon'ble MR. GREEN replied :—

(*i*) "The site for one reservoir has been selected.

(*ii*) The preliminary surveys for the reservoir mentioned in paragraph (*i*) have been completed. The site for the second reservoir has not yet been selected and no preliminary surveys in connection therewith have been made. The other works alluded to by the Hon'ble Member are presumably—

(*a*) The excavation of an escape channel from the 38th mile of the Chetua Circuit Embankment to the 5th mile of the Rupnarain Right Embankment.—Surveys of this work have been completed. Further information has been called for and the estimates will be prepared in due course.

(*b*) The improvement and extension of the Hoorhoora khal.—Surveys of this work have been made. The estimate has been prepared and is under scrutiny.

Questions and Answers: The Bengal Smoke-Nuisances (Amendment) Bill, 1915.

[*Mr. Green: Mr. Beatson Bell.*]

The Hon'ble MR. GREEN replied—*concld.*

(*c*) The retirement of the Baxi khal embankment at the Rupnarain end and the widening of the khal.—Surveys have been made and the proposals have been examined carefully. Estimates will now be prepared and scrutinized.

(*d*) The construction of a short channel from Kharia on the Gaighatta khal to join with the Ghesapatty khal.—Surveys of this have been made and the estimate is under scrutiny.

(*e*) The declaration of certain areas under section 6 of the Embankment Act.—Steps are being taken to have these areas declared.

In connection with the Damodar river itself—

(*a*) The location and preliminary survey of one reservoir site have, as already stated, been completed. The proposed survey for the second site is in abeyance on account of the present financial stringency.

(*b*) The location of suitable places to escape flood water on the right bank of the Damodar to relieve the pressure against the left bank.—It is now anticipated that these escapes will form themselves; in other words, the escapes may be left to the action of nature.

(*c*) The provision of an escape behind the Jungalpara village on the right bank of the Damodar.—It is believed that this escape will also form of its own accord and that no artificial means need be adopted.

(*d*) The proposal for a cut between the Kana Nadi and the Mandeswari.—The Hon'ble Member is referred to the resolution which stood in the name of the Hon'ble Dr. D. P. Sarbadhikari for discussion at the Council meeting in September, 1914, which was subsequently withdrawn by the Hon'ble mover. Inquiries have been made into this proposal and it has been ascertained that with the improvement of the Hoorhoora khal this work will probably be unnecessary.

(*iii*) The answer given in paragraph (*ii*) above deals fully with the progress already made and with the steps which are now being taken to complete preliminary operations."

LIST OF BUSINESS—ITEM No. 2.

THE BENGAL SMOKE-NUISANCES (AMENDMENT) BILL, 1915.

The Hon'ble Mr. Beatson Bell presented the Report of the Select Committee on the Bengal Smoke-nuisances (Amendment) Bill, 1915.

He said :—

"My Lord, I beg to present the Report of the Select Committee on the Bengal Smoke-nuisances (Amendment) Bill. As Hon'ble Members will see from the papers in their hands, we have unfortunately not been altogether unanimous in our report. We carefully considered this Bill and we found that we had to deal with several classes of people. In the first place, there were absentee landlords, people who have seldom got friends. However, we were able to throw them a satisfactory biscuit, and I think we shall have no further difficulty in this direction. The next class of people were ladies who employ their spare time in manufacturing coke. My friend, the Hon'ble Rai Radha Charan Pal Bahadur, thought that we were a little hard on them, and that we should make some provision to ensure that their privacy was not unduly and unreasonably invaded. I recently spent an evening in seeing the manufacture of coke, and I also saw and conversed with some of

Khan Bahadur Maulvi Musharaff Husain.

these ladies. Then I had a further discussion with the Rai Bahadur and he has now drawn up an amendment which Government are prepared to accept.

The third class of people were the steamship companies. I take this opportunity of thanking Mr. Carmichael for allowing me to assist in the stoking of a British Indian steamer, the good ship *Dunera*. I must also thank her Commander, Captain Munro, her Chief Engineer, Mr. Duncan, and I may add Hijjat Ali, the serang of the stokers. I spent an extremely interesting night and did a good deal of personal stoking. I came to the conclusion that our Bill is by no means an unreasonable Bill, but I understand that some Members of the Select Committee and some Members of this House still think that the Bill is capable of improvement. We also on behalf of Government have been examining the Bill and we think it possible that even at this eleventh hour it may become non-contentious. Hitherto the discussions have been conducted on both sides with the most complete good humour, and I am sure that this will continue. We are all desirous of arriving at the same result, namely, that there should be as little smoke in Calcutta as is reasonably practical. Perhaps, the solution will be found in lubricating the wheels of administration with a little of the oil of democracy. In other words, we may perhaps see our way to dispense with an official majority on the Smoke-nuisances Board. This suggestion has been made, and we are quite willing to consider it. This would be an important change, and it could not be made on the spur of the moment. I therefore propose that, with a view to arrive at some unanimous conclusion, this Bill should be postponed until the next meeting of the Council."

RESOLUTION.

(*Under the rules for the discussion of matters of general public interest.*)

LIST OF BUSINESS—ITEM No. 3.

The Hon'ble KHAN BAHADUR MAULVI MUSHARAFF HUSAIN moved the following rssolution :—

" This Council recommends to the Governor in Council that the following roads be added to the list of roads to be metalled by the Public Works Department under the Duars Improvement Scheme, namely :—

(*1*) the road from Nathoahat to Ambarihat ;

(*2*) the road from Nathoahat to Gairkatahat ; and

(*3*) the road from Nathoahat to Dhupguri."

He said :—

" My Lord,—In moving this I beg to point out that we are all grateful to your Excellency for what you have done and are still doing for the improvement of the district of Jalpaiguri. I do not like to minimise at all the importance of the roads that are already in the programme. If I had been so minded, I would have taken an early opportunity of condemning it by moving a resolution to that effect in this Council. While I am fully alive to the difficulties that the higher authorities experience in making a scheme for the improvement of a place that would be acceptable to all sections of the people concerned, yet at the same time I beg to point out to your Excellency the feelings of disappointment of the Indian Planting Community in this affair, so that your Excellency may, in giving effect to the whole scheme, consider the disadvantages of the Indian Tea Planters in the Duars. My Lord, there is a strip of land running from the Bhutan hill and lying to the west of Banarhat Tea Estate and to the east of the Diana river and stretching as far as the Jaldhaka Tea Estate, a distance of about 13 miles where there exist eight gardens of various dimensions belonging to Indian Tea Planters.

Resolution.

[*Khan Bahadur Maulvi Musharaff Husain.*]

I regret to inform your Excellency that the Duars improvement scheme has totally ignored this strip of land. European planters on both sides of this strip of land have got connection with a common centre at Barnes Junction. But I regret to notice that this middle portion belonging to the Indian Planters has not been connected with either of its two fortunate neighbours. The reason why this has been done is quite obvious. I do not for a moment want to insinuate that this has been willingly done by the framers of the scheme, but it has been done through oversight and for want of proper representation when the whole matter was considered. My Lord, we all owe a great deal to your Excellency for your sympathetic attitude towards the people of the Duars and especially because of the fact such a big scheme for the improvement of the place has been undertaken during your régime. Your Excellency very kindly deputed Mr. Finnimore, the then Chief Engineer of your Excellency's Government, to the town of Jalpaiguri to draw up a scheme for the improvement of the Jalpaiguri district some time in 1912. He was pleased to hold a conference of representative gentlemen of the district including Mr. Milligan, the then Deputy Commissioner, the Hon'ble Mr. Chaplin and myself. Mr. Finnimore explained to us that he would make a grand trunk road starting from Totulia, the westernmost point of the district of Jalpaiguri to the town of Jalpaiguri, and crossing the river Teesta, it would go to Ramshahi, where it would meet another road from Chalsa, and bridging the rivers Jaldhaka and Diana a little below their junction about half a mile from the Ramshahi station, it would go to Gairkata and after serving as many tea gardens as possible on its way, would go to Alipur and from there to Kumargram. The Government accepted this scheme and when the Hon'ble Raja Mahendra Ranjan Ray Chaudhuri made an interpellation in this Council, soon after the opening of the new Council in January 1913, your Excellency's Government was pleased to reply that the scheme was unalterable and that the Government could not accept the idea of the Hon'ble Member to change it. My Lord, the settled facts became unsettled, how, when, and by whom, we, the public, do not know. If that scheme had been pushed through there would have been no necessity for me to press for adding the road from Dhupguri to Nathoahat and from Nathoahat to Gairkata at all. It is beyond the comprehension of a man of my intelligence how a road, which was in the programme, could have been omitted without the consent of the persons who are interested in the affair. It may be argued that it will be to the interests of my fortunate European friends and of the people of the Duars to have the alternative route from Gairkata to Mainaguri *viâ* Dhupguri and it will be a shorter route to Barnes Junction. My Lord, I must reject both these arguments at once. We are going to spend over two lakhs of rupees for bridging the Jaldhaka near Dhupguri. A glance at the map of the district of Jalpaiguri will at once make the thing clear that we are bridging the river just within a mile and a half from the Cooch Behar boundary. My Lord, the Jaldhaka river demarcates the boundary of the Mainaguri and Dhupguri thanas and the Mainaguri and Falakata Tahsil. People going to Dhupguri thana and Falakata Tahsil and those going to the Mainaguri thana and Tahsil office for business will not require the use of the bridge there. Then the people living a mile and a half to the south will not care to go there, as they have absolutely no interest in the district of Jalpaiguri, being residents of an independent Native State. Even if it be of any use to them, my Lord, I will be the first person to oppose the expenditure of public money for the comfort of those people, when that money can be more usefully spent. Then there remains the case of my European friends about whom I am dealing next. My Lord, the Gairkata-Nathoahat road, which I am proposing to be included, if joined with Ramshahi Railway station, and if the river Jaldhaka is bridged at the site proposed by Mr. Finnimore somewhere near Ramshahi and Ramshahi-Mainaguri road is metalled instead of the Jaldhaka-Mainaguri road, it will be of real benefit to my fortunate European friends as well. In the latter event, in case of any breach in the Bengal-Duars Railway Eastern Extension from Chalsa to Madarihat, the Ramshahi station may be very conveniently used by the planters of the Diana-Tursa district. Your Excellency is aware that there was a breach this year in the Bengal-Duars Railway owing to which

Resolution.

[*Mr. Chaplin.*]

Coolie rice was selling in the Diana-Tursa district at the rate of three seers a rupee. Some of the planters who were short of coal suffered great inconvenience. They could not send down their tea for sale in Calcutta, although tea was selling at twelve annas a pound. All these inconveniences would be removed if the said tea district were connected by a bridge and a metalled road with the Ramshahi station, which is only 10 miles from Gairkata. From the point of view of distance between Gairkata and Mainaguri *viâ* Ramshahi and Dhupguri respectively, a glance at the map will show that the one through Ramshahi is shorter. On the other hand, in case of any breach on the railway, my Lord, if the present scheme of metalling and bridging the Gairkata-Dhupguri and Mainaguri roads is adhered to, the people of Gairkata will have to come to Barnes Junction for their supplies, which is at a distance of about 26 miles. In these circumstances, my Lord, I believe I have made the case quite clear to your Excellency that the first scheme made by Mr. Finnimore and accepted by the Government and announced to have been so accepted and as unalterable in this Council is a better one from all points of view. Now, when I press for the metalling of the roads between Nathoahat and Gairkata, I am simply demanding that your Excellency's Government should redeem the promise that has been made in this Council hall in 1913.

When I move for the addition of the road from Nathoahat to Dhupguri, my Lord, I simply want a connection with a road which is already in the altered scheme. I believe if the Government adhere to the altered scheme, it should only be fair that we Indian planters should get a connection. My Lord, when I see Gairkata being connected on one side with Dalgaon, on another with Binaguri and thirdly with Banarhat, which is again being connected with Haritalguri and Chunabhati, I can fairly claim a north and south road from Ambari to Nathoahat and connecting the same with the trunk road at Dhupguri to connect the Indian tea gardens with the trunk road. My Lord, when the altered scheme was prepared, and if I was allowed a hearing and if it was not confidentially done, I could have given my views and helped in the framing of the scheme to the advantage of all. My Lord, I have sufficiently dealt with the advantages and disadvantages of the two systems of roads and I trust that I have made it sufficiently clear that my demand is fair, equitable and just. I hope, therefore, that your Excellency's Government will impartially deal justice to all and grant the making of a road that will open out our part of the Duars.

With these few words, my Lord, I commend this resolution to this Council for their kind acceptance."

The Hon'ble MR. CHAPLIN said :—

" My Lord,—My friend the Hon'ble Khan Bahadur Maulvi Musharraf Husain has raised several points in his speech on which I should like to say a few words. As regards his proposals, I have no doubt that some of the roads he mentions would be very useful additions to the general scheme for the improvement of road communications in the Duars, but it was never claimed that the scheme drawn up by the Public Works Department and District Officers, in consultation with the Duars Planters' Association and other representatives of the planting interests, including the Indian planters, represented a full category of all the roads required. It was intended as a nucleus on which a more detailed and perfect network of roads would in time be built up. I have no recollection of a definite scheme having been changed after acceptance by Government. At the time the scheme was drawn up, the Hon'ble Maulvi Musharraf Husain and other Indian planters had ample opportunities of stating their opinions. Both he and most of them, moreover, are members of the Duars Planters' Association, with as much right as European members to attend the meetings and express their opinions, and they have always been welcome at these meetings. There was no distinction whatsoever between the Indian interests and those of the European-owned gardens, and the Binaguri-Dalgaon and Banarhat roads, which he specially refers to, serve Indian estates just as well as European ones. There were many important roads which it was not possible to include in the first general scheme and those were left to the District Board

Resolution.

[*Mr. Beatson Bell.*]

programme Chief among the latter was the Ranganati-Kalchini road which is the only outlet for a district representing a very much larger area of tea than that served by the roads proposed by the Mover of the resolution. I regret, therefore, that he should have made the mistaken, and I think not very fair—suggestion that the Indian planters' interests were relatively neglected. No doubt, in the light of after experience it is possible to add to, and even improve on, the original programme, and in so far as it is possible to do so without interfering with the other main roads scheduled, I hope Government will consider the Hon'ble Maulvi Musharraf Husain's proposals sympathetically. But at the same time I think that if there are any surplus funds available for the purpose, the extra grants should be impartially distributed where most required, after consultation with the District Officers and the Planters' Association.

As regards the roads mentioned in the resolution before the Council, I understand that the gist of the proposals and their main point is that the bridge over the Jaldhaka river, which the original scheme placed at the point where the direct Dhupguri-Mainaguri road crosses it, should be built instead at a point above 8 miles further up the river at Sukti Ghat, below the confluence of the Dhuria and Jaldhaka rivers and about two miles below Ramshahi; that the roads be constructed from Ambari to Nattoa and thence to Dhupguri, tapping Sakti Ghat on the way; and that the existing road from Gairkata to Nattoa be metalled. These are ambitious proposals and involve the construction of about 30 miles of metalled roads; but I am anxious that something may be done towards meeting the requirements of the locality referred to by my hon'ble friend, and I hope, therefore, that, if Government consider his full proposals too costly for present consideration, they will accede to part of his request, by diverting the alignment of the Dhupguri-Mainaguri road *via* Sakti Ghat and bridging the river there instead of on the direct route, provided the District Officers and the Planters' Association approve this. This revised alignment, while costing comparatively little more than the original scheme, might be made to serve a double purpose, by creating an outlet for the roads east of the Jaldhaka across that river to the Ramshahi station, Bengal-Duars Railway, which is the most important requirement, and the larger question of the other metalled roads from Ambari and Gairkata could be left for future consideration."

The Hon'ble MR. BEATSON BELL said:—

"My Lord,—I cannot but think that it is somewhat unfortunate in several respects that this motion has been brought forward in this House. In the first place, it is unfortunate that any racial question should have been introduced where no racial problem really exists. In the next place, from the point of view of all communities in Jalpaiguri, it seems rather bad policy to draw prominent attention to the fact that Government has already spent eight lakhs of rupees and hopes, provided that funds are available, to spend another 12 or 16 lakhs of rupees upon roads in Jalpaiguri at a time when so many urgent claims are before the country, and when so many other district boards and municipalities are hungering for funds. A third reason why it is unfortunate that this question has been brought up here is that most members of the Council feel themselves utterly unable to arrive at any decision as to the merits of the question. If we had been discussing, let us say, roads from Baghdad to Ctesiphon or from Premszyl to Lemberg, or from Czernowitz to Chartorysk, and other places with which we are all familiar, I think the House might have been able to arrive at some conclusion; but most of the members sitting here to-day could not, I fear, make an affidavit as to the relative position of Mainaguri and Dhupguri. We are not the District Board of Jalpaiguri, nor are we the Planters' Association, and I feel certain that most members are already hopelessly fogged. It would have been better that this motion should have been brought forward in the first instance at a meeting of the Planters' Association in Jalpaiguri, where there are both European and Indian members. The Association could have discussed the matter thoroughly and then made a

Resolution.

[*Mr. Beatson Bell.*]

representation to the Deputy Commissioner, and through him to the Commissioner and to Government. The matter would have been dealt with in a businesslike way.

The outline of the history of this case is this. From the time of the Eastern Bengal and Assam Government proposals were on foot that if funds could be found, something should be done for the roads in the Duars. At that time the cess income of the District Board was something in the neighbourhood of Rs. 80,000, a comparatively small income for a very large district. Since then, as the House is aware, Government have presented to the District Board the entire revenue of the Public Works cess and, moreover, in connection with the recent settlement operations in Jalpaiguri, the cess demand has been revised, and I think I am not wrong in saying that instead of a cess income of Rs. 80,000, the District Board has now a cess income of something in the neighbourhood of two lakhs. This only emphasises what I have just said, that the representatives of Jalpaiguri should not have been so precipitate in drawing public attention to the subsidy which they have been receiving, and are going to receive, from Government. Anyhow, Government decided three years ago that, in the circumstances then existing, it was only reasonable that a Government grant should be made towards the improvement of roads in Jalpaiguri. A meeting was held at which Mr. Finnimore presided. Representaive Europeans and Indians were present, and a rough programme was drawn up. This meeting took place in December 1912 and the proceedings of the meeting were in due course laid before Government; but this rough scheme drawn up in 1912 never received the formal approval of Government. As is the manner of Government we received the proposal and we entered on a correspondence. It is entirely a misapprehension on the part of the Hon'ble Khan Bahadur when he asserts that in January 1913 a pledge was given in this House to the effect that the rough scheme drawn up in December 1912 was unalterable and irrevocable. Before I came to this meeting I asked the Khan Bahadur to give me a reference to this alleged pledge. He answered that he was relying on his memory and that he could not refer me to the exact words used by Government when making this pledge. I had hoped that after this conversation my friend would have refrained from accusing Government of a breach of faith. He has persisted, however, in making this serious charge. Well, I have before me the exact question which was put by the Hon'ble Raja of Kakina and the exact reply which was given by Government. The Raja asked, 'Will Government be pleased to state what action is under contemplation or likely to be taken to improve the feeder road communications in the Duars and Jalpaiguri districts, the present unsatisfactory state of which is seriously felt by the planting community and the Bengal Duars Railway as well as by the public, and the insufficiency of which is seriously checking the development of the tea trade particularly, and others generally?' The answer was as follows: 'The question of the improvement of the road communications in the Duars is receiving the full consideration of Government and a conference was held on 20th December, 1912, at Jalpaiguri, at which the Chief Engineer of the Roads and Buildings Branch, the local Civil and Public Works officers, and the following non-officials were present: Mr. A. W. C. Chaplin, Chairman, Duars Planters' Association, (2) Rai Kalipada Banerji Bahadur, Vice-Chairman, District Board of Jalpaiguri, and (3) Maulvi Musharraf Husain. It was resolved at that conference that a good east and west road was required from Kumargram to Tetuliya *viâ* Alipur, Falakata, Dhupguri, Gairkata, Ramshahi, Mainaguri and Jalpaiguri and a north and south road from Ramshahi to Matelli, and that if these roads are constructed and maintained by Government, the District Board would maintain all the other roads. The District Board are preparing a scheme for the improvement of these roads and will submit it to Government with an application for a loan to carry out the scheme. Government are awaiting receipt of this scheme. As regards the two roads proposed to be constructed east to west and north to south, the Superintending Engineer of the Northern Circle has

Resolution.

[*Mr. Beatson Bell.*]

already been asked to report the rough cost of metalling and bridging them, and the receipt of the information is awaited. On receipt of the District Board scheme and the information from the Superintending Engineer, further action will be taken as far as funds will permit. For the present, a provision of two lakhs of rupees has been set aside for improvement to the Duars roads in the Public Works Department budget for next year. It is not proposed to reconstruct any old Military road.'

I challenge my friend the Khan Bahadur to say that there is anything in this amounting to a pledge that the rough scheme which was drawn up in December 1912 was accepted by Government as an irrevocable scheme. On the contrary, having received that scheme we asked for the opinion of the District Board and the opinion of the Superintending Engineer. In due course these opinions were received, and we received a letter from Mr. French, the Commissioner of the Division, on the 1st March 1913.

I shall read this letter to the House :—

'With reference to your telegram, dated the 26th February, on the subject of the Jalpaiguri District Board scheme for Duars roads, I have the honour to forward herewith a note drawn up by the Deputy Commissioner, Jalpaiguri, with two illustrative sketch maps.

'I have discussed the scheme with Mr. Milligan. It differs very materially from that put forward at the conference held at Jalpaiguri on the 20th December, but it appears to me to be preferable. Jalpaiguri and Alipur are the two main outlets for the trade of the Duars, and I think that the main road systems should converge on those points.

'It will be noticed that the roads which it is proposed should be made provincial are confined to the Western Duars. This tract has special claims to liberal treatment at the hands of Government. It is a submontane tract and is intersected by numerous rivers from the hills which make it specially difficult and costly to maintain communications throughout the year. At the same time it is even more essential for the tea industry that the roads should be kept open during the rainy season than in the cold weather. The whole tract is Government property which is becoming year by year more valuable and which is rapidly developing. What is needed more than anything at the present time to assist in this development is improvement of communications.'

Mr French forwarded a note from Mr. Milligan in which the revised scheme was discussed in detail and a list of 19 roads was drawn up. I need not read the whole of Mr. Milligan's note, but I shall be glad to show it to the Khan Bahadur if he so desires. I will only quote the opening paragraph :—

'I have had a full and final discussion of this question with the Hon'ble Mr. Chaplin, and other representative planters, and am now in a position to law before Government in a complete form the suggestions which the district has to make as to the most useful method of applying the funds which may be allotted to road construction in Jalpaiguri district.'

It was on this note of Mr. Milligan and this letter of Mr. French that the final scheme was drawn up and ultimately sanctioned ; the letter of sanction was issued in January, 1914. From that time to this there has been no change whatever in the programme, and I think it would be most unfortunate if we sitting here, with our admittedly imperfect knowledge of the district, were to begin pulling to pieces a scheme which was arrived at after so much discussion and was sent up to Government over the name of Mr. Milligan, whose knowledge of the district is absolutely unrivalled and who is an intimate friend of everyone in the district, European and Indian alike. On any matter concerning Jalpaiguri most people would be content to be wrong in company with Mr. Miligan. Anyhow, Mr. Milligan's scheme has held the field from March 1913 till to-day. So late as the last Budget debate in April, 1915, the

Resolution.

[*Khan Bahadur Maulvi Musharaff Husain.*]

Khan Bahadur spoke on the subject of this scheme of roads, and, strange as it may seem, at that time he did not breathe a word regarding the roads which he now puts forward as essential, namely, the three roads which branch out, like Mahadeo's trident, from Nathoahat to Ambarihat, to Gairkatahat and to Dhupguri. When my friend the Khan Bahadur spoke on this very subject in April last, what he said was this :—

'I beg to thank your Excellency's Government heartily for expending a good amount for the improvement of the Duars roads. I have been impressing upon your Excellency's Government for the last two years that the two systems of roads—one leading to Jalpaiguri and the other to Alipur—should be linked together for the improvement of inter-district communication. I personally explained this to the Hon'ble Mr. Green and pointed out to him that it was very easy to do so by extending the Dalgaon-Lankapara road up to the edge of the river Tursha and the Rajabhatkhawa-Joygaon road to the other bank of the river and keeping a good ferry across the river till the Public Works Department would think it opportune for bridging it. The cost in doing so will, I believe, be very small indeed, and I hope the Government would kindly accept this suggestion.'

There is not a word about the roads on the trident. I must make it quite clear that, if these three roads are taken up by Government, it can only be done by removing some other roads from Mr. Milligan's scheme. Obviously, this proposal cannot be considered by Government except on a strong representation from the local bodies which are immediately concerned. Therefore while Government have every sympathy with the Khan Bahadur's desire to have these three roads put in good order, I would ask him not to press the motion here, but to bring it up before the District Board and the Planters' Association, in both of which bodies he is an influential member.

With these few words I would ask the Khan Bahadur not to press his motion."

The Hon'ble KHAN BAHADUR MAULVI MUSHARAFF HUSAIN said :—

"My Lord,— After what has been said by our respected friend the Hon'ble Mr. Beatson Bell, I think it my duty to withdraw my motion for the present ; but before doing so, I must say a few words in reply to some of the remarks that he has made in his speech, and I have also to reply to the Hon'ble Mr. Chaplin regarding some of the remarks that he has made. Mr. Chaplin first of all has pointed out that there are other roads more important than those which I have mentioned which ought to get greater prominence. He mentioned the Rangamati-Khalchini road. If I remember right, this road is being metalled every year by two miles and Mr. Chaplin probably wants to get it finished soon and that is the reason why he brings that road into prominence. So far as that road is concerned, it is receiving proper attention from the District Board. The roads for which I plead get very little help from the District Board. I think for a length of 13 miles we do not get more than Rs. 300 for their maintenance ; on the other hand, my friend is getting Rs. 15,000 annually for this Rangamati-Khalchini road, which is also a distance of 13 miles. This, I think, meets the remarks made by Mr. Chaplin.

In reply to the Hon'ble Mr. Beatson Bell's remarks about the introduction of racial questions in such a matter, I must say that I would have been the last person to introduce it if Mr. Chaplin were present at Jalpaiguri as President of the Duars Planters' Association as we worked with him most amicably for a long time. Unfortunately Mr. Chaplin is an absentee member now, hence this question has arisen. We are all very grateful to Mr. Chaplin for his impartial attitude to us.

So far as the question of a pledge is concerned, I do not know what my Hon'ble friend Mr. Beatson Bell means by it. The reply the Hon'ble Member has read to us at least led us to believe that the scheme that was drawn up by Mr. Finnimore was adopted by Government. In that scheme and in the reply your Lordship will find that

Resolution : Adjournment.

[*Khan Bahadur Maulvi Musharaff Husain.*]

there is a reference to the Ramshahi-Gairkata road, but that has been omitted from the list. If that road had been looked after by the Public Works Department, there would have been no necessity to move a resolution here at all. When Mr. French sent a letter to this Government he himself admitted that the scheme that had been submitted subsequently by the Deputy Commissioner, Mr. Milligan, materially differed from the one that was originally made. This, my Lord, clearly shows that Mr. French also understood that there was a difference. The Hon'ble Mr. Beatson Bell made a reference to my speech at the last budget and said that I did not make any mention of these roads in my speech. I do not, however, find that there is anything contradictory in ideas. What Government are doing for the other roads in the Duars I have nothing to say. What I want to press for is that Government should consider our proposals as well. However, as my hon'ble friend Mr. Beatson Bell says that this proposal should come through the District Officer and the Divisional Commissioner, with your Excellency's permission I beg to withdraw my resolution."

The Resolution was then by leave of the President withdrawn.

ADJOURNMENT.

The Council was then adjourned to Monday, the 6th March, 1916, at 11 A.M

CHINA SEA—CHEFOO DISTRICT—GULF OF PECHILI.

Lungkow harbour—Establishment of Chimatao light, bar leading marks and spar buoys.

No. 344 (third publication).—The Coast Inspector, Shanghai, has given Notice (No. 603 of 1915) of the establishment of a light on Chimatao Promontory, which was exhibited for the first time at sunset on the 3rd November 1915.

The illuminating apparatus is Dioptric, of the Sixth Order, showing a group-occulting *white* light every 30 seconds, thus :—

Light	...	...	16	seconds.

The light-tower is situated near the western extremity of Chimatao Promontory, and the light, which is elevated 198 feet above the level of the sea, should be visible in clear weather at a distance of 10 miles. The tower is hexagonal, of brick, painted white, with a total height from base to lantern vane of 37 feet.

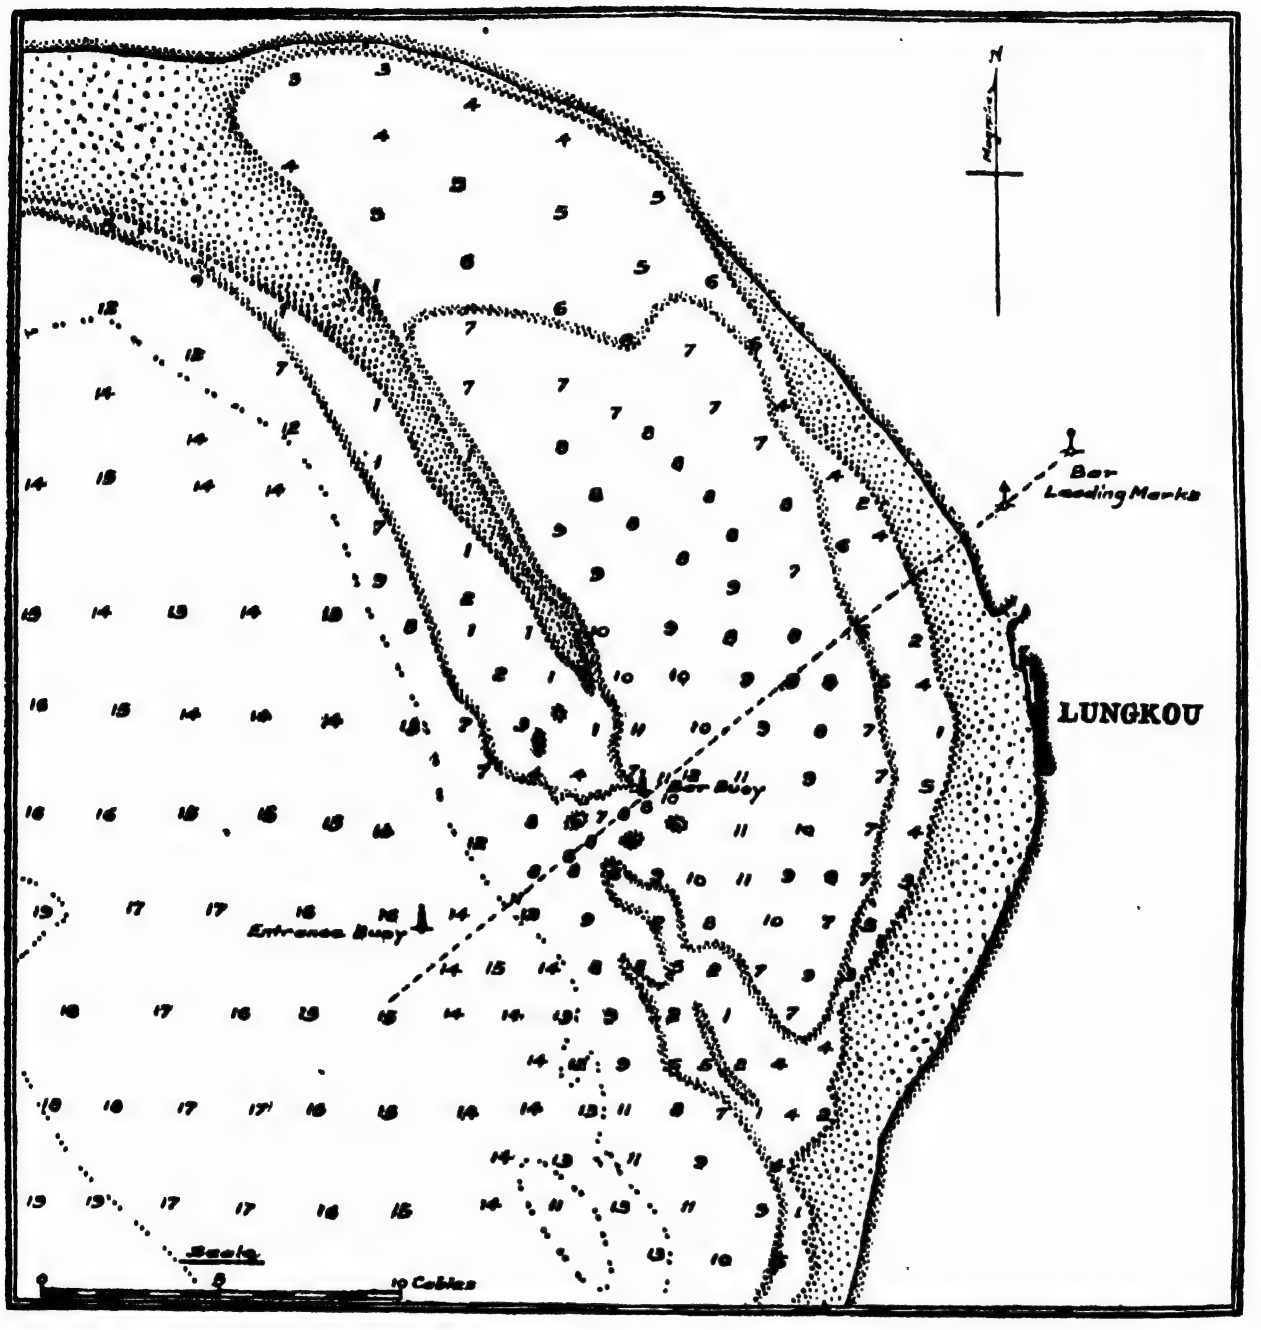
This newly established light replaces the previously existing unofficial light.

Notice is also given of the establishment of Leading Marks and Spar Buoys to mark the channel across the Bar as follows :—

Leading Marks, to be known as the Lungkow Bar Leading Marks, have been erected about ½ mile to the northward of the town of Lungkow. The front, or low mark, is a pole surmounted by a triangular shape. The rear, or high mark, which is 1,415 feet inshore from the front mark, is a pole surmounted by an inverted triangular shape. These Marks in line lead through the channel across the Bar, which has a least depth of 8 feet at low water of spring tides.

A *black* Spar Buoy, surmounted by a spherical day-mark, to be known as the Entrance Buoy, has been moored in 14 feet of water at low water of spring tides in the outer approach to the Bar. From the Buoy, Chimatao Lighthouse bears N. 42½° W., magnetic, distant 4·07 miles.

A *black* Spar Buoy, surmounted by a spherical day-mark, to be known as the Bar Buoy, has been moored in 8 feet of water at low water of spring tides on the northern side of the channel across the Bar. From the Buoy, Chimatao Lighthouse bears N. 52° W., magnetic, distant 4·28 miles.



CHINA SEA—TIENTSIN DISTRICT, GULF OF PECHILI.

Taku bar—Winter arrangements for aids to navigation.

No. 345 (third publication).—The Coast Inspector, Shanghai, has given Notice (No. 605 of 1915) that on or about the 1st December 1915 the following winter arrangements will be made for Aids to Navigation marking the Taku Bar and its approaches.

The advertised floating Aids to Navigation will, as usual, be removed, their positions being marked by *black* Spar Buoys.

The lighting of the River Mouth Leading Marks will be effected.

The power of the Taku Bar Outer Leading Lights will be increased.

The hulk *Tienching* marking the wreck *Guthrie* will be removed, its position being marked by a *black* Spar Buoy. A Pole Beacon surmounted by a spherical day-mark, and painted *black*, has been erected on the wreck. This Beacon will be unlighted.

NOTE.

Information concerning ice-breaking will be given in a future Notice.

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF MUNICIPALITIES IN THE BENGAL PRESIDENCY (EXCEPT CALCUTTA) DURING THE YEAR 1914-15.

MUNICIPAL DEPARTMENT.

MUNICIPAL.

CALCUTTA, THE 11TH JANUARY 1916.

RESOLUTION—No. 90M.

SANITARY improvement continues to be in the forefront of municipal activities. There were under discussion during the year 1914-15 a large number of schemes for the provision of water-supply and drainage, few, if any, of which would it be within the capacity of the municipality concerned to finance without assistance from Government by grant or loan. It has been

the policy of Government, with the help of the Imperial recurring sanitary grant freely to aid improvements of this nature which municipalities were willing to undertake in accordance with the advice of the sanitary authorities. The European war had, however, already in the year under review rendered it necessary to curtail the expenditure provided for on this object; and the Governor in Council fears that for the present the inception of further original works, the execution of which is dependent upon grants and loans from Government, will, except in cases of special urgency, have to be deferred. The appointment of qualified sanitary officers is, however, a reform in municipal administration which will be provided for primarily from the municipal funds, and is not likely to be retarded. The Municipal (Sanitary Officers) Act, 1914 (Bengal Act II of 1914) was not enforced during the year under review and consequently little progress is reported in the appointment of sanitary officers. The Act has now been brought into force in the majority of municipalities containing a population of over 10,000 and will shortly be extended to others of this size, while at the same time the number of qualified men available is increasing. The Governor in Council trusts that municipalities will of their own accord expedite this strengthening of their establishment by the appointment of certified sanitary officers—a measure of no less importance for the improvement of public health in congested towns than the construction of sanitary works.

1. *Number of municipalities and revision of boundaries.*—The number of the municipalities in the province remained unchanged, viz., 111. Proposals were submitted to Government for the modification of the boundaries of the Nadia and Madaripur Municipalities, and the question of dividing South Barrackpore and Serampore into two municipalities each and alterations in the boundaries of Rangpur and Darjeeling were under consideration. The boundaries of the Berhampore Municipality were revised, increasing its area.

2. *Elections.*—General elections were held during the year in 21 municipalities. The majority of these elections were well contested. Party feeling in excess led to instances of sharp practice in one municipality, and there was litigation in connection with the general elections at Barisal and Nator. While within reasonable degrees rival sympathies and canvassing are the essentials of a healthy elective system, the Governor in Council trusts that leaders of public opinion in the townships will be on their guard against those elements of faction which lead to the domination of personal interests over public spirit.

3. *Number of meetings and attendance of Commissioners.*—The total number of meetings held fell from 2,174 to 2,159, of which 151 as against 134 last year failed for want of a quorum. The municipalities of Maniktala, Panihati, North Barrackpore, Meherpur and Pabna failed to hold at least one meeting a month, and in the Rangpur Municipality 8 out of 16 meetings proved abortive. The average attendance of Commissioners exceeded 50 per cent. in 73 municipalities, including all in the Chittagong Division. Patuakhali with an average attendance of 79·1 per cent. attained the best results, while in the Rangpur Municipality a percentage of only 27·7 betrays a lamentable degree of civic apathy.

4. *Number of rate-payers.*—The increase in the number of rate-payers from 314,562 to 318,099 was shared by all divisions except Rajshahi. Discovery of an excess in the number of rate-payers shown for Darjeeling in last year's report accounts for a slight decrease in the figures of this division. The number of rate-payers in the Burdwan Municipality rose again by 1,440 with the construction of new huts in place of those washed away last year by the floods. The percentage of rate-payers to population for all municipalities averaged 16·08, ranging from 34·9 in Kalna to 3·6 in Titagarh.

5. *Assessment and taxation.*—In two wards of the South Dum-Dum Municipality a tax on persons was replaced by a tax on holdings. Otherwise the rates on holdings and persons were levied as before. Latrine-fees were levied in 93 municipalities, a water-rate in 19, and a lighting-rate in Darjeeling and in three municipalities adjoining Calcutta. The only change in respect of these rates was the introduction of a water-rate in Jessore and Hooghly-Chinsura. The average incidence of taxation per head of population

rose from Rs. 2-1-1 to Rs. 2-6-10. It varied from 5 annas 8 pies in Bajitpur to Rs. 8-10-1 in Darjeeling, the highest divisional average being Rs. 2-10-5 in the Burdwan Division, and the lowest Rs. 1-13-7 in the Presidency Division.

6. *Revision of assessment.*—General or partial revision of assessment took place in 41 municipalities, resulting in increase of demand with a few inconsiderable exceptions. In addition to this 25 municipalities increased their demand by new assessments mostly to a small extent. Thirty municipalities report a nett reduction of revenue due to remissions on appeal or on account of poverty and for other reasons not always explained. Revision of assessment has not led to instances of increase on the same scale as some quoted last year, the municipalities concerned being smaller. The largest increases are :—

	Rs.
Kurseong	9,415
Chandpur	6,986
South Dum-Dum	6,706
Berhampore	6,467
Dinajpur	6,214

On the other hand, there is noticeable a tendency to undo the improvement effected on revision by excessive leniency in the disposal of appeals. The Cossipore-Chitpur Municipality have reduced the increase secured last year by over Rs. 7,000 largely through reduction on appeals. The Midnapore Municipality have reduced an increase of Rs. 12,827 reported last year by over Rs. 4,000. The Burdwan Municipality, with one-fourth of the appeals still unheard at the end of the year, were reported to have whittled away the increase from revision by wholesale reductions. The results of a reassessment in Chittagong, which concluded in November 1914 with an increase of close on Rs. 20,000 from house-tax alone, could not be counted on at the end of the year, pending further revision of the assessment by the Commissioners and proposals for reduction of the rate of the latrine-tax. Imposition of a water-rate for the first time brought in a sum of Rs. 17,059 in Hooghly-Chinsura and Rs. 10,220 in Jessore. Assessment of new and improved holdings caused an increase of over Rs. 2,000 in Maniktala and Titagarh, and approximately Rs. 1,500 in Jalpaiguri.

7. *Collections.*—The total collections rose from Rs. 39,83,558 to Rs. 42,20,568. To this increase the Presidency Division contributed, in round figures, Rs. 1,20,000 and the Burdwan Division Rs. 70,000, while all divisions of Eastern Bengal shared in the balance. The percentage of total collections on current demand rose from 94·15 to 96·03. The highest divisional percentage is that of the Presidency Division, which rose from 91·4 to 97·8. There is still mention of unrealized dues from the Calcutta Corporation in Cossipore-Chitpur and from the railways in Krishnagar. The divisional percentage for Rajshahi decreased by 3·4 per cent., despite an increase of over Rs. 15,000 in the actual collections, largely on account of decreased collections in Rampur-Boalia, Nawabganj and Old Malda. Prolonged audit is said to have hampered collections in Rampur-Boalia and Pabna. Eighteen municipalities in all succeeded in making collections equal to or in excess of the demand—an accomplishment depreciated in some cases by the excessive percentage of remission with which it was accompanied. Sixteen municipalities in the Burdwan, Presidency and Dacca Divisions had outstanding balances of less than Rs. 100, including six with no balance, remission in all cases being kept down to a minimum. Among these the small municipalities of Nalchiti and Garulia show neither opening arrears, outstanding balance, nor remissions.

The total remissions fell from Rs. 1,58,861 to Rs. 1,56,742, and their percentage on current demand from 3·7 to 3·5. Seven municipalities in the Presidency and Burdwan Divisions remitted over 10 per cent. on current demand, notably Bankura with a percentage of 17·7 on a demand of Rs. 20,177, and Taki (mentioned last year for high percentage of remission) with a percentage of 14·8 on a demand of Rs. 3,600.

The outstanding balances rose from Rs. 3,16,741 to Rs. 3,35,821, notwithstanding a decrease of Rs. 22,799 in the Presidency Division. Twenty-two municipalities had outstanding balances of over Rs. 5,000 as against 14 last year. An abnormal balance in the Burdwan Municipality of over Rs. 35,000 is inadequately explained by delay in disposing of appeals against the general revision of assessment. The depression in the jute trade and local failures of crops were unfavourable circumstances of the year. The prevailing obstacle to fuller collections appears, however, to be the disinclination of the municipal executive to brave the unpopularity which coercive measures involve. The Governor in Council cannot too emphatically remind municipal Chairmen and Vice-Chairmen of the injustice done to the punctual rate-payer and the poorer classes of citizens by unwarranted indulgence to defaulters, and the need year by year for prompt demand and insistent pressure in the realization of municipal dues.

8. *Income and expenditure.*—The total receipts of the municipalities, including opening balances, rose from Rs. 88,64,602 to Rs. 93,64,836. Of this increase, however, only Rs. 54,539 was under heads of actual income. There was an increase of Rs. 3,07,260 in loans from Government, Rs. 1,18,259 in sale of Government securities and withdrawals from Savings Bank, and Rs. 67,829 in opening balance. There was an increase of Rs. 2,24,314 in receipts from rates and taxes, and a decrease of Rs. 1,66,852 in grants and contributions.

The total expenditure rose from Rs. 69,58,164 to Rs. 72,18,133. There was an increase of Rs. 2,55,699 under the head "Extraordinary and Debt" due chiefly to investments in Savings Banks. The total expenditure under all other heads hardly varied from that of last year, a decrease of approximately Rs. 1·35 lakh under "Public Health and Convenience" being set off against an increase of nearly a lakh under the head "Miscellaneous" and other slight increases. In round figures Rs 5 lakhs less was spent this year than last in capital outlay for water-supply and Rs. 6 lakhs more in capital outlay for drainage.

9. *Closing balance.*—The closing balance rose from Rs. 19,06,438 to Rs. 21,46,708. The largest balances were held by Howrah (Rs. 4,50,516) Chittagong (Rs. 2,09,740), Darjeeling (Rs. 1,30,553), Naraingan; (Rs. 1,11,259), Dacca (Rs. 1,08,816), and Cossipore-Chitpur (Rs. 1,00,147). These large balances are mainly due to unexpended balances of grants and accumulated funds for water-supply and drainage schemes. The Commissioner of the Presidency Division remarks on a tendency in the municipalities of the 24-Parganas to incur expenditure in excess of budget allotments without the previous sanction of the Commissioner resulting in inadequate working balances.

10. *Income (Rs. 93,64,836).*—The total income of the year, excluding that under the heads "Opening Balance" and "Extraordinary and Debt," increased from Rs. 55,73,291 to Rs. 56,27,830. Details of the main items of revenue are given below.

11. *Tax on houses and lands (Rs. 15,87,351).*—There was an increase under this head of Rs. 90,570, of which the Presidency Division contributed Rs. 52,622. The largest increases occurred in Cossipore-Chitpur (Rs. 32,995), Baránagar (Rs. 11,315), and Dacca (Rs. 9,221).

12. *Tax on animals and vehicles (Rs. 2,17,002).*—Receipts under this head decreased by Rs. 2,321, an increase of Rs. 7,206 in the Burdwan Division being set off against decreases of Rs. 6,727 in the Rajshahi Division, which last year reported the largest divisional increase, and of Rs. 4,131 in the municipalities of the 24-Parganas and the Nadia district, with slight variations elsewhere. This decrease is ascribed to the failure of cart traffic consequent on the dullness in the jute trade.

13. *Tax on professions and trades (Rs. 81,815).*—There was an increase under this head of Rs. 6,174. The most noticeable features of the receipts were an increase of Rs. 5,150 in Howrah and of Rs. 2,722 in the municipalities of the 24-Parganas, slight depression in the other districts of the Presidency Division and continued decline in the Chittagong Municipality. The Rangpur Municipality were unable to realize more than Rs. 277 in

license-fees from jute merchants, as against collections of Rs. 2,152 in the previous year, pending orders of the Divisional Commissioner on a representation of the merchants for reduction of the rate of fee imposed by the municipality.

14. *Tolls on roads and ferries* (*Rs. 86,845*).—A decrease in receipts under this head of Rs. 192 in all is the result of an increase in the Presidency and Burdwan Divisions and a decrease in all the divisions of Eastern Bengal of approximately Rs. 5,000 in each. The variations arise chiefly from ferries and are due to local causes, such as increased competition, arrears and failure of floods.

15. *Water-rate* (*Rs. 6,67,558*).—The rate was levied for the first time in the municipalities of Jessore and Hooghly-Chinsura, which contributed respectively Rs. 7,428 and Rs. 13,781 to the total increase of Rs. 65,426. Increases of Rs. 13,737 in Serampore and of Rs. 3,437 in Chandpur were due to the fact that collections were made only from the latter part of the previous year. Better collections resulted in an increase of Rs. 15,302 in Cossipore-Chitpur, Rs. 5,989 in Dacca, and Rs. 2,044 in Mymensingh, and revision of assessment in an increase of Rs. 4,065 in Berhampore and Rs. 2,600 in Kurseong. Receipts in Narainganj again declined. An apparent decrease of over Rs. 5,000 in Darjeeling is due to inclusion last year of sale-proceeds of old materials.

16. *Lighting-rate* (*Rs. 1,96,404*).—Of the four municipalities in which this rate is levied Cossipore-Chitpur contributed Rs. 11,373 out of a total increase of Rs. 12,085 as the result of better collections. There was a petty decrease in Maniktala.

17. *Conservancy* (*Rs. 10,70,191*).—The increase under this head amounting to Rs. 59,312 was shared by all divisions. Proceeds from the sale of nightsoil fell from Rs. 4,298 to Rs. 2,643. The practice of letting out trenching grounds for cultivation appears to be on the increase, and the Serampore Municipality made a few rupees by trenching nightsoil on private grounds.

18. *Tax on persons according to circumstances and property* (*Rs. 3,93,209*).—A decrease of Rs. 7,557 is largely accounted for by the abolition of this tax in two wards of the South Dum-Dum Municipality.

19. *Realization under Special Acts* (*Rs. 1,11,611*).—The Presidency Division contributed Rs. 1,391 out of a total increase in receipts under this head of Rs. 2,119. Fees under the Hackney Carriage Act were imposed for the first time in Kishoreganj and Pabna. The Chandpur Municipality failed to derive any income this year from jute-warehouse fees.

20. *Revenue derived from municipal property and powers apart from taxation* (*Rs. 4,72,250*).—The increase of Rs. 3,079 is the outcome of an increase generally under the heads of "Rents, Fees and Fines" and "Other Fees" counterbalanced by a decrease of slightly over Rs. 15,000 in the receipt from investments for general purposes.

21. *Grants and contributions* (*Rs. 6,38,438*).—There was a decrease under this head of Rs. 1,66,852.

The following were the larger grants made by Government :—

Rupees 50,000 to Hooghly-Chinsura and Rs. 44,815 to Uttarpara for water-supply.

Rupees 1,00,000 to Narainganj and Rs. 40,000 to Berhampore for extension and improvement of water-supply.

Rupees 10,433 to North Dum-Dum and Rs. 7,246 to Panihati in connection with the Bagjola Drainage Scheme.

Rupees 20,000 to Chittagong for the combined post of Secretary and Engineer.

Rupees 18,060 in all to Midnapore for water-supply (Rs. 5,000) and educational purposes (Rs. 13,060).

Rupees 15,000 to Burdwan to recoup the losses sustained from flood.

Rupees 11,771 to Darjeeling for medical purposes.

The following instances of private liberality deserve special mention.

The municipalities of Raniganj and Burdwan received grants of Rs. 3,500 and Rs. 3,000, respectively, from the Maharajadhiraja Bahadur of Burdwan, the former in aid of a water-supply scheme and the latter for the improvement of a charitable dispensary.

Babu Ram Chandra Guha and Babu Surja Kanta Chaudhuri made a grant of Rs. 4,780 to the Basirhat Municipality for the diversion of a road and for a tank. The Moslem community at Garden Reach contributed Rs. 1,268 to the local municipal fund for a Muhammadan burial ground. The Hon'ble Babu Upendra Lal Ray contributed Rs. 1,000 to the Chittagong Municipality for the construction of a road.

Contributions were also made to municipalities from various local funds, the largest being a grant of Rs. 13,000 made to the Nator Municipality from the Edward Memorial Fund for the purposes of water-supply. The municipalities of Jessore and Chandpur received contributions of Rs. 9 100 and Rs. 10,000, respectively, from the District Boards towards water-supply with the approval of the Governor in Council.

22. *Office establishment and collection charges* (*Rs. 4,11,238*).—Notwithstanding an increase of Rs. 15,114 in expenditure under this head, the percentage of this expenditure as to total expenditure decreased from 8·2 to 7·9 for the province, ranging in individual cases from 4·2 in Khulna and 4 7 in Hooghly-Chinsura, Dacca, Chandpur and Jessore to 22·1 in Comilla, 25·2 in Debhatta, and 26·2 in Nalchiti. High percentage of the expenditure on establishment is a constant and unavoidable feature of small municipalities such as the last two, the total ordinary expenditure of which was less than Rs. 2,500 each, while in Comilla the increase of 13·9 was largely due to survey charges.

23. *Prevention of fire* (*Rs. 78,304*).—Of the increase of Rs. 1,842 under this head approximately half is due to increased expenditure on appliances in Darjeeling. The bulk of the expenditure consists in contributions from municipalities adjoining Calcutta to the Calcutta Fire Brigade.

24. *Lighting* (*Rs. 3,34,567*).—Expenditure under this head rose by Rs. 5,782, the chief features being a decrease of Rs. 5,600 in the Presidency and Burdwan Divisions, and an increase of Rs. 6,154 in the Rajshahi Division. This was due principally to an extra cost of Rs. 3,916 incurred by Darjeeling in connection with the new hydro-electric scheme, and of Rs. 1,023 by Kurseong on account of 16 petrol lamps. In Dacca electric lighting was extended to certain important streets with the help of a grant of Rs. 6,000 made by the trustees of the Electric Light Fund. The municipalities of South Barrackpore, Panihati and North Barrackpore in the 24-Parganas, and Birnagar in the Nadia district, spent nothing on lighting.

25. *Water-supply* (*Rs. 7,85,149*).—The expenditure on water-supply decreased by Rs. 4,80,142, this being the result of a decrease of over Rs. 5 lakhs in capital outlay, while the cost of maintenance increased by approximately Rs. 33,000. The only large original scheme to be completed during the year was that for the supply of filtered water in Hooghly-Chinsura. Two new filters were completed in Serampore, and the Kamarhati Municipality made temporary arrangements for the supply of filtered water from the hydrants of the Cossipore-Chitpur Municipality. The Baranagar Jute Mills erected a filter for supplying filtered water to mill bustees. The existing water-supplies in the larger municipalities of the interior worked well, with the exception of that at Barisal, where the municipality is reported to have made no provision for dealing with the difficulty caused by the river water becoming brackish in February, with the result that the water was rendered useless for drinking purposes for several months. Fair progress was made during the year with the water-supply scheme in Bankura. The improvement of the water-works in Burdwan has had to be postponed for want of funds. Two new distribution lines were opened by the Kurseong Municipality and a new pump was purchased at Patuakhali. Tanks and wells were provided as before in the smaller municipalities.

The scheme for the extension of the Narayanganj water-supply to the municipal area on the east side of the river Lakhya at a cost of Rs. 1,70,000 received the final sanction of Government, and a grant of one lakh was paid to the municipality. A loan of the balance has been sanctioned, and at the end of the year work was about to be taken up after settlement of preliminaries. Final sanction was also accorded to the scheme for the completion of the Barisal water-works at a cost of Rs. 20,000, and work was taken up under the supervision of the District Engineer. A detailed scheme for the water-supply of the Satkhira Municipality was submitted to Government. Administrative approval was accorded to schemes for the improvement of the water-supply of the Dacca Municipality and of Berhampore, construction of a water-supply for the northern part of Chandpur and for the English Bazar Municipality, and for an independent water-supply at Uttarpara. The detailed project of the Dacca scheme was placed before the municipality during the year. The provision of a water-supply at Ranaghat, Asansol, Raniganj, Suri, Faridpur, Madaripur, Nator and Krishnagar was also under consideration of the municipalities concerned or of Government in various stages, preliminary to administrative approval.

The question of the control of the catchment area in connection with the water-supply of Kurseong, with a view to preserve the sources of supply from pollution is still under the consideration of Government.

26. *Drainage* (*Rs. 6,86,750*).—There was an increase of Rs. 3,18,102 under this head, of which Rs. 3,08,050 was due to capital outlay. This was the result of an increase of over three lakhs in the Howrah Municipality and slight decreases in all other divisions than Burdwan. The expenditure in Howrah was incurred in connection with the Central Drainage Scheme. Apart from this the largest capital expenditure was incurred by the Burdwan Municipality (Rs. 33,493). The drainage scheme of the Ranaghat Municipality was completed during the year, and there remain only two sluice-gates to be provided for the completion of that of the Kushtia Municipality. Progress was made with the construction of drainage works at Katwa and in the most congested part of the Bhadreswar Municipality under the supervision of a resident engineer. The greater part of the sanctioned scheme for surface drainage in Kurseong was executed during the year. The North Dum-Dum and Panihati Municipalities constructed subsidiary drains in connection with the Bagjola Drainage Scheme. There was little capital expenditure on drainage apart from that incurred in connection with the various schemes sanctioned on the advice of the Sanitary Engineer. No further original scheme of importance appears to have received the sanction of Government during the year under review. The Baruipur Municipality received a grant of Rs 4,950 for removing defects of drainage, which they were unable to use, and a scheme for Garden Reach has been subsequently sanctioned. Drainage schemes were under consideration of the Municipal Commissioners during the year at Asansol, Muktagacha, Jalpaiguri, Faridpur and Comilla, and a scheme for the Suri Municipality was submitted to the Sanitary Board. Government were unable to accord administrative approval either to the drainage or water-supply schemes for the Mymensingh town owing to the unsatisfactory financial position of the municipality, a state of affairs which, it is hoped, the newly constituted Municipal Board may be able to remedy. A combined drainage and water-works scheme for Krishnagar was submitted to Government. Since the close of the year under review it has been decided to postpone execution of the sewerage scheme for Cossipore-Chitpur for financial reasons. Preliminary surveys were conducted by the Sanitary Engineer in Dacca, Bogra and Malda. A combined surface and sewerage scheme for the town of Serampore, at an estimated cost of Rs. 3 lakhs, prepared by the Sanitary Engineer has not been submitted owing to the partition of the municipality, and drainage schemes for the Nadia and Santipur Municipalities have been held in abeyance for want of funds.

27. *Conservancy* (*Rs. 15,18,266*).—There was an increase in expenditure of Rs. 73,135 under this head. In the Presidency Division 18 municipalities spent a sum of Rs. 21,115 for the entertainment of Health Officers and Sanitary Inspectors. The municipalities of Cossipore-Chitpur,

Maniktala, Garden Reach and Baranagar, all of which entertained Health Officers, maintained a high standard of efficiency in this branch of the administration. The Titagarh Municipality also managed the work creditably under the supervision of the Vice-Chairman. It was not till after the end of the year under review that the appointment of the Sanitary Inspectors has been made obligatory by extension of the Sanitary Officers Act to municipalities with an income of not less than Rs. 10,000 in the Burdwan, Rajshahi and Chittagong Divisions. At the end of the year under review the municipalities of Baidyabati and Chandpur had engaged Sanitary Inspectors, and an allowance was paid by the Brahmanbaria Municipality to the Overseer (who holds the certificate of Sanitary Inspector) for the preformance of sanitary duties.

28. *Hospitals and dispensaries and plague charges* (*Rs. 3,53 594*).—A decrease of Rs. 22,223 on the total for last year was entirely due to a decrease in plague charges, largely nominal on account of a change in classification, while expenditure on hospitals and dispensaries showed a trivial increase. New wards were added to the hospital at Bankura, and a new dispensary and hospital buildings were constructed at Ghatal. In the Presidency Division a female ward was erected in Budge-Budge and phthisical wards in Krishnagar and Jessore. An isolation ward for cholera and small-pox cases was built by the Mymensingh Municipality. The Barisal Charitable Dispensary and Hospital was placed under a joint committee appointed by the municipality and the District Board. Contributions for new medical institutions were made by the municipalities of Mymensingh and Madaripur. The municipalities of Rangpur and Patna are reported to have been unable wholly or in part to make contributions to local dispensaries through want of funds, and the failure of the Bogra Municipality to increase their contribution to the Bogra Dispensary in an unhealthy year is the subject of unfavourable comment. The actual expenditure on plague charges was slight and devoted to preventive measures. No municipality suffered from an epidemic of plague, but several found it necessary to take steps to prevent the spread of local outbreaks of small-pox and cholera.

29. *Public works* (*Rs. 8,29,839*).—Expenditure under this head decreased by Rs. 29,977 in all.

There was a decrease of Rs. 8,626 in expenditure on roads, and of Rs. 25,076 on account of buildings, and a slight increase under the sub-heads "Establishment" and "Stores."

The chief features were larger expenditure on roads in the Presidency Division (notwithstanding a heavy decrease in the 24-Parganas) and in the Rajshahi Division; an increase on account of buildings in the Presidency Division; and an abnormal decrease on this account in the Rajshahi Division, due to an unexplained decrease of Rs. 47,342 in Darjeeling. The percentage of outlay on public works to total expenditure ranged from 2·1 in Kurseong, where the municipal roads are maintained by the Public Works Department, and 7·3 in Kishoreganj to 52·5 in Kandi. Twenty-three municipalities incurred more than a quarter of their total expenditure on account of public works.

30. *Public instruction* (*Rs. 1,83,575*).—There was an increase of Rs. 25,178 under this head, of which the Dacca Municipality alone contributed Rs. 20,734. This is due to the construction of five buildings for girls' schools in that town with the aid of a Government grant of Rs. 18,270. The Dacca Municipality spent the largest proportion of its ordinary income on primary education, viz., 13·3 per cent., followed by Nator (12·9 per cent.), and Cox's Bazar (10·1 per cent.). Only 23 municipalities spent over 5 per cent. of their income on primary education.

31. *Loans.*—Forty-two municipalities were in debt at the end of the year, and the total amount of their indebtedness, after deducting Rs. 7,751, the amount of the sinking fund investments of the Burdwan Municipality, was Rs. 45,97,266. The largest outstanding liabilities were those of Howrah (Rs. 24,70,938), Darjeeling (Rs. 8,02,785), Dacca (Rs. 2,90,069), Hooghly-Chinsura (Rs. 1,88,288) and Narainganj (Rs. 1,32,721). Six municipalities took loans during the year, viz., Howrah (Rs. 4,34,000 for the drainage scheme),

Hooghly-Chinsura (Rs. 63,000 for water-supply), Chittagong (Rs. 50,000 for water-supply), Jessore (Rs. 15,000 for water-supply), Bankura (Rs. 10,000 for water-supply), and Tangail (Rs. 10,000 for drainage). The South Barrackpore and Krishnagar Municipalities paid off their liabilities.

32. On the 31st March 1915, 82 municipalities had outstanding liabilities on current bills amounting to Rs. 2,66,076, which represented 7·2 per cent. of their current demand. In 12 municipalities the outstanding liabilities exceeded the closing balance. This excess was reduced in the case of Hooghly-Chinsura from over Rs. 70,000 to Rs. 12,831. The position of Rangpur with an excess of Rs. 2,471 and Pabna (Rs. 2,470) was unsatisfactory. The latter municipality was the subject of a special enquiry and report during the year under review.

33. *Audit of accounts and embezzlement.*—Embezzlements came to light during the year in the municipalities of Bhadreswar, Burdwan, Rampur-Boalia and Pabna. The most serious case was in Bhadreswar, where Rs. 2,455 was embezzled by the municipal head-clerk, who has since absconded. Criminal proceedings were pending at the end of the year in respect of Rs. 262 alleged to have been embezzled by the priest of the burning ghat in Burdwan. In the two other municipalities the sums embezzled were recovered and the offenders dismissed. No embezzlement was reported from the Dacca or Chittagong Division. A petty misappropriation has been under enquiry in Nadia. The Governor in Council would impress on all Chairmen and Vice-Chairmen of municipalities the need for insisting on meticulous accuracy of procedure in all matters of account.

34. *Freedom of budget.*—Four municipalities are allowed a free hand in the preparation of their budget. Among these the finances of Burdwan are unsatisfactory, and Cossipore-Chitpur showed a tendency to avoid provision for an adequate working balance, but Howrah and Maniktala made sound use of the privilege.

35. *Howrah.*—The current demand on account of taxes rose from Rs. 9,53,203 to Rs. 9,79,935. The total demand amounted to Rs. 10,21,838, of which Rs. 9,35,380 or 91·5 per cent. was collected. The total ordinary income of the municipality fell from Rs. 11,49,445 to Rs. 10,49,825, and ordinary expenditure from Rs. 15,74,216 to Rs. 13,68,749. The outstanding debt was Rs. 24,70,938. Expenditure on water-supply fell from Rs. 7½ lakhs to Rs. 1,93,505. Substantial progress has been made, but failure on account of the war to obtain from Government loans required hampers the further carrying out of the water-works improvement scheme. The water-supply is excellent in quality, but deficient in quantity, distribution being uneven. Over four lakhs further expenditure is required to bring the supply up to 5,000,000 gallons, which is the object of the improvement scheme. Two new filters for the supply of water to the Serampore Municipality were completed. Possession has now been taken of all the land required in connection with the construction of the Central Drainage Canal for which a grant of one lakh and loan of 5½ lakhs have been received from Government. The preparation of pucca drainage schemes discharging into this canal has been completed. The estimates for these works amount to over Rs. 12 lakhs.

The survey of the town has made good progress. Proposals for introducing the necessary sections of the Calcutta Municipal Act to cope with insanitary bustees are still under consideration of the Commissioners.

36. Divisional Commissioners and District Magistrates review the municipal administration of the year with tempered enthusiasm. While there is evinced a great deal of disinterested effort for municipal welfare, hesitation in enforcing equable assessment and full realization of taxes, and laxity of control by those in office, due sometimes to the embarrassment of local faction, have often impaired the efficiency of municipal management. The reports of the Burdwan Division show much continuity in the character of the municipalities. The business-like methods of Sonamukhi, the quiet progress of Tamluk and Arambagh, the comparative cleanliness of Birbhum call for praise, while the factions of Uttarpara and Chandrakona, the feeble administration of Bansberia, and the financial embarrassments of Burdwan call for energetic measures to remedy. The Magistrate of Burdwan considers that none of the municipalities in that district can point to any striking achievement, but a good deal of activity is reported in enquiries and proposals for sanitary improvements. The Magistrate of Hooghly finds no noticeable improvement in the methods of collection, the

real objection to the issue of warrants being the unpopularity incurred by the Chairman or Vice-Chairman who makes use of his powers of compulsion. Notwithstanding the carelessness discovered in audit of the accounts of Bhadreswar, he believes that the executive have done their best to cope with a volume of work beyond the capacity of one municipality.

The Magistrate of Howrah, while commending the appointment by the Bally Municipality of a paid Assessor for revision of assessment, has found "too much discrimination in the issue of warrants, laying the administration open to a charge of partiality." He again speaks well of the Liloah Ward Committee, with the suggestion that it might become a separate municipality.

The Commissioner of the Presidency Division writes :— 'The reports indicate the progress of towns and the stagnant decay of country municipalities. The latter are content to carry on the normal standard of municipal services required by the rate-payers, viz., the periodical removal of domestic refuse, the maintenance of roads, and a dispensary and municipal office. But in the more urban areas a proper conception of municipal government is being slowly evolved out of the present state of affairs, which, when municipalities were constituted, was little better than chaos." Of the municipalities in this division Cossipore-Chitpur and Garden Reach in the 24-Parganas have shown enterprise and good management, while party feeling is reported to have brought the administration of Maniktala practically to a standstill. Absence of opposition begins to render progress possible in the busy trading centre of Kotchandpur, and the administration of the Debhatta Municipality in Khulna improves. The Jessore Municipality has found its new water-works not altogether a success and suffers from a want of funds due to inadequate self-taxation.

The Commissioner of the Dacca Division remarks on the growing demand for a pure water-supply with which the larger municipalities are now fairly well supplied, whereas the subject of drainage is only just beginning to attract attention and notices usually a lack of interest in hospitals, which are too often housed in miserable buildings with little or no accommodation for in-patients. The Magistrate of Mymensingh considers that, as an educative influence in local self-government, the municipal administration of the district may be said to show some promise, though judged by administrative standards progress is slow. The management of municipalities in the Bakarganj district is well spoken of, with the exception of Barisal.

There is little mentioned to distinguish the municipalities of the Chittagong Division for better or worse during the year under review. Progress with the scheme for water-supply in Chittagong has been hampered by the war. Erosion on the south of Noakhali deters the Commissioners from undertaking permanent works.

The Commissioner of the Rajshahi Division reports that with the exception of Darjeeling, Jalpaiguri and Dinajpur, municipalities at district headquarters compare unfavourably with those in the interior. Darjeeling and Kurseong have fully maintained their reputation for efficiency. The affairs of the Pabna Municipality which were in a precarious state last year are now in other hands, with what result it is too early to say. The Nator Municipality goes sensibly about its work, and Sherpur did well. Rampur-Boalia is noticeable for defective finances, laxity of executive supervision, and dishonesty among the collecting staff, while Sirajganj suffered from the retirement of Marwari merchants on the collapse of the jute trade.

The thanks of the Governor in Council are conveyed to the following gentlemen, whose services are reported to have been of special value to the municipalities in which they held office :—

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR DECEMBER 1915.

I. *Character of the season*.—No rain fell in the province during the month excepting light showers in the districts of the 24-Parganas, Jalpaiguri and Darjeeling. The fall for the province as a whole was much in defect of the normal. The usual rainfall statement is appended.

II. *Progress of agricultural operations*.—The rabi sowings were nearly completed. The harvesting of the winter rice crop was proceeding briskly throughout the month.

III. *State of standing crops*.—The condition of the standing winter rice crop was fairly satisfactory excepting in the district of Bankura and in the low-lying tracts of the Dacca district, where the condition of the crop was less favourable. The state of the *rabi* crops was so far reported to be favourable.

IV. *Prospects and probable outturn*.—A fairly good outturn of the winter rice crop was anticipated. The general outlook of the *rabi* crops was good.

V. *Damage to standing crops*.—No damage to standing crops was reported during the month.

VI. *Condition of agricultural stock*.—The condition of agricultural stock was fairly good. The number of districts in which cattle-disease was reported to be prevalent varied from two to six.

VII. *Failure of pasturage and fodder*.—There was no scarcity of fodder anywhere.

VIII. *Price of food-grains*.—During the second fortnight of the month under review the price of common rice rose in one district only, fell in eleven and remained stationary in the rest. It varied from 6 seers and 4 chitaks a rupee at Hooghly to 10 seers a rupee at Chittagong.

IX. *Condition of agricultural people*.—Some amount of distress prevailed among the agricultural classes in the Bankura district and in parts of the Tippera district owing to the crop failure of last year and this year. Agricultural loans and gratuitous relief were given to the people belonging to affected areas. District Board test-works were also open to give employment to the labouring classes.

* New gauge fixed at Rajmahal from 1st June 1913 in place of the gauge at Sahebganj. The zero of gauge at Rajmahal is 56·46 feet above M. S.-L. up to 26th October 1915 and 60·00 feet above M. S.-L. from 27th October 1915.

† To compare the reduced levels shown in these monthly printed statements before and after the 1st June 1903, 5·78 feet should be deducted from the former or added to the latter (*vide* Bengal Government letter No. 1083T.—I., dated the 19th October 1909).

(a) A temporary gauge has been fixed and the readings below zero are being observed from the 7th March 1913.

(b) From the 13th November 1915 the zero of gauge is 2·43 *ft.* above M. S.-L. Previous to that the zero was at mean sea-level dating back to 15th July 1897. In the highest reading as given in the monthly statements up to and including October 1915 the zero of gauge has been taken as 4·30.

NOTICE.

DEPARTMENT OF MINES IN INDIA, DHANBAD POST OFFICE, MANBHUM.

Indian Mines Act, 1901.

AN examination for First and Second Class Coal Mine Managers Certificates of Competency under the rules applicable to coal mines will be held at the Railway Institute, Dhanbad, on the 23rd, 24th and 25th February 1916.

Rules 32 and 33 of the Indian Mines Act, 1901, require that a candidate for a first class certificate must be at least 23 years of age, and have had at least five years' practical experience in a coal mine, and for a second class certificate be at least 21 years of age, and have at least three years' practical experience in a coal mine. The periods of practical experience may be reduced to three years and one year, respectively, in the case of a candidate who has received a diploma in scientific and mining subjects, after a course of study of at least two years at an educational institution approved in this behalf by the Governor-General in Council, or who has taken a degree in scientific and mining subjects at a University approved in this behalf by the Governor-General in Council.

The fees are Rs. 15 in the case of first class certificates and Rs. 8 in the case of second class certificates. By rule 34 of Government of India (Department of Commerce and Industry) Notification No. 2968—82, dated the 21st April 1906, " these fees shall be paid not less than one month prior to the date of the examination to the Chief Inspector of Mines at his office." The fees may be remitted by money-order or paid in any other manner.

Applications and fees should be addressed to the Chief Inspector of Mines in India, Dhanbad, East Indian Railway, and not to any officer by name. No candidate will be permitted to sit at the examination unless his application is received on or before the 3rd February 1916.

G. F. ADAMS,
Chief Inspector of Mines in India.

CALCUTTA,
OFFICE OF THE ACCTT.-GENL., BENGAL,
The 13th January 1916.

H. G. TOMKINS,
Accountant-General, Bengal.

NOTIFICATIONS.

Copy of a letter No. 520F., dated the 25th January 1916, to the Accountant-General, Bengal.

IN continuation of Government Order No. 7069F., dated the 15th December 1915, I am directed to convey the sanction of Government to the grant of grain compensation allowance of Re. 1 a month to all whole-time servants under this Government on the Civil establishment, drawing Rs. 12 or less per month, who were employed in the districts of Bengal, except the Chittagong Hill Tracts, in which cheapest common rice was dearer than 10 seers per rupee during the month of December 1915. These orders will have effect for the month of December 1915.

No. 137 S.R.

NOTICE is hereby given that the second Sale of Opium, the provision of 1913-14, will be held at the Government Opium Sale Room, No. 2, Charnock Place, on Wednesday, the 2nd February 1916, at 11 A.M., and will comprise 820 chests of uncertified opium manufactured at the Ghazipur Factory.

2nd.—The general conditions of the sale now advertised will be the same as were published in the notification dated the 29th November 1915, and published in the Government and *Exchange Gazettes*.

3rd.—The latest dates for deposit and clearance will be the 7th and 17th February 1916, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes or other Public Securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale Room will be received after 3-30 P.M. of Monday, the 7th February 1916, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Thursday, the 17th February 1916.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Ghazipur Factory will be brought to sale between the sale now advertised and December next on or about the dates specified below. The Government of Bengal, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so :—

IRRIGATION DEPARTMENT.

The 4th January 1916.

No. 1 Notification.—The following draft of (*1*) revised rules and (*2*) revised schedule of rates of tolls, which the Governor in Council intends to make and fix, in exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), and in supersession of Notification No. 2, dated the 31st March 1914, for the navigable channels of the Magra Hât Drainage scheme, as defined in Notification No. 4, dated the 22nd April 1913 (published at page 634, Part I, of the *Calcutta Gazette* of the 23rd *idem*), is published as required by section 12 of that Act for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 16th February 1916, and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

DRAFT RULES.

1. Every vessel entering or making use of the Magra Hât channels shall be liable to measurement for the purpose of ascertaining the tolls payable. In case of any reasonable doubt, the persons appointed by the Governor in Council as Collectors of Tolls or Navigation Canal Officers shall have authority to again measure a vessel notwithstanding that it was measured before.

2. Vessels for the purpose of determination of maundage shall be divided into three classes as follows :—

Class I—To include all vessels of the usual native types of build known as saltees, but not *bonâ fide* Tal (or palm tree) dongas *provided they are not used for carrying cargo.*

Class II—To include all other vessels of usual native types of build or cutters *including bholios and jolly boats.*

Class III—To include all steamers,* flats, barges, and other square-built boats.

The net maundage of every vessel, whether laden or empty, shall, for the purposes of the Canals Act, 1864, and of these rules, be determined by the following measurements :—

CLASS I.

A.—The product of one-quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel multiplied by three-quarters of the depth, measured from the top of the vessel amidships to the interior bottom of the vessel is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length to be made in feet, rejecting inches, and of the breadth and depth in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—Any vessel falling under this class, the maundage of which exceeds 50 maunds according to the above method of measurement will be given the option of compounding tollage according to the rules and rates contained in Appendices A and B or paying toll per trip as laid down for vessels of Class II in Appendix B (b) : the maundage of such vessels will be determined according to the measurements laid down for Class I vessels.

CLASS II.

A.—The product of one-quarter of the length of the vessel from stem to stern measured outside and along the water-line multiplied by the greatest interior breadth of the vessel multiplied by the greatest interior depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which the tolls shall be levied.

* *The word "steamer" includes all types of mechanically propelled craft such as motor boats.*

B.—The measurement of the length is to be made in feet, rejecting inches, the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, rejecting any remainder of less than 12½ maunds. In the case of boats exceeding 500 maunds by measurement the maundage shall be reckoned to the nearest integral multiple of 50 maunds rejecting any remainder of less than 50 maunds.

D.—In the case of boats carrying passengers only, one foot shall be deducted from the full interior depth of the vessel, the other measurements and the calculations for maundage being made in the methods prescribed for vessels under Class II.

CLASS III.

A.—For vessels of class III, the number of maunds obtained by the system of measurement prescribed for vessels of class II shall be increased by one-half. For vessels of this class exceeding 1,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 100 maunds rejecting any remainder of less than 100 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

B.—In the case of steamers that have been surveyed under the Inland Steam-vessels Act, 1884, the registered tonnage entered in the certificate may be accepted as the tonnage of the steamer in lieu of measurement.

3. All vessels under class I, known and defined as saltees, will be charged under a system of compounded tollage in accordance with rules contained in Appendices A *and B (except where exempted under Rule 2, Class I (C).*

Saltees if brought into the canals from outside for sale may be allowed to pass on payment of single tolls leviable for class II boats, provided that the owner applies to the Toll Collector for such single tickets.

Boats of class II not exceeding 100 maunds measured by canal maundage will be allowed the privilege of compounded tollage at the rates specified in Appendix A at the option of the Supervisor.

4. Every vessel included in classes II and III entering or passing along the canal shall be furnished with a ticket on paying the prescribed toll. The ticket shall specify the station at which it has been issued, the name of the person in charge of the vessel, the date on which the voyage commenced, the point to which the vessel may proceed on the line of navigation, the maundage of the vessel, the amount of toll charged, the number of days allowed for the voyage, and the date of such last day. The number of days so allowed without additional payment shall be calculated as follows :—

Boats.—One day for every eight miles or portion of eight miles, to be traversed together with one day for every 100 maunds of measurement or part of 100 maunds.

Floats (timber).—One day for every five miles for any number of timbers not exceeding 50, and one day for every additional 50 or part of 50.

Rafts (bamboos).—One day for every five miles for any number not exceeding 500 and one day for every additional 500 or part of 500.

5. Every vessel which does not complete its voyage within the number of days allowed by rule 4 shall, for each day or part of a day in excess, be liable to an extra charge equal to one-half of the toll payable on the maundage of the vessel as per Schedule of Rates in Appendix B, provided that in no case shall the demurrage charged exceed Rs. 5 per diem. The Superintending Engineer may, at his discretion, exempt any boats on any line of navigation, or any portion of line of navigation, from the payment required by this rule.

Exemption from payment of demurrage may, at the discretion of the Collector of Tolls, be granted for vessels detained in the channels (steamers broken down and boats damaged) by stress of weather, should immediate notice of detention, for the information of the Collector of Tolls, Magra Hat channels, be given to the nearest toll-station.

6. All tolls are payable on demand and shall be paid at the toll-station before a vessel is permitted to proceed : Provided that *the Supervisor* may, at his discretion, permit vessels belonging to individuals or firms of

recognized standing to proceed without prepayment on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

7. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorized to do so *and delivered on exit at the last toll-station, or at the branding station in the case of licensed salties, when the ticket expires.* If, on demand, the ticket is not produced, such person shall assess the tollage as provided in rule 2, and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel will be liable to seizure and detention in accordance with the provisions of section 9 of the Canals Act, 1864.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls on payment of a sum of Re. 1: Provided that for tickets on which the total tollage is less than Rs. 4, the fee to be charged for a duplicate shall be one-quarter of the total tollage with a minimum of As. 4.

9. A vessel, which has been detained under these rules or under section 9 of the said Act, may not be removed from the place of detention without the order of the Collector of Tolls until the toll due has been paid. During such detention the manjhi, owner or agent must make arrangements for the safety of the vessel and cargo.

10. All vessels, whether the property of Government or of private owners, are liable for toll, except those exempted by the provisions of Bengal Government Circular No. 1*I*, dated the 11th July 1906.

11. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the Supervisor or Navigation Canal Officer. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank.

12. At places where mooring posts have been provided by the Supervisor or Navigation Canal Officer, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the Supervisor or Navigation Canal Officer may direct, and shall not be moored in any other manner.

13. The Supervisor or Navigation Canal Officer may, by written notice to be posted at the toll offices, prohibit the dropping of anchors or the putting up of bamboos or *luggees* in any specified part of the canals or on the banks.

14. Vessels shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the Supervisor or Navigation Canal Officer from time to time, and no boat shall be made fast to or be placed outside of boats so secured. No boat or raft shall be placed in such a position as to endanger the safety or obstruct the passage of other boats. Every vessel, when stationary, shall be securely fastened, and shall at all times have some person in attendance on board. Every vessel in motion shall have a sufficient crew.

15. Vessels passing through the canals shall keep in separate lines, empty boats keeping close to the bank, and those that are laden in the centre.

16. In portions of the canals where only one towing-path, exists, vessels shall moor on the side opposite to the towing-path, and the towing-path side shall always be kept clear.

17. Iron-built cargo-boats, with outside angle iron projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the edges of the angle iron so as to prevent them from causing damage to the locks.

18. No fire, or open, unprotected light of any description shall be used on boats containing petroleum, jute, hay or straw in any place prohibited by the Navigation Canal Officer or Supervisor, and no fire, or open, or unprotected light (except in the case of steamers, the galley and engine room fires and the electric light) shall be used on any vessel while in a lock basin.

19. No person shall wilfully or negligently allow a vessel to sink in the canals.

20. In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor or Navigation Canal Officer and his subordinates shall offer every assistance in removing the same.

If in three days after the occurrence of a wreck it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor or Navigation Canal Officer and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that, in cases where navigation is seriously obstructed, arrangements may be made at once to remove the wreck.

21. When a sunken vessel has been recovered, the Supervisor or Navigation Canal Officer shall cause notices to be posted at the locks, toll offices or other prominent places calling on those concerned to pay to the Collector of Tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the vessel and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section 9 of the Canals Act, 1864.

22. The purchaser of a vessel sold under the provisions of section 9 of the said Act shall have the right to take it out of the canal on the day of purchase, or within such time as may be allowed by the Collector of Tolls, without payment of tolls.

23. When any laden vessel which has sunk has been recovered, or when any ladden vessel has been seized under the provisions of the said Act or of these rules, the Supervisor or Navigation Canal Officer shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

24. If the Supervisor or Navigation Canal Officer be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 21 shall be effected by a notice exhibited in his office and by advertisement in at least one English and one vernacular Calcutta newspaper *as well as a local newspaper*.

25. No steam-vessel, whose length exceeds thirty feet, shall ply in the Magra Hât channels except in the following:—Diamond Harbour Creek, Usti Nainan outfall, Nazra khal, Sangrampur khal up to Sangrampur bridge, and the Surjipur outer khal up to the Surjipur bridge.

26. *Lights and signals.*—Every vessel, whether travelling or moored in the Magra Hât channels, must, between sunset and sunrise, carry a white light in a lantern on her forepart where it can be distinctly seen from all sides. All steam-vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam-vessel, whether in motion or moored, shall carry the light prescribed above.

27. *Speed of vessels.*—Every vessel plying in the Magra Hât channels must, between sunset and sunrise, limit her speed to three miles per hour. No steam-vessels shall ply between sunset and sunrise in channels detailed in rule 25.

28. No vessel shall remain in the outer entrance channels of the locks at Diamond Harbour and Uttarbhag nor in the inner lock channel and diversion channel of the Diamond Harbour lock and sluice, nor in the approach channels to any sluice. A board will be put up limiting the portion of the channels in which boats are not permitted to moor.

29. The places at which boats cannot be loaded or unloaded will be fixed by the Superintending Engineer, South-Western Circle, and will be demarcated with suitable posts and notice boards.

30. For any contravention of rules 10, 14, 15, 16, 17, 19, 20, 26, 27 and 28 *and rule 9, Appendix A*, the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 for any one infringement, or Rs. 5 a day for any continuing infringement.

31. The channels may be closed, whenever necessary, for effecting the necessary repairs to them on one month's notice of the intention so to close them being given; but, in the event of any sudden emergency, the channels may be closed at any time without prior notice, and no claim in such cases by owners of vessels or others for compensation on account of detention or otherwise shall be entertained.

32. The term "Navigation Canal Officer," as used in these rules, shall include all persons appointed to collect tolls under section 8 of the Canals

THE CALCUTTA IMPROVEMENT TRUST.

NOTICE UNDER SECTION 63 (2) OF BENGAL ACT V OF 1911.

PROPOSED PUBLIC STREET No. 1X.

Shambazar Street to Galif Street.

NOTICE is hereby given under section 63 (2) of Bengal Act V of 1911, as amended by Bengal Act III of 1915, that the Board of Trustees for the Improvement of Calcutta has prepared a plan of a proposed Public Street extending from Shambazar Street to Galif Street in Ward No. I. The plan is framed so as to provide a straight roadway 54 feet wide throughout and a total road width varying from 80 to upwards of 100 feet. The footpaths, on which will be planted rows of trees, will in places be made broader on the east and in places on the west: this arrangement is designed to avoid unnecessary destruction of property while giving a picturesque effect and providing attractive public promenades.

The proposed Public Street will pass through the following Municipal holdings:—

Name of Street.	Number of Municipal Holdings.
Galif Street ...	... 9, 10.
Galif Lane ...	... 2, 4, 8.
Haralal Mitra Street ..	... 21, 22, 23, 25, 27, 29, 31, 33.

NOTICE.

CIVIL SERVICE OF INDIA.

An Open Competitive Examination for admission to the Civil Service of India will be held in London, commencing on the 1st August; 1916, under the Regulations, a copy of which is sent herewith.

The number of persons to be selected at this examination will be announced hereafter.

No person will be admitted to compete from whom the Secretary, Civil Service Commission, has not received on or before the **1st June, 1916,** *an application on the prescribed form, a copy of which is sent herewith. No allegation that an Application Form or a letter respecting such Form has been lost or delayed in the post will be considered by the Commissioners unless the person making such allegation produces a Post Office Certificate of Posting. Candidates, who delay their applications until the last day, will do so at their own risk.*

Acknowledgments of such Application Forms are sent, and any Candidate who has filled up and returned the printed Application Form but has not received an acknowledgment of it within four complete days should at once write to the Secretary, Civil Service Commission, Burlington Gardens, London, W. Failure to comply with this provision will deprive the Candidate of any claim to consideration.

The Order for admission to the Examination will be posted early in July, 1916, to the address given on the Form of Application. It will contain instructions as to the time and place at which Candidates will be required to attend and as to the manner in which the fee (£6) *is to be paid.*

Clerkships (Class I) in the Home Civil Service.

Eastern Cadetships in the Colonial Service.

It is not intended to hold Open Competitions for Clerkships (Class I) during the period of the War.

If an Open Competition for Eastern Cadetships should be held in 1916, the last day for the receipt of forms of application will be **1st June, 1916.**

Intending Candidates would do well to apply by letter to the Secretary, Civil Service Commission, London, W., about Easter, 1916 Their attention is called to the Note printed below.

CIVIL SERVICE COMMISSION,
November, 1915.

NOTE.

When Open Competitive Examinations for the following Services, viz.:—

Eastern Cadetships in the Colonial Service;
Clerkships (Class I) in the Home Civil Service;

are held concurrently with the Open Competitive Examination for the Civil Service of India, candidates duly eligible in respect of age are admitted to compete for any two or all three of these Services, subject to the following conditions:—

(1) They must send to the Secretary, Civil Service Commission, within the time appointed, an application on the form prescribed for each of the respective services.

(2) Every successful candidate who may have been admitted to compete for either the India or the Colonial Service (or both), as well as for the Home Service, will be called upon to declare, immediately after the announcement of the result of the competitions, whether he prefers his name to remain on the list of candidates for the India or Colonial Service or on the list of candidates for Clerkships in the Home Civil Service.

The name of any candidate who fails to declare his choice when called upon to do so will be removed from the list of candidates for Clerkships in the Home Civil Service.

(3) Every successful candidate who may have been admitted to compete for both the India and Colonial Services will be called upon to declare, immediately after the announcement of the result of the competitions, whether he prefers his name to remain on the list of candidates for the Civil Service of India or on the list of candidates for Eastern Cadetships in the Colonial Service.

The name of any candidate who fails to declare his choice when called upon to do so will be removed from the list of candidates for Eastern Cadetships.

(4) All declarations of choice are irrevocable.

(5) Candidates for all three or any two of the abovementioned services will be required to pay a consolidated fee of £6.

CIVIL SERVICE COMMISSION,
November, 1915.

Copies of this paper may be obtained on application to the Secretary to the Government of India, Home Department.

EXAMINATIONS FOR THE CIVIL SERVICE OF INDIA.

REGULATIONS.

****The following Regulations, made by the Secretary of State for India in Council, are liable to alteration from year to year.*

1. An examination for admission to the Civil Service of India, open to all qualified persons, will be held in London in August of each year for such number of appointments to that Service as the Secretary of State may on each occasion determine. The date of the Examination and the number of appointments to be made for each Province will be announced beforehand by the Civil Service Commissioners.

2. No person will be deemed qualified who shall not satisfy the Civil Service Commissioners—

(i) That he is a natural-born subject of His Majesty.

(ii) That he had attained the age of twenty-two, and had not attained the age of twenty-four on the first day of August of the year in which the Examination is held, or that he is in a position to claim such a concession under the provisions of the appendix to these Regulations as will render him eligible.*

[*N.B.—In the case of Natives of India it will be necessary for a Candidate to obtain a certificate of age and nationality issued under Notification of the Government of India, No.* 2252, *dated* 21*st August*, 1888, *as amended by Notification No.* 404, *dated* 19*th May*, 1898, *and signed, should he be a resident in British India, by the Secretary to Government of the Province, or the Commissioner of the Division within which his family resides, or should he reside in Native State, by the highest Political Officer accredited to the State in which his family resides.*]

(iii) That he has no disease, constitutional affection, or bodily infirmity, unfitting him, or likely to unfit him, for the Civil Service of India.†

(iv) That he is of good moral character.

3. No person who, in a previous year, accepted the offer of a nomination as a Selected Candidate for the Civil Service of India and subsequently resigned his position as a Selected Candidate, will be admitted to the examination.

4. Should the evidence upon the above points be *primâ facie* satisfactory to the Civil Service Commissioners, the Candidate, on payment of the prescribed fee, will be admitted to the Examination. The Commissioners may, however, in their discretion, at any time prior to the grant of the Certificate of Qualification hereinafter referred to, institute such further inquiries as they may deem necessary; and if the result of such inquiries in the case of any Candidate should be unsatisfactory to them in any of the above respects he will be ineligible for admission to the Civil Service of India, and, if already selected, will be removed from the position of a Probationer.

---

* The Appendix referred to is printed on page 69.

† The Civil Service Commissioners will regard no person as constitutionally fitted for appointment to the Civil Service of India who has not been satisfactorily vaccinated within the last seven years.

(*a*) A Syllabus, defining the character of the Examination in the various subjects, may be obtained on application to the Secretary, Civil Service Commission, London, W.

From the marks assigned to Candidates in each subject such deduction will be made as the Civil Service Commissioners may deem necessary in order to secure that no credit be allowed for merely superficial knowledge.

Consistently with the limitations specified above Candidates are at liberty to name any of the foregoing subjects, provided that the maximum number of marks that can be obtained from the subjects chosen is limited to 6,000. If this maximum is exceeded by a Candidate's selection he will be required to indicate one of his subjects, the marks for which should, in his case, be reduced so as to bring his maximum marks within the prescribed limit. The marks so reduced will be subject to a correspondingly reduced deduction.

Moreover, if a Candidate's handwriting is not easily legible a further deduction will, on that account, be made from the total marks otherwise accruing to him.*

6. A list of the competitors shall be made out in order of their proficiency as disclosed by the aggregate marks finally awarded to each competitor, and in that order so many competitors, up to the determined number of appointments, as are found by the Civil Service Commissioners to be qualified by examination, shall be designated to be Selected Candidates for the Civil Service of India, provided that they appear to be duly qualified in other respects. Should any Selected Candidate become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled or not. In the former case the Candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a Selected Candidate.

7. Selected Candidates, before proceeding to India, will be on probation for one year, at the end of which time they will undergo an examination, called the Final Examination, in the following compulsory subjects (*b*):—

		Marks.
1.	Indian Penal Code	400
2.	Code of Criminal Procedure	200
3.	The Indian Evidence Act	200
4.	Indian History	400
5.	The principal Vernacular Language of the Province to which the candidate is assigned	400

The principal Vernacular Language prescribed for each Province to which Candidates are assigned is as follows:—

For the United Provinces of Agra and Oudh, the Punjab or the Central Provinces ...	Hindustani.
For Bengal or Assam	Bengali.
(unless it is the Candidate's mother-tongue.)	
For Bihar and Orissa	Hindustani.
For Burma	Burmese.
For Bombay	Marathi.
(unless it is the Candidate's mother-tongue.)	
For Madras	Tamil or Telegu.
(at the option of the Candidates).	

In Hindustani the Candidate will be required to be acquainted with both the Persian and the Nagari character.

A Candidate assigned to Bengal or Assam, whose mother-tongue is Bengali, must offer for examination Hindustani; a candidate assigned to Bombay, whose mother-tongue is Marathi, must offer for examination Hindustani; and a Candidate assigned to Madras, whose mother-tongue is either of the languages shown against his Province, must offer the other for examination.

---

* It is notified for general information that the number of marks deducted for bad handwriting may be considerable.

(*b*) Instructions, showing the extent of the examination, will be issued to Selected Candidates, as soon as possible after the result of the Open Competition is declared.

8. Selected Candidates may in addition offer in the Final Examination one of the following optional subjects:—

		Marks.
1.	Hindu and Muhammadan Law ...	450
2.	Sanskrit	400
3.	Arabic	400
4.	Persian	400
5.	Hindustani	400

No candidate who offered Sanskrit or Arabic at the Open Competition may offer the same language at the Final Examination; and only Candidates assigned to the Province of Burma may offer Hindustani as an optional subject.

9. In the Final Examination, as in the Open Competition, the merit of the Candidates examined will be estimated by marks (which will be subject to deductions in the same way as the marks assigned at the Open Competition), and the number set opposite to each subject denotes the greatest number of marks that can be obtained in respect of it. The examination will be conducted on paper and *viva voce*, as may be deemed necessary.

If any candidate is prevented by sickness or any other adequate cause from attending such examination, the Commissioners may, with the concurrence of the Secretary of State for India in Council, allow him to appear at the Final Examination to be held in the following year, or at a special examination.

10. The selected Candidates will also be tested during their probation as to their proficiency in Riding.

The examinations in riding will be as follows:—

(1) Shortly after the result of the Open Competitive Examination has been declared, or at such time or times as the Commissioners may appoint during the course of the probationary year.

(2) Again, at the time of the Final Examination. Candidates who may then satisfy the Commissioners that they are sufficiently at home in the saddle for the efficient performance of all the duties of the Civil Service of India will be awarded marks ranging between 101 and 200 according to the degree of proficiency displayed, to be added to their marks in the Final Examination. Candidates who fall short of this adequate proficiency but show such minimum proficiency as is evidence that with a moderate amount of practice they can attain full proficiency, will receive marks ranging between 1 and 100; they will be allowed to proceed to India and will on their arrival there be subjected to such further tests in riding as may be prescribed by their Government, and shall receive no increase to their initial salary until they have passed such tests to the satisfaction of that Government.

A candidate who fails at the end of the year of probation to satisfy the Civil Service Commissioners that he has reached the minimum standard of proficiency in riding, will be liable to have his name removed from the list of Selected Candidates.

11. The Selected Candidates who, on examination, shall be found to have a competent knowledge of the subjects specified in Regulation 7, and who shall have satisfied the Civil Service Commissioners of their eligibility in respect of nationality, age, health, character, conduct during the period of probation, and ability to ride, shall be certified by the said Commissioners to be entitled to be appointed to the Civil Service of India provided they shall comply with the regulations in force, at the time, for that service.

12. Persons desirous to be admitted as Candidates must apply on Forms, which may be obtained from "The Secretary to the Civil Service Commissioners London," at any time after the 1st December, in the year previous to that in which the Examination is to be held. No person will be admitted to the Examination from whom the Secretary to the Civil Service Commissioners has not received on or before the 1st June (or, if that date should fall on a Sunday or public holiday, then, on or before the first day thereafter on which their office is open), in the year in which the Examination is to be held, an application, in the handwriting of the Candidate, on the prescribed form.

APPENDIX.

1. Any person who has joined since the 4th August, 1914, or may join during the present war, the Army or Navy or Royal Marines, or has rendered or may render during the same period actual military service in the Special Reserve or Territorial Force, Royal Naval Reserve or Royal Naval Volunteer Reserve, may, if eligible in point of age under the Regulations as they now stand for admission to the examination or competition held in 1915, 1916, or 1917 (but over age in 1916, 1917, or 1918, respectively), deduct from his actual age at the time of the examination or competition held in 1916, 1917, or 1918, as the case may be :—

(*a*) The actual period of such service, if it has not exceeded three months.

(*b*) One year, if the actual period of service has exceeded three months. No candidate will be allowed to deduct more than one year from his actual age.

2. The same concession may also be granted to those who have been employed during the same period in connection with the armed forces of the Crown at home or abroad giving their whole time and under obligation to serve for the duration of the war or until their discharge, or for any period not terminable at their own option, provided that their employment be not on ordinary commercial terms, such as that of Assistant Paymasters, Clerks, artisans, and the like.

3. The grant of the concession described in paragraph (2) will be at the discretion of the Civil Service Commissioners, whose decision in each case will be final. Candidates who contemplate applying for an age deduction under (2) will do well to apply to the Civil Service Commission for a ruling on their case.

4. Candidates to be eligible for the concessions in (1) or (2) must furnish an official certificate of the period and satisfactory character of their service, and if any doubt arise whether the service of any candidate is of the kind contemplated, the Secretary of State for India in Council reserves to the Civil Service Commissioners the right to decide the case upon its merits.

The Civil Service Commissioners are authorized by the Secretary of State for India in Council to make the following announcements :—

(i) *Selected candidates will be allotted to the various provinces upon a consideration of all the circumstances, including their own wishes; but the requirements of the Public Service will rank before every other consideration.*

(ii) *An allowance amounting to* £150 *will be given to any candidate who passes his probation at one of the Universities or Colleges which have been approved by the Secretary of State, viz., the Universities of Oxford, Cambridge, Dublin. Glasgow, Edinburgh, St. Andrews, Aberdeen and London (University College); Victoria University, Manchester.*

This allowance will be paid to the selected candidate in four instalments on the following dates respectively :—December 24th after his selection, March 25th, June 24th, and the date of his signing his covenant on being finally appointed to the Service.

With the final instalment an allowance on account of passage to India will be paid to each newly-appointed civilian to the amount of £37 10s. 0d., *for passage to Calcutta, Madras or Bombay, and* £43 *for passage to Rangoon, the Officer then making his own arrangements for his passage.*

The payment of each of the first three instalments will be conditional on the receipt, by the Secretary of State, through the Civil Service Commissioners, of a Certificate that the Candidate has fulfilled up to date the requirements of the Authorities, and shown satisfactory conduct at the Authorized University or College; the fourth and final instalment will be paid as soon as the selected Candidate has signed his convenant, and for its payment no Certificate from College Authorities will be required.

The whole probation must ordinariiy be passed at the same Institution. Migration will not be permitted except for special reasons approved by the Secretary of State.

(iii) *Each Candidate will be required before receiving the first instalment of his allowance to execute an agreement binding himself and one surety, jointly and severally, to refund all moneys he may have received from the Secretary of State for India in the event of—*

(1) *his failure to pass the Final Examination within the time prescribed by the Regulations, and to satisfy the Civil Service Commissioners of his fitness for admission to the Civil Service of India, or*

(2) *his subsequent failure to execute the usual covenant, and to proceed to India, as and when he shall be directed by the Secretary of State for India.*

(iv) *All Candidates obtaining Certificates will be also required to enter into covenants, by which, amongst other things, they will bind themselves to make such payments as under the rules and regulations for the time being in force, they may be required to make towards their own pensions or for the pensions of their families. The stamps payable on these covenants amount to* £1.

(v) *The seniority in the Civi Service of India of the Candidates obtaining Certificates will be determined according to the order in which they stand on the list resulting from the combined marks of the Open Competitive and Final Examinations.*

(vi) *Candidates obtaining Certificates will be required to report their arrival in India within such period after the grant of their Certificates of Qualification as the Secretary of State may in each case direct.*

(vii) *Candidates who fail to satisfy the Civil Service Commissioners at the Final Examination held in any year will be definitely rejected, and will not be allowed to present themselves for re-examination, unless it shall appear to the Secretary of State in Council, after reference to the Civil Service Commissioners, that such failure is due to circumstances wholly exceptional and beyond the control of the Candidate.*

CIVIL SERVICE OF INDIA, etc. etc.

Syallabus of any Open Competitive Examination for the Civil Service of India, and Eastern Cadetships in the Colonial Service that may be held in the year 1916, and of any other competition that may be held in combination therewith.

In view of the importance of legible handwriting in the public service, Candidates are warned that the provision as to deductions for bad handwriting in these competitions will be strictly enforced.

Candidates are warned that full marks cannot be obtained on any paper unless the whole of it is answered, or, in cases where the number of questions to be answered is specified, unless the full number specified is answered.

English Composition.—An Essay to be written on one of several specified subjects.

Sanskrit Language and Literature.—Translation from Sanskrit; composition in Sanskrit; Sanskrit Literature, including the life, thought, and antiquities of Ancient India, together with such knowledge of history as bears upon the subject; questions on the Sanskrit Language (including questions on Philology).

Composition will be required in Classical Sanskrit alone; elsewhere Vedic Sanskrit is also included.

Candidates are expected to make a special study of the Seventh Mandala of the Rig-veda, but other Vedic hymns may also be set in the examination.

Arabic Language and Literature.—Translation from Arabic; set composition and free composition in Arabic; Arabic Literature, including the life and thought of the Arabs as shown in the literature, together with such knowledge of history as bears upon the subject; questions on the Arabic language (including questions on Philology).

Greek Literature.—Questions on the Greek Language (including questions on Philology), Literature and Antiquities.

Latin Literature.—Questions on the Latin Language (including questions on Philology) and on Roman Literature and Antiquities.

English Language and Literature.—The Examination will be in two parts. In the one Candidates will be expected to show a general acquaintance with the course of English Literature, as represented in the chief writers in verse and prose, between the reign of Edward III and the death of Queen Victoria.

A minute and detailed knowledge will not be looked for in this part of the Examination. But its aim will be to test how far the Candidates have studied at first hand the chief productions of the greatest English writers, and are acquainted with the leading characteristics of their thought and style, and with the place which each of them occupies in the history of English Literature.

The other part of the Examination will relate to one of the following periods, which will follow each other year by year in rotation.

Period I: 1360 to 1600, Chaucer to Spenser.
Period II: 1600 to 1660, The later Elizabethans.
Period III: 1660 to 1744, The age of Dryden and Pope.
Period IV: 1744 to 1800, From the death of Pope to Cowper.
Period V: 1800 to 1832, Nineteenth Century writers to the death of Scott.
Period VI: 1832 to 1892, From the death of Scott to the death of Tennyson.

The Examination in this part will require from the Candidates a more minute acquaintance with the history of the English Language and Literature, as illustrated in the chief works produced in each period, and will be based to a considarable extent, but by no means exclusively, on certain books specified each year by the Commissioners. The names and other indications placed beside the dates are intended to suggest the general character of the literary development of the period, and consequently, the natural limits of the Examination. All the works of Shakespeare and Milton, for example, will be regarded as falling within the period 1600 to 1660; all the works of Wordsworth and Coleridge within the period 1800 to 1832; all the works of Carlyle, Landor, and Macaulay within the period 1832 to 1892.

For the year 1916, Period V (1800—1832) is prescribed, and the following are the specified books :—

Wordsworth.—Lyrical Ballads, 1798; Poems published in 1807; The Prelude; Pamphlet on The Convention of Cintra.
Coleridge.—Poems; Biographia Literaria; On the Constitution of the Church and State.
Scott.—Waverley; The Fortunes of Nigel; The Bride of Lammermoor; Old Mortality; The Antiquary.
Byron.—English Bards and Scotch Reviewers; The Giaour; Manfred; Cain; The Vision of Judgment.
Moore.—Life of Byron.
Shelley.—Prometheus Unbound, with other poems published in 1820; The Cenci; The Defence of Poetry.
Keats.—Lamia, Isabella, The Eve of St. Agnes and other poems published in 1820; Letters.
Lamb.—Essays; Letters.
Jane Austen.—Pride and Prejudice; Emma.
Hazlitt.—Winterslow; The Spirit of the Age; Lectures on the English Poets.
Oxford Book of Verse, Nos. 515—637.

Italian Translation, Composition and Conversation.—In the conversation test importance is attached to pronunciation. The study of phonetics is an important aid to correctness of pronunciation.

Italian, History of the Language and Literature.—Passages for translation may be set, and questions asked, demanding a knowledge of the language in its early stages; but it will not be obligatory upon candidates to master in detail the old form in use before the time of Dante. Candidates will not be requirsd to write their answers in Italian.

French Translation, Composition and Conversation.—In the conversation test importance is attached to pronunciation. The study of phonetics is an important aid to correctness of pronunciation.

French, History of the Language and Literature.—Passages for translation may be set, and questions asked, demanding a knowledge of the language in its early stages; but it will not be obligatory upon candidates to master in detail the old forms in use before 1500. Candidates will not be required to write their answers in French.

German Translation, Composition and Conversation.—In the conversation test importance is attached to pronunciation. The study of phonetics is an important aid to correctness of pronunciation.

German, History of the Language and Literature.—Passages for translation may be set, and questions asked, demanding a knowledge of the language in its early stages; but it will not be obligatory upon candidates to master in detail the old forms in use before 1500. Candidates will not be required to write their answers in German.

Lower Mathematics.—Plane Geometry including conic sections; Solid Geometry including the method of orthogonal projection; Algebra and Plane Trigonometry; Elementary Plane Co-ordinate Geometry; Elementary Mechanics of solids and fluids; Geometrical Optics; Elements of Differential and Integral Calculus with simple illustrations from other branches of the subject. The questions may involve the use of drawing instruments. The use of the slide rule is allowed.

Higher Mathematics.—Higher Algebra (including Theory of Equations), Plane and Spherical Trigonometry, Differential Calculus, Integral Calculus, Differential Equations, Analytical Geometry (Plane and Solid), Statics including Attractions, Dynamics of a Particle, Rigid Dynamics, Hydrodynamics, the Mathematical Theory of Electricity and Magnetism. The questions may involve the use of drawing instruments. The use of the slide rule is allowed.

Chemistry, Physics, Geology, Botany, Zoology, Animal Physiology.—Candidates are warned that the practical Examinations carry a large proportion of the marks.

Geography.—Geography as understood in the Universities, not excluding topics which concern geography jointly with other subjects such as economics, history, physics, botany, and geology. There will be a practical test which will necessitate a knowledge of cartographical methods and notations, and for this test drawing instruments may be required.

Greek History.—Questions (*a*) on the General and (*b*) on the Constitutional History of Greece to the death of Alexander. Candidates will be expected to show a knowledge of the original authorities. They must also be prepared to answer questions on historical geography, and to draw sketch maps.

Roman History.—Questions (*a*) on the General and (*b*) on the Constitutional History of Rome to the death of Trajan. Candidates will be expected to show a knowledge of the original authorities. They must also be prepared to answer questions on historical geography, and to draw sketch maps.

English History.—The subject will include (*a*) the Political History of the British Isles and the Colonies; (*b*) the Constitutional History of England. Candidates should be acquainted with the following authorities :—

Period I, to 1485. Stubbs, Select Charters, ninth edition [Clarendon Press].

Period II, 1485 to 1848: Prothero Statutes and Constitutional Documents [Clarendon Press]; Gardiner, Documents of the Puritan Revolution [Clarendon Press].

In each period the number of marks assigned to the question or questions dealing with the text of the prescribed books will be about one-sixth of that assigned to the whole period. Candidates must be prepared to answer questions on historical geography, and to draw sketch maps.

General Modern History.—Candidates may, at their choice, be examined in any *one* of the following periods. Periods III, IV, and V will include Indian History. Candidates are warned that high marks will not be awarded in this subject unless the text of the prescribed books has been carefully studied by them. Candidates must be prepared to answer questions on historical geography, and to draw sketch maps.

I. From the accession of Charlemagne to the Third Crusade. [A.D. 800 to A.D. 1193.]

Secy. to the Govt. of India.

The following notification, issued by the Government of India in the Legislative Department, published in the *Gazette of India* dated the 22nd January 1916, is republished for general information.

J. H. KERR,

Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

Delhi, the 19th January 1916.

An Ordinance to take power to prevent the clearance for home consumption, whether from a ship or from a warehouse, of dutiable goods the demand for which is excessive having regard to the ordinary course of such transactions, and to take power to limit or restrict the clearance or removal of salt from salt works.

WHEREAS an emergency has arisen which makes it necessary to take power to prevent the clearance for home consumption, whether from a ship or from a warehouse, of dutiable goods the demand for which is excessive having regard to the ordinary course of such transactions, and to take power to limit or restrict the clearance or removal of salt from salt works ;

[9 & 10 Geo 5, c 61] Now, therefore, in exercise of the power conferred by section 72 of the Government of India Act, 1915, the Governor General is pleased to make and promulgate the following Ordinance :—

ORDINANCE No. II OF 1916.

Short title

1. This Ordinance may be called the Dutiable Goods and Salt Ordinance, 1916.

[of 1878] **2.** All words and expressions used in section 3 of this Ordinance and defined in the Sea Customs Act, 1878, shall be deemed to have the meanings respectively attributed to them by that Act.

Definitions

"Salt work" means any place where salt is kept and issued subject to the control of Government.

Power to Governor General in Council to authorise by order Chief Customs Officers to refuse excessive clearances

[of 1878.] **3.** If in the opinion of the Governor General in Council such a course is desirable in the public interest, the Governor General in Council may, notwithstanding anything to the contrary in the Sea Customs Act, 1878, or any other law for the time being in force, by order in writing authorise Chief Customs Officers or any Chief Customs Officer to refuse to allow clearance for home consumption, whether from a ship or from a warehouse, on payment of duty of any dutiable goods, where in the opinion of the Chief Customs Officer the demand for clearance of such goods is excessive having regard to the ordinary course of such transactions.

Power to restrict clearances or removals of salt from salt works

4. The Governor General in Council may, in like circumstances to those referred to in section 3, and notwithstanding anything to the contrary in any Act relating to salt revenue or any other law for the time being in force, by order in writing authorise any person having control, on behalf of Government, over salt works, to limit or restrict in such way as such person thinks fit, the clearance or removal of salt therefrom notwithstanding that all sums due or leviable in respect of such salt have been paid.

Barring of jurisdiction of courts

5. No court shall call into question any order made under this Ordinance, and no suit, prosecution or other legal proceeding shall lie against any person for anything which is in good faith done or intended to be done under this Ordinance or any order made thereunder.

LAND SALE NOTICES.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Bengal-Nagpur Railway, in the district of Midnapore, will be put up to sale at one o'clock on Thursday, the 16th March 1916, corresponding with the 3rd Chaitra 1323 Amli at Dhenga, pargana Kedarkundu.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary, or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders subject to an upset price.

5th.—The sale will become final on receipt by the Collector of the orders of the Commissioner confirming it and a regular deed of conveyance will then be granted to the purchaser.
